Welcome

Thank you for your interest in the Illinois College of Nursing (ICON). This school is owned and operated by nurses that are passionate about inspiring the future generation of nurses. It opened its doors in 2013 with seven enterprising students. Within the last 5 years the programs student population has flourished and we continue to grow. At ICON we have a strong commitment to support and advance the nursing profession by providing nurse training built on nursing excellence and to improve healthcare outcomes by producing skillful, knowledgeable and compassionate nurses. We are very proud of the program we have developed and are committed to helping you start a promising career in nursing.

Best Wishes,
Illinois College of Nursing Administration
Staff

Officers
Dr. Hana Malik  DNP, APRN  Chief Executive Officer (CEO) & Lead Instructor
Rama Seedoo  Chief Operations Officer (COO)

Administration
Dr. Cynthia R. Hodges  DNP, MSN, RN  Program Administrator
Pearl Callaghan  APRN-BC  Academic Director
Karen Rademacher  Administrative Assistant

Mission

The mission of the Illinois College of Nursing (ICON) is to provide exceptional nursing education, emphasizing integrity and compassion, to cultivate skilled and competent nursing professionals.

ICON will strive to accomplish its mission through its commitment to the following goals:

- Provide a learning environment that will enrich the academic experience and promote student success.
- Encourage the intellectual and personal growth of students and faculty.
- Promote self-integrity and compassion for all.
- Choose faculty who are knowledgeable, experienced and dedicated to the success of their students.
- Continually review and revise the curriculum.
- Provide resources needed to facilitate the educational objectives of the student and the college.
- Devise learning experiences to reflect current health care trends while utilizing evidence based nursing practice and current research.
- Foster community relationships.
- Instill a passion for lifelong learning.
Philosophy

The nursing faculty at the Illinois College of Nursing believes:

In a global society the rights and values of every human being should be recognized regardless of their race, age, color, sex, religion, disability, national origin, lifestyle or illness. In accordance to Maslow’s Hierarchy of needs, we recognize that each living human being has complex physical, mental, emotional, and social needs and meeting these needs across the lifespan is necessary for survival and optimal health. In addition, we believe that it is the basic human right for each individual to maintain and enjoy the best level of health possible including the right to the best possible nursing care.

Nursing is an art and science of integrating knowledge and skills derived from biological, sociological, behavioral and technological sciences and theories to deliver effective, client-centered, culturally conscious and holistic care. We believe, through an interpersonal process of caring and empathy to develop therapeutic relationships with the client, the nurse integrates the art of nursing with the scientific foundation for nursing practice which is based on the nursing process, to deliver competent care.

Practical nursing is an essential part of nursing and healthcare. Practical Nursing education provides an opportunity to improve society utilizing practical skills that will serve the community. We believe the practical nurse can improve healthcare outcomes by providing safe, effective, evidence-based, therapeutic, unbiased and competent care for all clients of all ages and stages in a variety of structured settings under the supervision of a registered professional nurse, licensed physician, dentist or podiatrist. Licensed Practical Nurse’s utilize critical thinking skills and the nursing process to deliver competent and compassionate care to all clients.

Education incorporates a teaching-learning process resulting in positive changes within each student. We believe to achieve excellence in nursing education, qualified faculty must continually develop, implement, evaluate and revise the curriculum, keeping the contents reflective of current health care changes, while maintaining the standards of nursing education. We believe, for maximum learning, students must optimize every educational opportunity by being motivated, taking initiative, showing self-direction and actively participating in the teaching-learning process. Well-qualified and passionate teachers can then successfully facilitate learning by sharing knowledge and guidance while creating an environment of mutual trust, caring, and respect.
Continuing education is an ongoing process of building on previous learning experiences which is essential for personal and professional growth. Learning is a dynamic life long process of gaining new skills and knowledge, facilitating a change in behavior. Since human beings and science are constantly evolving, it is critical that individuals maintain an awareness of these changes to keep their services relevant. We believe that it is the responsibility of all faculty, students and graduates to maintain competence and increase skills by continually seeking knowledge and guidance for optimal and effective care of the client.

Core Concepts

1. Moral/Ethical Principles
2. Clinical Competence
3. Cultural Competence
4. Compassion and Caring
5. Critical Thinking
6. Effective Communication
7. Lifelong Learning
8. Growth Mindset

Program Competency

1. Recognize the nursing process as a systematic decision making and problem solving approach for the evaluation of client needs.
2. Assess pertinent data from various sources to identify client’s healthcare needs throughout the life span.
3. Contribute to the plan of care for client by developing evidence-based strategies to promote, maintain or restore a state of health using approved nursing diagnoses.
4. Utilize critical thinking skills and the nursing process to deliver competent care to clients.
5. Apply nursing principles using a holistic approach including empathy, respect and therapeutic interactions without bias to assist individuals of different ages, genders, races, and cultures to meet their basic needs and maintain homeostasis.
6. Effectively evaluate the client’s response to nursing care and contribute to the revision of nursing care plan if needed.
7. Communicate and collaborate effectively with clients, families, and members of the health care team to address client needs with respect for physical, psychological, socio-cultural and spiritual dimension.

8. Demonstrate a commitment to personal and professional growth by practicing within the framework of the nursing profession's legal and ethical parameters.

**Nursing Program Objectives**

1. Implement evidenced based nursing care within a safe, legal, ethical framework and within the practical nurse scope of practice (Core concept: Ethical, Clinical competence).

2. Utilize therapeutic effective communication in collaboration with other healthcare professionals, clients and other stake holders (Core concept: Effective communication)

3. Demonstrate a compassionate, empathetic and caring attitude when providing care to a diverse community (Core concept: Compassion and caring, Cultural competence).

4. Utilize the nursing process and critical thinking strategies and Maslow’s Hierarchy of needs to meet the needs for health promotion when biological, spiritual, psychosocial and cultural needs are unmet (Core concept: Cultural competence, Critical thinking)

5. Accept accountability to continually improve personal development through life-long learning (Life-long learning).

6. Incorporate a growth mindset to expand knowledge and reach optimal (Core concept: Growth mindset)

**Graduate Outcomes**

The Practical Nursing Program at the Illinois College of Nursing (ICON) will provide each graduate with the knowledge and skills necessary to competently function as an entry level practical nurse within the legal and ethical framework set by state licensing laws and under the supervision and/or direction of a registered nurse and/or the licensed physician, dentist or podiatrist. The following is a list of competencies expected from the graduate upon completion of the Practical Nursing Program at ICON.
Graduation Rates

Goal: Eighty percent of the students who enter the nursing program will successfully complete the program.

