Lack of CARES Act Extension

Brothers and Sisters,

I am very disappointed the extension was not passed yesterday. I know for many of you this leads to pain and confusion about the future. I understand what you're going through but please do not give up hope. There is broad bipartisan support for airline relief in Congress. Our lobbyists believe a package will pass shortly and I remain hopeful it will.

In the meantime, while we wait on Congress, remember if you need help your Locals have many resources to assist. In addition, the EAP program can also be very helpful in stressful times. If you'd like to help put pressure on Congress, I urge you to call your Senators and Representatives to implore them to pass relief quickly for our industry. The phone number for the Capitol switchboard is 202-224-3121. The operator will patch you through to your Senator or Representative.

With high regards,

Vinny Graziano
Airline Division
