“BEAT THE CHAMPS” CONTEST INCENTIVE FEATURES

LEAGUES WITH 100% ENTRY!

Leagues with a minimum of 24 members that enter their entire league at 100% will automatically qualify their highest league bowler into the BTC Sectional Roll-offs. Mixed Leagues will advance the High Man and High Woman.

NOTE: Leagues that meet the above criteria will automatically advance their high bowler (Man & Woman if a Mixed League). If the **HIGH BOWLERS** in the establishment are from a 100% League, the next highest bowler in the league will advance based on the standard advancement formula.

WHAT IS A 100% LEAGUE??

A league will be considered to be 100% in strength on the night of bowling during the BTC Contest Week when all of the member's present, less non-eligible members as described below, enter the contest.

NOTE!!!! *The 100% number must include Absent Bowlers who are otherwise eligible, thus including an entry fee for the absent bowlers. Leagues do not have to pay for Vacant Bowlers.*

Proprietors and members of their families are ineligible to advance and are not counted towards your 100% league playing strength. Also, current or former PBA/PWBA exempt professionals are not eligible for this tournament or PBA/PWBA bowlers who have won a national title.

Any employee of any bowling establishment may participate if otherwise eligible.

EXAMPLE - An 8-team league with five members per team = 40 bowlers; there are 2 vacancies and 3 absent bowlers. This league will qualify as a 100% league, provided they pay for 38 (all eligible) bowlers.

LEAGUE CLASSIFICATION RULING

To advance one male & one female representative from a 100% participation league to the Sectional Roll-Offs, the total membership of the league must comprise a minimum of 20% of the lesser gender in order for the lesser gender to advance.

NOTE - Tournament Handicap is now 90% of 220 for all bowlers.