Evaluation: Program review at the end of each cohort

Nursing Program Satisfaction

Goal: Eighty percent of students will express satisfaction with the preparation received from the program.

Evaluation: Students will receive mid-course and end of course evaluations for each course, lab/clinical and faculty

Licensure Examination Performance

Goal: Ninety percent of the graduates will pass the state licensure exam.

Evaluation: Nursing Program Exit Examination Reports from the Illinois Practical NCLEX-PN Report

Job Placement

Goal: 80% percent of graduates seeking employment in their field will be employed as an entry-level practitioner within six months of being granted state licensure.

Evaluation: Graduate survey to be sent out six months after completion of each cohort

Employer Satisfaction

Goal: 80 percent of the employers of graduates will express satisfaction with the preparation of the graduates.

Evaluation: Employer survey to be sent out six months after notice of students employment.

ICON is an establishment of high standards and is proud to be affiliated with nationally recognized organizations to provide optimal level of education and services. This is evidence
that ICON will continually work to maintain and increase these standards to offer only the highest level of educational instruction.

ICON HAS BEEN APPROVED BY THE:

Illinois Board of Higher Education
Illinois Department of Financial and Professional Regulation

AND IS A MEMBER OF THE:

National League for Nursing
National Association for Practical Nurse Education & Service

The Illinois College of Nursing has articulations agreements with Indiana State University in Terre Haut, IN, Rasmussen College in Oak Brook, IL as well as Saint Xavier University in Chicago, IL. All of the aforementioned institutions will accept qualified graduates from Illinois College of Nursing’s Practical Nursing Program if they meet all of the admission requirements put in place by the institution.

Accreditation Status

The Illinois College of Nursing is not currently accredited by a US Department of Education recognized accrediting body.
Academic Calendar

The Illinois College of Nursing observes the following holidays:

**Note:** In the occurrence of adverse weather conditions we may need to extend the school year.
Facilities

The Illinois College of Nursing is located at 55 West 22nd St., Suite 200, Lombard, IL 60148. The Contact number is (630) 495-7968. This facility has a classroom, library with computer lab and learning resource center for supplemental clinical practice. All theory classes will be held at this location. The school will be open during all class hours and for 1 hour prior and 1 hour after each class. Students are welcome to utilize the student lounge, kitchen area, and computer lab during these times. Clinical rotations will be conducted at various healthcare facilities which will be assigned to each student accordingly. Students are not allowed to loiter around clinical facilities prior to or after clinical classes without the presence of an instructor and must adhere to all of the facilities rules.

Learning Resource Center

No food or drink is permitted in the Learning Resource Center (LRC). Students must have faculty permission to use the LRC at all times. Before using the facility, students must be aware of all safety and emergency procedures regarding the LRC. Students are responsible for keeping the area clean after each use.

Break Room

Students may utilize the kitchen area at any time the school is open. All food and drink is prohibited in areas outside of the kitchen, with the exception of bottled water permitted in the classroom. Refrigerators are intended for daily use only; all items remaining in the refrigerator at the end of each week will be discarded. Students are responsible for picking up after themselves and keeping the kitchen area clean so that everyone may enjoy the facility.

Lockers

Lockers are conveniently located near the classroom for daily/temporary use. Students are only to use lockers that are assigned to them and are prohibited from receiving and storing items with unknown or questionable contents in their lockers for other parties. All locker contents must be removed at the end of each day; any non-perishable items, left behind will be kept in the Lost and Found for a period of no more than 5 business day. ICON is not responsible for the loss or damage of personal items left in student lockers.
**Smoke-Free Campus**

Smoking is prohibited on ICON’s premises and within 15 feet of the building. Restricted tobacco products include but are not limited to cigarettes, cigars, and any form of smokeless tobacco.

**Alcohol and Substance Abuse Policy**

In accordance with the Drug-Free Schools and Communities Act of 1989, ICON promotes a drug-free learning environment and has a zero-tolerance policy for drug and substance abuse. The possession, consumption, sale, or distribution of illicit drugs or alcohol on ICON’s property is strictly prohibited. The illegal use of drugs strongly defies ICON’s mission and philosophy for each student to develop integrity, compassion, and academic excellence. Any student in violation of this policy will be subject to disciplinary action and potentially terminated from the program and the school indefinitely. Additionally, if necessary, ICON will cooperate with local, state, and federal law enforcement in cases regarding illegal drugs.

**School Safety**

ICON is committed to maintaining a safe and positive learning and working environment free of violence, discrimination, and harassment for all students, staff, and faculty. ICON will not tolerate the presence of any weapons on the property or any acts of aggression or violence. Violators are subject to disciplinary action as determined by ICON’s “Violation of Conduct Code” and civil authorities if applicable.

**Surveillance**

ICON may utilize surveillance video to promote the safety of all students, faculty, and staff.

**Children on Campus**

For their safety, children should not be brought to ICON’s campus unless they can be accompanied by an adult at all times. Children are not permitted in the classroom, computer lab, or the learning resource center.

**Transportation & Parking**

It is the responsibility of the student to find transportation to and from ICON as well as clinical facilities. Students are welcome to carpool with each other, but they must make their own
arrangements. Students may park in the North, East, or South lots of the building; however the North lot has the closest entrance to our facility.

**Inclement Weather**

In the event of severe weather, ICON facilities may be closed and classes may be cancelled, in which case students would be notified as soon as possible via E-mail and Facebook. If clinicals were scheduled for that day, each student should contact their individual instructor. Some facilities may be closed while others are open, so students should not rely on their peers for instruction. ICON is not responsible for decisions regarding when and where to travel; students must make an individual judgment for themselves and their safety. Instructors will inform their students of make-up activities for clinical absences due to inclement weather.

**Emergency Evacuation Procedure for Faculty, Staff and Students**

The Illinois College of Nursing is committed to providing a safe environment for all faculty, staff, students and visitors including additional assistance if required, to effectively alert, evacuate, and/or provide shelter during an emergency. To be successful in providing and maintaining a safe environment, the College requires the cooperation of every member of the College community to be familiar with and follow emergency preparedness plan as listed below.

**Risk Assessment**

College faculty and staff are required to regularly (quarterly) assess campus to ensure a safe learning environment. Students are also expected to notify College administration as soon as possible if they identify any hazards including environmental concerns, student threats and/or suspicious behavior.

**Campus Evacuation**

There are many reasons a campus may have to be evacuated. The most common reason for evacuation is due to fire alarm activation but may include bomb threat, environmental condition and/or a physical threat. When you are asked to evacuate the facility by College personnel, law enforcement or if the fire alarm sounds:

1. Collect all personal belongings including book bags, jackets, brief cases, etc. if instructed to do so by authorities. If obvious danger is present (smoke, fire, etc.) DO NOT collect belongings and immediately follow evacuation directions.

