

ESM Consulting Engineers LLC (ESM) is a locally owned company with offices in Federal Way and Everett that has been in business since 1982. We provide civil engineering, surveying, land use planning, landscape architecture and GIS services to our public and private clients throughout the Pacific Northwest.

ENGINEERING TECHNICIAN / CADD DESIGNER

Under the supervision of a project manager, the Engineering Technician / CADD Designer will work on diverse civil engineering projects, both public and private. You will review project specifications and confer with engineers regarding assistance needed, such as plan preparation, design changes, and reports. You will also be responsible for project completion in compliance with office standards and work effectively under project budget and schedule requirements.

EDUCATION & EXPERIENCE

- High school diploma
- Graduate of technical school with emphasis in computer drafting or equivalent experience.
- 5+ years of drafting and design experience including AutoCAD and Civil3D.

ESSENTIAL DUTIES AND RESPONSIBILITIES INCLUDE:

- Ability to design basic grading, water, sewer, and storm drainage utility systems with engineering assistance
- Have an understanding of how the design of one utility may affect another utility and/or the grading of a site
- Proficiency in all aspects of Civil3D and able to handle grading projects with several project constraints, including earthwork calculations
- Ability to complete drafting/design assignments to meet project schedules
- Must be a self-starter, proactive, ambitious

ESM offers an excellent benefits package to our full-time employees which include:

- Medical/Dental/vision
- 401(k)
- Competitive salary
- Profit sharing
- Great opportunities for growth
- Fun office atmosphere
