

# WOMEN

HONORING ♀ GLOBAL SISTERHOOD

---

For 17 years, the Charleston Gospel Choir has benefited from the generosity of audiences locally, nationally, and internationally in the ten countries we have visited, anchored by the ongoing support of patrons and congregations here in the Lowcountry.

Our mission has been and will continue to be multicultural inclusion—bringing people together through the universal language of music.

For this reason, we feel it is crucial our performances unite and not divide. We also strongly believe we have a responsibility to our patrons and our choral population to always showcase women in a manner that supports the advances of women here and around the globe.

The recent gathering of thousands of women from every economic, educational, and political segment here in the U.S. demonstrated and underscored this vision and displayed a common cause—respect for women.

In acknowledgement of the current climate and to ensure the collective voice of women is respected and heard, the Choir will do what we have always done—bring people together to honor and respect our mothers, sisters, aunts, and family of women in a presentation entitled ***WOMEN: Honoring Global Sisterhood.***

Through moving spirituals and gospel selections, we will honor our sisters-at-large and commend all women for their rock-solid integrity here and around the globe.