2. Immediately leave the building following any verbal instructions and follow the evacuation route posted adjacent to the primary classroom exit door.
3. Faculty should assign someone to provide assistance in assuring students with disabilities are directed to the evacuation point.

4. Faculty should close the main door into the suite and keep it unlocked.

5. Upon exiting the building move well away from the building to allow emergency personnel swift access to entranceways.

6. Re-entry: The College or public safety personnel shall notify students and College faculty/staff when it is safe to return to the building.

We recommend that students with special needs to identify themselves to a faculty member if they feel they may require assistance during an evacuation. Together they can formulate an evacuation plan. Under no circumstances are the elevators to be used when a fire alarm is sounding.

**Evacuation Lockdown**

Some emergencies may require the College faculty, students and staff to take shelter inside buildings. Incidents such as a hostile person, severe weather or a hazardous material release are examples of times when you may be asked to stay in a specific area. Law enforcement and emergency personnel will instruct you to evacuate or remain in place depending on the nature and context of the emergency.

In the event, College faculty, staff and students are instructed to lock down an area, they must:

1. Go to the closest room.
2. Close windows and doors and stay away from them.
3. Lock doors if possible.
4. Turn off air-conditioning, ventilation and lighting if possible.
5. Close window coverings.
6. Remain quiet and in place until notified by emergency personnel.
7. Silence phones and do not use them unless you are calling emergency personnel.
Method of Communicating with Staff, students and family members during and after the incident

The College requires all College faculty, students, and employees to supply emergency contact information so that they may be contacted in the event of an emergency. Depending on the emergency, the College officials may reach other members of the College community via email, voice mail and/or text.

Training for the event

It is recommended that faculty review the evacuation procedure with their class at the beginning of each course. Students should also take time to review and familiarize themselves with the evacuation route posted next to the classroom exit door. The purpose of evacuation drills is to prepare building occupants for an organized evacuation in case of an emergency. During the drill, students, faculty and staff ‘practice’ drill procedures and familiarize themselves with the location of exits.

- **Designated Spokesperson for Each Class**
  In the event of emergency event or school closure, College facilities may be closed and classes may be cancelled, in which case students would be notified as soon as possible via e-mail, phone or text by their instructors or College administration. If clinicals were scheduled for that day, each student should contact their individual instructor for further instructions. Some facilities may be closed while others are open, so students should not rely on their peers for instruction. Instructors will inform their students of make-up activities for clinical absences due to inclement weather. The College is not responsible for decisions regarding when and where to travel; students must make an individual judgment for themselves and their safety.

Practical Nurse Training

A Licensed Practical Nurse (LPN) is a nursing professional who can perform a wide array of medical services under the supervision of a Registered Nurse or Medical Doctor. LPN's can work in a variety of healthcare settings including hospitals, resident care facilities, clinics and private homes. LPN's can also work in specialized areas of healthcare such as oncology, pediatrics, gynecology, surgery, family medicine, podiatry, etc. Routine nursing tasks performed by LPN's include basic patient care, monitoring patients, administering medications and injections, charting changes in condition, collecting lab specimens and dressing changes. LPN's supervise nursing assistants and are usually the liaison between the patient and other healthcare members such as therapists, dietitians and physicians.
The Practical Nursing (PN) Program offered is a one-year diploma program consisting of nine courses (Anatomy and Physiology I & II, Fundamentals of Nursing, Geriatric and Mental Health Nursing, Medical-Surgical Nursing, Maternal/Newborn and Women’s Health Nursing, Pediatric Nursing, Pharmacology, and Role Transition for the Practical Nurse) which must be completed in sequence*. Each course incorporates biological sciences, social sciences, nursing theory and clinical experience through classroom instruction, laboratory simulations, internships in clinical settings such as hospitals and nursing care facilities, and online practice and exam preparation. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student’s grade. The program is 1160 clock hours (approximately 58 weeks).

After each course, it is our expectation that the student will pass a subject benchmark exam with a minimum score of 850. Students with scores below 850 will need to repeat the benchmark until the minimum score of 850 is achieved before taking the HESI PN exit exam.

After all courses are completed, students are required to take the HESI PN exit exam and pass with a minimum score of 900. Any student who does not meet the minimum score will be required to complete an approved practical nursing review course before being eligible to retake the HESI PN Exit Exam. Students who fail to pass the Exit Exam after 2 attempts will have to repeat the Illinois College of Nursing’s NUR 103 Medical-Surgical Nursing course, including its theory and clinical portion, prior to taking their third attempt. The student will not be allowed to retake the medical-surgical nursing course more than one time. Any student requiring re-enrollment of the medical-surgical nursing course will be responsible for any tuition and fees required to enroll in the class. The HESI Exit Exam is developed, tested and regulated by Elsevier but is proctored on-site at the Illinois College of Nursing campus. The Exit Exam tests the students on a variety of nursing content and concepts and provides individualized recommendations for remediation so that the student can address those knowledge deficits prior to taking the NCLEX-PN examination. More information on the HESI Exit Exam can be found on its website [http://www.hesi-exam.com/hesi-exit-exam/](http://www.hesi-exam.com/hesi-exit-exam/).

Upon successful completion of all courses and comprehensive EXIT examination with passing scores, the student will graduate from the program with a diploma and will be eligible to take the State of Illinois NCLEX-PN exam.
*The Nursing 107 Role Transition for the Practical Nurse course and comprehensive course exams at the end of each course will be instituted for all students entering the program in 2018.  *NUR 107: pending approval from Illinois Department of Financial and Professional Regulation

**Program Delivery**

Illinois College of Nursing instructional delivery is residential.
Course Descriptions

BIOLOGY 110- Anatomy and Physiology I
This course will introduce concepts of normal body structure and function, human growth and development and principles of nutrition. Focus will be applied to the structure and function of cells, tissues, the integumentary, muscular, skeletal and nervous systems. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student’s grade. Incorporates 50 clock hours of theory instruction and 50 clock hours of lab instruction. 
Prerequisites: Acceptance into ICON’s Practical Nursing Program.

BIOLOGY 111- Anatomy and Physiology II
This course is a continuation of Biology 110. This course will continue to examine normal body structure and function, human growth and development and principles of nutrition specifically for the respiratory, cardio-vascular, reproductive, urinary, digestive and endocrine systems and how it relates to nursing. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student’s grade. Incorporates 50 clock hours of theory instruction and 50 clock hours of lab instruction. Prerequisites: Successful completion of BIO 110.

