All,

With state regulations banning competitive 5-on-5 basketball for the time being, private instruction and small group instruction is the most productive thing a young athlete can do to develop their basketball skills during these challenging times. We recently began offering 1-on-1 private instruction at our client's residences, as well as, small group instruction with 2,3,4, and 5+ athletes participating at one time. The sessions are 60-minutes long and they are tailored to the age and ability of the athletes participating. Each session is designed to challenge and improve the skill set of the participant, as well as, develop the child's knowledge of the game of basketball. With clients all over Southeastern Massachusetts, we are willing to come right to your front door this summer and fall. If you would like to schedule a session or discuss rates, please email [babulbasketball@gmail.com](mailto:babulbasketball@gmail.com) or call Mike Babul at 718-737-8125. We hope to see you this summer!

Thank you,

Mike and Jon Babul

Hello Ballers,

I hope you are having a great summer. I know it was not your typical summer, but hopefully you were able to have some nice family time/cookouts. Unfortunately games for summer league were not able to start up like we thought so, during phase 3. I do think you all may be participating in practices down at MPC like my high school team. So I will try to get down to see some if I can. In the meantime here is one of my favorite ball handling videos with some great drills on it. Make sure to keep working on those ball handling skills <https://youtu.be/1K0rlzOXOZY>. Everyone needs to be able to handle the basketball, big or small!!

Remember keep working on it you may not get it right away. You will make mistakes. It will be hard but you never get better unless you make mistakes and continue to work. I hope you all continue to enjoy your summer and stay healthy and safe. I look forward to seeing you all soon!
