**Titus Industrial Strikes Premier Partnership with Global
Fire Protection Products Leader**

Now entering its 100th year, Reliable Automatic Sprinkler Co., Inc. adds Titus products to its line of system components

December 19, 2019, Dallas, TX – Reliable Automatic Sprinkler Co., Inc. and Titus Industrial announce a new Premier Partnership as Reliable® begins celebrating its 100th year in business. Reliable® will offer the full range of Titus pipe connection products in its 18 Sales and Distribution Centers beginning the first quarter of 2020.

Founded in 1920, Reliable® is a leading global manufacturer and distributor of fire protection equipment. Reliable® is an established, respected leader in the Fire Protection industry, producing the highest quality and most innovative fire sprinklers, valves, and special systems on the market, and distributing a full line of best in class system components with partners like Titus.

“We could not have aligned ourselves with a better national partner to distribute our fire products in the Americas market,” said Titus CEO Max Farley. “Titus has established their name as a premium provider in the high-pressure Industrial and Energy markets, and we’re looking forward to bringing our high-quality battle-tested products to the Fire Protection industry. Reliable's expansive distribution network, technical expertise, industry leading service, and customer relationships make them the perfect fit with Titus.”

Reliable® President Kevin T. Fee added, "Put simply, the Titus partnership is just one more way Reliable® continues to improve the portfolio of products to our contractor customers. We are always looking for more ways to give Reliable® customers a competitive advantage when bidding and installing jobs. This is a prime example."

About Titus

Titus Industrial is the modern supply chain for high quality industrial connections. First to market with a purpose-built Inventory as a Service™ model, Titus simplifies business-to-business consumption of industrial connections by building a custom supply chain for each customer's business. With the industry's leading quality control program and strategically located distribution centers, Titus brings the nation's most efficient and advanced supply chain to the energy, fire protection, and industrial sectors. Powered by custom cloud and data analytics software, Titus offers unmatched value before, during, and after production. To learn more, visit www.titusindustrial.com.