NURSING 101: Fundamentals of Nursing
This course is an introduction to basic nursing concepts and skills. Utilizing Maslow’s Hierarchy of Needs, the nursing process and Watson’s Theory of Human Caring, students learn the concepts necessary for the planning and implementation of competent, ethical, legal and holistic nursing care. Concepts included in this course are principles of safety, nutrition, introduction to causes of illness, rehabilitation, pharmacology, community resources, and personal and vocational development. This course is comprised of theory, lab and clinical instruction to meet the educational objectives of the course. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student’s grade. Incorporates 100 clock hours of theory instruction and 100 clock hours of clinical/lab instruction. Prerequisites: Successful completion of BIO 110 and BIO 111.
NURSING 102: Geriatric and Mental Health Nursing
This course provides students with the knowledge and skills necessary for the care and management of the aging client. Focus will be applied on the aging process including physiological and psychosocial needs, and common acute and chronic conditions affecting the aging client. Principles of nutrition and pharmacology are continuous throughout the course. This course is comprised of theory, lab and clinical instruction to meet the educational objectives of the course. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student's grade. Incorporates 100 clock hours of theory instruction and 100 clock hours of clinical/lab instruction. Prerequisites: Successful completion of NUR 101.

NURSING 103: Medical-Surgical Nursing
This course gives an introduction to medical surgical nursing and pharmacology. The course will provide students with the knowledge and skills required for the management of common acute and chronic, medical and surgical conditions. Principles of pharmacology as it pertains to medical surgical nursing will also be presented in the course. This course is comprised of theory, lab and clinical instruction to meet the educational objectives of the course. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student's grade. Incorporates 100 clock hours of theory instruction and 150 clock hours of clinical/lab instruction. Prerequisites: Successful completion of NUR 102.

NURSING 104: Maternal/Newborn & Women's Health
This course will provide students with the knowledge and skills required for the care and management of the female client, child bearing women and newborns. The course will focus on the normal and abnormal growth and development of the female client from puberty/adolescence, normal and abnormal pregnancy, labor and delivery, the puerperium and the newborn. Principles of normal growth and development, psychosocial considerations, conditions related to the female reproductive and urinary systems, nursing care of mother and infant throughout the maternity cycle and pharmacology are continuous throughout the course. This course is comprised of theory, lab and clinical instruction to meet the educational objectives of the course. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student's grade. Incorporates 30 clock hours of theory instruction and 45 clock hours of clinical/lab instruction. Prerequisites: Successful completion of NUR 103.
NURSING 105: Pediatric Nursing
This course will provide students with the knowledge and skills required for the care and management of the pediatric client. The course will focus on common illnesses occurring in childhood. Principles of pharmacology are continuous throughout the course. This course is comprised of theory, lab and clinical instruction to meet the educational objectives of the course. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student's grade. Incorporates 30 clock hours of theory instruction and 45 clock hours of clinical/lab instruction. Prerequisites: Successful completion of NUR 104.

NURSING 106: Pharmacology
This course provides students with the knowledge and skills required for safe, legal, ethical and effective medication administration, which includes knowledge of drug names, classifications, safety categories, indications, actions, pharmacokinetics, contraindications and precautions, adverse reactions and side effects, interactions, routes of administration, dosage, availability, patient assessment, lab test considerations, implementation, patient/family teaching and evaluation. Emphasis is on the application of the nursing process as it is related to pharmacology. This course is comprised of theory, lab and clinical instruction to meet the educational objectives of the course. Homework, reading assignments and periodic examinations administered throughout the course will supplement classroom teachings and will be incorporated into each student's grade. Incorporates 35 clock hours of theory instruction and 65 clock hours of clinical/lab instruction. Prerequisites: Successful completion of NUR 105.

NURSING 107: Role Transition for the Practical Nurse (Will be required for all students who begin the program in 2018)
This course will provide students with the knowledge and skills necessary to transition from student to a practical nurse. Test-taking strategies, anxiety reduction techniques and a comprehensive review to prepare for the NCLEX-PN as well as employability skills, such as resume writing, job selection, and interview strategies are provided in the course. Upon completion, a comprehensive examination (Exit Exam) will be given to determine student readiness for the NCLEX-PN. This course is comprised of theory instruction to meet the educational objectives of the course. Homework, reading assignments, examinations including the comprehensive Exit Exam and mock interviews will be included in the course to supplement classroom teachings and will be incorporated into each student's grade. This course includes 60 clock hours of theory instruction. Prerequisites: Successful completion of NUR 106.
**Admissions**

Prerequisites that must be met prior to beginning any nursing course or being granted formal acceptance into ICON's Practical Nursing Program:

| Academic          | • High school diploma or GED from a state approved school or a signed attestation form  
|                   | • High School or college GPA of 2.0 or higher on a 4.00 scale'  
|                   | • Evidence of completing and passing, with at least a "C" in each of the following courses:  
|                   |   o English (3 years of HS or 1 semester of college level English)'  
|                   |   o Math (2 years of HS or 1 semester of college level Math)'  
|                   |   o Science (1 year of HS or 1 semester of college level Science)'  
|                   | • TEAS exam with a minimum score of 45% or higher*  

* Whichever is most recent  

*TEAS requirement may be waived for those students who have successfully completed at least 60 credit hours from an accredited college or university

| Medical           | • Current history and Physical completed by a licensed health care provider  
|                   | • Proof of Immunizations/Titers: MMR, Varicella, Hepatitis B  
|                   | • Current PPD/TB Test PPD/Mantoux (2 Step TB skin test, each received 1-2 weeks apart and read 48-72 hours after administration); if positive must have Negative chest x-ray results  
|                   | • Proof of personal Medical Insurance  
|                   | • Certified Background and sanction check* through [www.castlebranch.com](http://www.castlebranch.com), (888) 723-4263, ext. 7142  
|                   | • Proof and clearance of 10 panel drug screening through [www.castlebranch.com](http://www.castlebranch.com), (888) 723-4263, ext. 7142  

| Clinical          | • Current CPR/BLS card  
<p>|                   | • Valid CNA certification |</p>
<table>
<thead>
<tr>
<th>Professional</th>
<th>• Two letters of recommendation</th>
</tr>
</thead>
</table>
| Other        | • Complete application packet and pay correlating application and registration fees  
               • Certified Background and sanction check through www.castlebranch.com, (888) 723-4263, ext 7142 |

Upon acceptance into ICON's Practical Nursing Program, the student will review and sign the enrollment agreement and submit the $1,000 deposit to reserve their seat.

*sanction check is an additional part of the background check that assists in the identification of individuals or entities that have been sanctioned or debarred from participation in federally funded healthcare programs.

