# H.A.L.F. THE MAKERS

NATALIE WRIGHT

## **Bio:**

Natalie is the author of the award-winning science fiction series *H.A.L.F.*, and *The Akasha Chronicles*, a popular young adult fantasy trilogy with over **2 Million** reads on Wattpad. She lives in Tucson, Arizona with her husband, teen daughter, and two cat overlords. Natalie spends her time writing, reading, geeking out over nerd culture and cool science, and meeting readers and fans at book festivals and comic cons throughout the western United States. Natalie appears frequently on radio, podcasts and vlogs such as The Speculative Fiction Cantina, Front Row Geeks and iHeart Radio.

## **Book Description:**

### **Short:**

***Roswell. Area 51. The X-Files.***

***You've seen the aliens known as "the Greys" in movies and on T.V. But what if everything you think you know about them is wrong?***

***And what if the Greys are only the beginning?***

On a nondescript planet on the far side of the galaxy, the M'Uktah have evolved from a wolf-like predatory creature into a highly advanced species that has mastered intergalactic travel. They are cultured. Refined.

And hungry...

### **Long:**

***Roswell. Area 51. The X-Files.***

***You've seen the aliens known as "the Greys" in movies and on T.V. But what if everything you think you know about them is wrong?***

***And what if the Greys are only the beginning?***

Erika Holt dodged death and departed Earth in an alien ship. It wasn't how she'd planned to spend her senior year. Is Erika on her way to paradise? Or to a hell worse than the underground lab she escaped?

The greys rescued Tex from the underground lab and promised him a life he could never have imagined. But what will he have to give up to become one with The Conexus?

Jack Wilson is still Commander Sturgis' prisoner, but a promise of freedom comes from an unlikely source. Will his liberation cost more than he's willing to pay?

On a nondescript planet on the far side of the galaxy, the M'Uktah have evolved from a wolf-like predatory creature into a highly advanced species that has mastered intergalactic travel. They are cultured. Refined.

And hungry...
