New Horizon Soft, LLC

New Horizon Planning Suite

The Challenge

Companies want to improve operation efficiency through supply chain planning software. However, they usually need to take huge risks when making decisions for software purchasing and implementation

New Horizon Guaranteed Success Program

New Horizon offers "Guaranteed Success Program" to mitigate client risks:

- Clients are not required to pay license/subscription or professional fees upfront or during implementation

- Clients are allowed to cancel the software purchase at any time even after go live without penalty

New Horizon Planning Suite Modules

- **Demand Planning**: Uses machine learning and AI technology including **Prophet,** backed by Facebook. Increase forecast accuracy up to 15%

- **Buyer's Workbench**: Suggests supply planning orders to meet business requirements including truckload optimization and forward purchasing

- **Sales and Operation Planning:** Conduct what-if scenarios analysis

- **MEIO (Multi-Echelon Inventory Optimization)**. Recommends inventory policy using machine learning. Up to 33% inventory reduction

New Horizon Solution Benefits

- Increase customer order fulfillment rate

- Reduce inventory and carrying cost

- Increase revenue and margin