Upon receipt of the completed application packet, the ICON Office of Admissions will contact the student to schedule an interview and pre-admission test. Upon acceptance into the program, the student will review and sign the enrollment agreement and submit the $1,000 deposit to reserve their seat. Students will then be contacted to attend the orientation session prior to the beginning of classes for the school year.

All prerequisites must be completed and supplied to ICON before the start of class and prior to participating in any clinical portions of the program. The attendance policy will apply to all students who miss any part of the program due to failure to perform or provide prerequisite materials which may cause dismissal from the program.

**Registration Policy**

Completed applications will be reviewed based on the order in which they are received. Student accounts must be current and active in order to enroll in courses. Students on track with the class schedule will be given priority over students who need to repeat a course. ICON reserves the right to limit class availability.

**Experiential Learning**

No credit will be offered for experiential learning.

Language Disclosure
All instruction is delivered in English language only.

Advanced Placement:
ICON may award credit for some courses. Courses transferred in must be same length of time, have similar clock or credit hours, and cover the same content. Only courses with a grade of “C” or better can be considered for transfer credit. Each course must be evaluated by the administrative staff to determine whether class is comparable to ICON’s course. Only the Anatomy and Physiology, Nursing 101 and Nursing 102 can be transferred in. All other courses must be taken at ICON. ICON does not award credit for experiential learning. All courses accepted will count toward current academic program as both attempted and completed hours.

Clinical
ICON faculty will assign students to various clinical settings in order to complete their clinical internships. Students will be responsible for attending each session and finding transportation to and from the clinical site. Students are expected to behave with integrity and compassion, show respect for others, present themselves in a professional manner and to adhere to ICON’s policies and procedures while at their clinical site. The Academic Director must be notified of any concerns with clinical prior to the start of the school year.

Clinical Safety
Students are required to practice standard precautions to protect themselves and their patients from exposure to any infectious conditions. In the event that students are exposed to blood or other potentially infectious bodily fluids, they should notify their instructor of the incident and receive medical evaluation immediately. ICON will maintain a record of exposure incidents.
Unsafe/Unprofessional performance
Incidents of unsafe nursing practice, (i.e., falsification of documentation, failure to report abnormal vitals, leaving the nursing floor without reporting off to instructor/nursing staff, sleeping (pretense of sleeping on clinical floor, etc.), may lead to immediate dismissal from the program.

Satisfactory Academic Progress (SAP)

In accordance with state and federal laws, recipients of Financial Aid (grants, loans, work-study employment) must meet satisfactory academic progress measures within a maximum time frame. There are two ways in which this is measured, quantitative and qualitative (see below).

Quantitative measure:

<table>
<thead>
<tr>
<th>Program</th>
<th>Total Programs</th>
<th>Timeframe</th>
</tr>
</thead>
<tbody>
<tr>
<td>Practical Nursing-Diploma</td>
<td>1160 clock hours</td>
<td>Minimum 58 weeks</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Maximum 78 weeks</td>
</tr>
</tbody>
</table>

Qualitative Measure:

All theory and its correlating clinical courses offered will follow a sequence.

Students must receive at least a 2.0 (C) or 80% average in each theory class in order to excel to the next class or portion of the program. At the end of each course the student will take a benchmark exam with an expected minimum score of 850. Students with scores below 850 will need to repeat the exam until they achieve the minimum score of 850, before taking the HESI PN exit exam.

All clinical courses will be graded on a “Pass Satisfactory” or “NP No Pass Unsatisfactory” basis. Any student earning an Unsatisfactory grade in clinical will fail the course, regardless of the theory grade. Any student earning less than a "C" or 80% average in theory will fail the course, regardless of the clinical grade.
All theory courses will be graded as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>92-100%</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>84-91%</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>80-83%</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>70-79%</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>69% and lower</td>
<td>0</td>
</tr>
</tbody>
</table>

Other Grade Definitions

- I: Incomplete
- W: Withdrawal
- WF: Withdrawal Failure*
*Equates to “F” grade

Exit Exam Grade Definitions

- P: Pass: Satisfactory
- NP: No Pass: Unsatisfactory

All clinical courses will be graded on the scale as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Clinical Grade Definitions</th>
<th>Percentage</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>P</td>
<td>Pass: Satisfactory</td>
<td>25-28</td>
<td>4</td>
</tr>
<tr>
<td>P</td>
<td>Pass: Satisfactory</td>
<td>21-24</td>
<td>3</td>
</tr>
<tr>
<td>P</td>
<td>Pass: Satisfactory</td>
<td>14-20</td>
<td>2</td>
</tr>
<tr>
<td>NP</td>
<td>No Pass: Unsatisfactory</td>
<td>7-13</td>
<td>1</td>
</tr>
<tr>
<td>NP</td>
<td>No Pass: Unsatisfactory</td>
<td>Below 7</td>
<td>0</td>
</tr>
</tbody>
</table>

Other Grade Definitions

- I: Incomplete
- W: Withdrawal
- WF: Withdrawal Failure*
*Equates to “F” grade

All grades courses are counted in attempted and completed hours totals.
Failure to meet these minimal standards will result in the student having to temporarily discontinue the program and repeat the class during the next cohort session when it is offered again; when the repeated course is completed successfully, the student may then resume the remaining portion of the program. Students will only have one attempt of a retry. Failing the same course twice, will dismiss the student from the program. Students who complete any course in probationary status have 18 months from the original date of enrollment to re-enroll and complete the rest of the program. Any concerns regarding a student’s academic or behavioral performance will only be discussed with the student and pertinent College Administrator. The College will not discuss an adult student’s academic and/or behavioral performance with that student’s parents, spouse, family member or other designated representative. If someone other than the student is listed as the primary guarantor of the student’s financial account and is responsible for the student’s payments, the College may discuss matters pertaining to the student’s financial accounts but no further discussion regarding student performance will be discussed, regardless of student permission.

Repeated Courses
The repeated course grade and clock hours are counted as attempted and completed hours. If the student fails to meet SAP for the repeated course, they are dropped from the program.

Incomplete courses
Will count as attempted hours (not completed hours). If incomplete grade converts to complete, hours are recalculated towards increment pace.

Dropped Courses
Dropped courses will not count in attempted hours.

Withdrawal
After acceptance into a program at ICON, if a student wishes to cancel enrollment, it will be the student’s responsibility to notify the school in writing by completing a Withdrawal Form, which can be obtained from the Admissions Office. ICON will acknowledge the withdrawal request at the time the Withdrawal Form is submitted to the Admissions Office or within 15
calendar days of the postmark date if the request is made through the mail. (Please reference 'Refund Policy' for more information.)

