### Book Recommendation:

#### Failing Forward: Turning Mistakes into Stepping Stones for Success — John C. Maxwell

"The difference between average people and achieving people is their perception of and response to failure.

Most people are never prepared to deal with failure. Maxwell says that if you are like him, coming out of school, you feared it, misunderstood it, and ran away from it. But Maxwell has learned to make failure his friend, and he can teach you to do the same." —amazon.com
