

Dear Arbor Heights families,

In addition to Ms. Collins' message, I wanted to express how deeply upset and disappointed I am that someone went out of their way to intrude on an event that was one of the few opportunities for our kids to socially interact with their peers and do something fun outside of class. This was a traumatic experience to those in attendance, and there is no way around it. Ms. Collins and the staff are diligently following up on this matter.

In our current reality of doing most interactions in a remote fashion, this is a reminder that we need to continue being vigilant in our online interactions and implement the best approaches to reduce the risks of unwanted intrusion. With that said, we are committed to having events, whether school or PTSA run, with the necessary safeguards in place to give our kids the experience they deserve.

Regards,