Students withdrawing from a course will be assigned the following grades based on the time that has allotted from the beginning of that course:

**Withdrawal from BIO 110 and BIO 111 courses**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Withdrawal Time-frame</th>
</tr>
</thead>
<tbody>
<tr>
<td>No grade</td>
<td>Withdrawal within the first 1 week of course</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal within 2 weeks of course</td>
</tr>
<tr>
<td>WF</td>
<td>Withdrawal in week 3 or onward</td>
</tr>
</tbody>
</table>

**Withdrawal from Nursing 100-level courses**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Withdrawal Time-frame</th>
</tr>
</thead>
<tbody>
<tr>
<td>No grade</td>
<td>Withdrawal within the first 2 weeks of course</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal within weeks 3-4 of course</td>
</tr>
<tr>
<td>WF</td>
<td>Withdrawal in week 5 or onward</td>
</tr>
</tbody>
</table>

The unexplained absence of a student from class without submitting an official Withdrawal Form for more than 5 calendar days shall constitute constructive notice of cancellation to the school and will be subject to a grade of "F" and will not be eligible to receive any refund. For purposes of cancellation the date shall be the last day of attendance.

**Withdrawal for Medical Reasons**

If a student wishes to withdrawal from a course/program for medical reasons, it will be the student’s responsibility to notify the school in writing by completing a Withdrawal Form and checking “Medical Reasons" under the “Reason for Withdrawal" section, which can be obtained from and submitted to the Admissions Office. The student must also submit supporting documentation from a physician or medical institution that confirms the medical condition, date of onset, and estimated length of treatment. Withdrawals for medical reasons will be handled on a case-by-case basis.

Withdrawal courses will count as attempted hours after the refund period.
Transfer of credit

ICON will accept qualified transfer students who have previously attended an approved institution and award them credit for any comparable work completed at the previous institution. For the purpose of this policy, institutions will be considered “approved” if they are recognized and listed by their governing body such as State Board of Education, State Board of Higher Education, State Board of Nursing, and/or recognized accrediting agency (whichever applies to the institution) as being an approved institution.

Transfer of Credit from a foreign institution

Students wishing to transfer credits earned at an institution not located in the United States or its territories must have their transcripts evaluated by an approved member of The National Association of Credential Evaluation Services. The Evaluation Report must include credit earned as well as grades earned in a course by course listing.

Transfer of Credit Process

Students must submit official transcripts from approved institutions for which they are seeking to transfer credit from. The transcripts must be received prior to enrolling in the class for which they are seeking to receive credit for. The transcripts will be evaluated by ICON administration and must meet the following guidelines: must be comparable in terms of course description, course content, course work, course length and clock or credit hours.

Credits for transfer (grades and clock hours) count as completed hours.

Transfer Guidelines

Students must submit official transcripts from approved institutions for which they are seeking a transfer of credit from prior to enrolling in the class for which they are seeking to receive credit for.

Only courses that were completed in its entirety and for which students received a passing grade will be considered for transfer. Only a grade of “C” or higher will be considered for transfer. No partial credit will be offered. Students will be considered on a space-available basis.

All transfer students must meet ICON’s admission requirement.
Only students in good standing at previous school will be accepted for transfer. For the purpose of this policy, “good standing” will be defined as no behavioral concerns and no outstanding tuition balances noted at previous institution. Only the following courses will be eligible for transfer as ICON requires each student to complete at least 50% of the nursing program at ICON to meet eligibility requirements for graduation: Anatomy and Physiology I, Anatomy and Physiology II, Nursing 101 and Nursing 102.

**Academic Probation**

A student whose theory grade falls below 80% or “C” by midterm, or who is deficient in clinical performance at midterm will be placed on probationary status. (For any significant concerns involving student or patient safety, the student may receive a failing grade for the course, or be immediately dismissed from the program). A student who earns less than a “C” or 80% average grade in a theory course or Unsatisfactory in a clinical/lab course by Midterm (half-way through the course or clinical), the instructor will issue an Academic Warning placing the student on academic probation. Upon receiving the warning, the student must set up a meeting with their instructor to discuss the areas of difficulty. Together they will work towards setting academic goals and discussing effective study habits. The student must then complete ICON’S mandatory remediation. The student will have till the end of the course to raise their theory or clinical performance to ICON grading standards.

**Remediation**

**Theory**

Any student with a theory grade below the 80% passing grade and passing in clinical by midterm, must meet ICON remediation requirements as follows:

1. Remediation is mandatory
2. The student must complete a minimum of 100 questions 3 times per week, from adaptive quiz and learning for course topic (i.e. medical-surgical, maternity, pediatrics, etc.), till the end of the course.
3. Progress will be monitored by faculty and administration.
After completion of remediation, if student’s final cumulative score remains below the passing grade of 80% the student will need to repeat the course regardless of the clinical grade.

Clinical

Any student who does not meet clinical requirements (i.e. unsatisfactory clinical performance, non-participation in post conference assignments, frequent lateness, unprofessional behavior with colleagues, instructor or clinic staff, etc.), must meet ICON remediation requirements as follows:

- Remediation is mandatory
- Mandatory conference with clinical instructor and administration.
- Attendance to assigned skills lab if skills are deficient.
- Students must show improved performance in clinical immediately after remediation.

If student's clinical performance meets ICON standards by end of clinical rotation, and theory grade is above 80%, the student may move on to the next nursing course. If the student's clinical performance does not improve, or unacceptable behavior continues, the student may receive a failing grade, regardless of the theory grade, and need to repeat the course, or be dismissed from the program, if student or patient safety is at risk.

Student Appeal Process

Students who have a concern with an academic or administrative SAP decision should first discuss the issue with their instructor. If the student feels the issue is not resolved, they can proceed with the appeal process.

Students, who wish to appeal a disciplinary or SAP decision, may then write a statement disputing the decision to the Administrator within five calendar days.
The letter should include the student's reason for disagreement along with documentation to back up their position or claims. The student should also include information regarding any mitigating circumstances that may have existed at the time.

The administrator or someone from administrative staff will get back to the student within 15 business days. Any student who wishes to meet with the Administrator, will be seen by appointment only.

**Length of Program**

The length of ICON's Practical Nursing Program cannot exceed 150% of the normal program length (a maximum of 1160 clock hours [approximately 87 weeks]). Students must complete a minimum of 400 clock hours by the end of Nursing 101, then a minimum of 450 clock hours by the end of Nursing 103. The final minimum 310 clock hours must be completed by Nursing 107. (Does not apply to students repeating a course).

