

Cardiologist Recruitment

The Clinic:

Southern Alberta Medical is a new health centre located in Medicine Hat, Alberta. We are a multidisciplinary medical specialty group practice providing comprehensive cardiac, respiratory, and general internal medicine services to southeastern Alberta and southwestern Saskatchewan. Key on-site services include consultation, cardiac stress testing, cardiac nuclear SPECT imaging, echocardiography, carotid ultrasound, electrocardiography, Holter monitor, ambulatory blood pressure monitor, pulmonary function testing, level 3 sleep study, CPAP, home oxygen, and comprehensive cardiopulmonary rehabilitation.

Cardiologist Job Description:

We are actively recruiting three Cardiologists to join our clinic-based group practice. The qualified candidates will be proposed for hospital privileges at Medicine Hat Regional Hospital. Preferred qualifications:

- Canadian trained Internal Medicine residency & Cardiology fellowship
- Candidates must possess or be able to obtain an unrestricted General Register license with the College of Physicians & Surgeons of Alberta
- Candidates must possess or be able to obtain Fellowship in Internal Medicine and Cardiology with the Royal College of Physicians and Surgeons of Canada

southernalbertamedical@outlook.com

The Team:

The President and Board of Directors are developing a team of 30 members including cardiologists, respirologists, general internists, exercise treadmill technologists, nuclear medicine technologists, echocardiography technologists, respiratory therapists, exercise physiologists, medical office assistants, pharmacists, and administrative staff.

The City:

The City of Medicine Hat has a population of 70,000 people with a total catchment of 120,000 people in southeastern Alberta and southwestern Saskatchewan. The city strives to achieve its vision to be a 'Community of Choice'; a place where people choose to live, work and play. Medicine Hat experiences the lowest combined tax rate in Canada. In addition, Medicine Hat is known as Canada's sunniest city. The winters are warmer as Chinook winds keep humidity low with moderate winter temperatures. Medicine Hat has excellent recreation facilities for both indoor and outdoor activities.