If a student does not complete the minimum 1160 clock hours at 58 weeks due to academic reasons, we provide individualized remediation (i.e. mandatory review Course, subject benchmark testing to check level of competency and where student is deficient in knowledge, adaptive quiz and learning, tutoring [if needed] and attendance to ICON's two week long review Course.

If the student is still unable to pass the HESI PN Comprehensive Exit Exam at 78 weeks, they will be dropped from the program.

**Tutoring**

Group tutoring may be available and is dependent on instructor availability. Students should contact a faculty member or the Academic Director if they are interested in receiving tutoring assistance. If private tutoring is needed, a fee of $40 per hour is required to be paid to the school prior to the tutoring session and is the responsibility of the student.

Examinations

For theory courses: Students are expected to arrive on time and come prepared with writing materials. Any student who arrives late for an exam will have 15% deducted from their score. Cell phones are not permitted in the classroom and must be left in the student’s locker or at home.

Students who will be absent the day of the exam must notify the instructor at least 4 days in advance and set up a time for a make-up exam. If a student is absent on the day of the exam without notifying the instructor, the student will fail the exam.

Exit exam

Testing date will be scheduled upon the completion of Nursing 107 by ICON administration. Students are expected to attend the testing session they are scheduled for and arrive 15 minutes prior to the testing time. If a student does not arrive at the time the examination starts, they will need to reschedule the exam and this occurrence will still be counted as an attempt at the exam. A one-time cancellation and rescheduling allowance will only be considered for extraneous circumstances, on a case-by-case basis, for which a physician’s note will be required. Student will be responsible for any retesting fees.

Honors

ICON strives for and encourages academic excellence. To promote this value, ICON acknowledges all students in excellent academic standing. At the end of each class session, students who have achieved a 92-100% grade average are named to the **Dean's Honor List** and will receive a certificate. Students who have achieved an 84-91% grade average will be named to the **Nursing Honor Roll** and will receive a certificate.
Graduation

Upon program completion, students who have achieved at least an 80% grade average, satisfactory performance in all clinicals, completed and passed all required comprehensive and Exit Exams, and whose accounts are in good standing with ICON, will receive their diploma by mail. Graduation diplomas will not be awarded at the graduation ceremony.

Graduating with Honors

Upon program completion, students who have achieved a 3.8-4.0 GPA for the entire program will be noted as Graduating with High Honors and will be noted at graduation. Students who have achieved a 3.5-3.7 GPA for the entire program will be noted as Graduating with Honors and will be noted at graduation. The student who has the highest grade point average in the entire class will be designated as the Valedictorian and will be noted at graduation.

Attendance

It is each student’s responsibility to come to every class, clinical and laboratory session, on time, prepared and ready to learn. Each student is expected to arrive 15 minutes prior to the start of class, lab and clinical and stay for the entire scheduled time until dismissal by the instructor.

Absences for each nursing course cannot exceed 2 scheduled academic days of either theory, lab and/or clinical. Any missed theory, lab or clinical hours within a course must be made up and will be accommodated on an individual basis.

Students exceeding the maximum allowed absences will be dropped from the program, regardless of the reason. The student must then reapply for admission, with approval being granted on a case-by-case basis.

If a student is more than 5 minutes late he/she will not be permitted to enter the classroom or laboratory until first break. Students in clinical who are more than 10 minutes late are sent home for the day and will need to make arrangements for a makeup session. Two unexcused tardies or early departures will be counted as one absence. A “no-call, no-show” is not considered professional behavior and will result in a 1-day school suspension. The 1-day suspension will also be counted as an unexcused absence. Two “no-call, no-shows” will result in immediate dismissal from the program.
In the event a student will be unable to attend class, the student must notify the instructor and/or administration at least one day prior to absence. A verified letter must be supplied within 48 hours of the absence for any “emergency” reason, when a 24 hour notice was not provided. NOTE: Leaving a voicemail, text message, e-mail or requesting another student to inform the instructor is not an appropriate method of communication regarding absences as these forums may not always be accessible to the instructor.

Students missing classes or clinical due to a health reason must submit a verified letter from a healthcare provider or medical institution but will still be held to the above attendance policy. ICON will make reasonable accommodations for the student on a case-by-case basis.

**Make-Up Hours**

**Theory**

Students who need to make up theory classes will meet with faculty for assignments. All make-up hours are to be completed on campus and must be completed by the end of the course in order to meet clock hour requirements.

**Clinical**

Student must fill out and submit a form of “clinical intent” with a fee of $40.00 per hour prior to scheduling the make-up for clinical and/or lab. This fee will apply regardless of whether the clinical will be made up during the instructors regularly scheduled clinical or lab hours, or off-clock hours. Credit for the make-up session will only be granted after successful completion is evidenced. All make-up hours must be completed by the end of the course in order to meet clock hour requirements.

Any hours, theory or clinical, missed in Nursing 104: *Maternal & Women’s Health Nursing* or Nursing 105: *Pediatric Nursing* will need to be made up by the end of Nursing 105: *Pediatric Nursing*. Students who fail to complete make-up hours cannot move forward to the next course.
**Readmission Policy**

Students who leave ICON in good standing and are not in attendance for one or more terms must reapply for admission (See Admission policy on pages 27).

Students, who leave in poor academic standing and are not in attendance for one or more terms, will be considered for readmission on a case by case basis.

---

**Academic Honesty**

Illinois College of Nursing upholds a high level of academic integrity and standards. All persons associated with ICON will avoid acts of academic dishonesty to promote the high academic principles ICON strives to maintain. Any evidence of performed behaviors listed below but not limited to, will be subjected to disciplinary action.

- **Cheating:** Unauthorized use or attempted use of materials, notes, study aids, communication devices or help from another person for any academic work
- **Fabrication:** Falsely constructing information or citations in academic work
- **Facilitating Academic Dishonesty:** Aiding in any behaviors that will help promote others in performing fraudulent academic acts
- **Plagiarism:** Presenting the work, ideas, writing or research of another person as one's own without acknowledging the source
- **Unauthorized Examination Behavior:** Any illicit communication with other persons, by conversing, note/material passing or use of electronic device or temporarily leaving an examination site to visit an unauthorized site
- **Internet Plagiarism:** Submitting downloaded term papers or parts of term papers as one owns work, and/or paraphrasing or copying information from the internet without citing the source
- **Falsification of Records and Official Documents:** Any fictitious alterations to records, certificates or documents
Transcripts
Student transcripts are available for a $10.00 fee for the initial transcript and $5.00 for each additional transcript when multiple transcripts are ordered at the same time. Transcripts will be released in a sealed envelope and cannot be faxed. Students must submit a written request to the Administrative Office. Requests can take 3-4 days to process after payment is received.

Student Information Change
In order to change student information (name, address, phone number, e-mail, financial information, etc.) students must submit an 'Information Change Form' which can be obtained from and submitted to the Admissions Office with appropriate supporting documentation.

Non-discrimination Policy
It is the policy of Illinois College of Nursing to not discriminate on the basis of race, sex, color, age, religion, ancestry, marital status, or disability. This institution fully complies with all state and federal laws to prohibit any discriminatory behavior in their educational programs, enrollment of students and hiring of faculty and staff. Announcement of this policy is in accordance with State law and Federal law, including Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination in Employment Act of 1967, and the Americans with Disabilities Act of 1990.

Expectant Mothers
Any student who is pregnant or becomes pregnant during a course in which they are enrolled must provide proof of medical clearance from their physician in writing, (information must be disclosed due to the nature of the training programs and internship requirements). The ability to perform strenuous activities during labs and clinical is required. The doctor's clearance should be given at the earliest possible point. The student bears responsibility for
the welfare of themselves and their child and cannot hold the school, clinical site, or other affiliates to any liability. The school, clinical sites and other affiliates will not be held liable due to the student non-disclosure regarding pregnancy and/or the state of health.

Special Accommodations

Students with mental, physical, or sensory impairments or in need of other special accommodations must contact the Academic Director. ICON will accommodate the student to the best of its ability, however, the College does not provide any mental health counseling. Pertinent information will be shared with faculty and staff to facilitate optimal arrangement and ensure the best experience for the student.

Accessibility for disabled students

The Building in which the school is located is wheelchair accessible with a ramp and elevator.

Student services

Academic advising is ongoing with faculty and administration as needed. Nursing 107 offers test taking skills, job selection help, interview strategies, mock interviews, review and NCLEX prep. Employers are invited at end of course.

Student Conduct Code

ICON expects all students and faculty to conduct themselves with the highest level of integrity. All students and faculty must possess and demonstrate values of respect for self and others, honesty and compassion on and off the campus. In the interest of maintaining a positive image for ICON and promoting the welfare of the students, faculty and college
community, any behaviors that are considered dishonest or may be harmful to self, others or property will not be tolerated and will result in disciplinary action. It is the responsibility of the students to know the policies, rules, and regulations of ICON.

**Prohibited behaviors include but are not limited to the following:**

- theft, vandalism, or intentional damage to students, staff, faculty, or ICON property
- unauthorized entry or use of college facilities, equipment, or property
- failure to follow rules regarding proper computer and lab use
- failure to follow rules regarding personal cell-phone and electronics use
- intentionally disrupting classes, labs, or clinical
- unintentionally disrupting classes, labs or clinical to the extent the learning atmosphere was negatively affected
- intentionally providing false information to any staff or faculty member (including fraudulent checks)
- forging or altering ICON documents, records, or equipment with intent to furnish false information
- failure to meet financial obligations
- any form of abuse or harassment
- gambling of any kind
- cheating, lying, stealing, or plagiarizing
- discriminatory behavior
- use of tobacco on ICON premises
- purchase, possession, use, or distribution of alcoholic beverages
- purchase, possession, use, or distribution of illegal or controlled substances
- purchase, possession, use, or distribution of fireworks, explosives, or dangerous chemicals
- on-campus possession or use of any weapons, firearms, and knives exceeding state legal specifications
- malicious use of fire, misuse of firefighting equipment, or intentional false reporting of a fire or bomb
- violation of civil or criminal law

Any student engaging in the above or similar acts, or in violation of this policy, will be subject to disciplinary action and potentially terminated from the program and the school indefinitely.
Student Dress Code:

All students are expected to dress appropriately and professionally. Student must wear the designated uniforms (identification badge, white scrub top, teal scrub pants, school patch and white shoes) at each clinical for identification, safety, and sanitary purposes. Students will be responsible for coming to clinical prepared and bring any required equipment/supplies needed to perform patient care.

Students should wear:

- Student uniform
- Student photo ID
- Watch, stethoscope, and penlight
- Necessary ear and eye protection
- Long hair pulled back and secured
- Clothing and shoes that are clean and neat

Students should NOT wear:

- Jeans or sweatpants
- Sandals, flip-flops, slippers, open-heel, or open-toe shoes
- Any visible undergarments
- Dangling jewelry (earrings, necklaces, bracelets, etc.)
- Body piercings other than one set of stud earrings in the ear lobes
- Acrylic, chipped or long nails
- Visible tattoos
- Dyed or colored hair (Hair dyed natural color tones is permissible)
- Perfume or cologne

Note: backpacks, hoodies, purses, or other extraneous items are not allowed on the clinical floor and should be stored in designated areas of clinical site.

Any student who fails to act professionally, dress appropriately, and follow safety precautions will be removed from the clinical for that day, resulting in an unexcused absence or expulsion from the program.
Computer Lab Policy

The computer lab is intended to serve as a resource for students to conduct research, complete homework assignments, and/or study for exams. If there is evidence of improper computer usage, ICON reserves the right to access all current and archival files of user accounts.

The following are prohibited items and actions regarding use of the computer lab:

- Any food or drink
- Unauthorized entry into a file
- Unauthorized use of another student's account
- Intercepting electronic communications
- Creating or sending inappropriate, abusive, or offensive images or messages
- Downloading or copying inappropriate, abusive, offensive, obscene, or copyrighted materials
- Visiting inappropriate websites

Students utilizing the computer lab to take proctored exams must follow the Student Conduct Code, Honor Code, Academic Honesty and Attendance policies.

Honor Code

The Honor Code holds each individual at the Illinois College of Nursing accountable for academic dishonesty, including cheating, lying, stealing and plagiarism.

Cheating on an exam may be defined as: using books, notes, cell phones, or other materials not explicitly permitted by the instructor; copying other students' work in taking an exam; using copies of former examination materials; assisting a student in cheating in any of the aforementioned ways.

Cheating on an assignment may be defined as: using materials or sources explicitly forbidden by the instructor in completing the assignment (such as students collaborating together on an assignment that was instructed to be completed individually); submitting an assignment that was written by anyone other than the student; assisting students in cheating as defined above.
Plagiarizing may be defined as: reproducing language and ideas of another author and representing them as one's own original work without acknowledgment.

**Professional Honesty Policy:**

Students are expected to act in a safe, honest, and professional manner during clinical. Dishonest behaviors and unethical behavior in a clinical setting include but are not limited to the following:

1. Falsifying documents
2. Lying regarding performance
3. Failing to follow proper procedures
4. Failing to report mistakes regarding patient care
5. Lying regarding unsafe behavior
6. Practicing as a nursing student while under the influence of drugs or alcohol
7. Violating the Health Insurance Portability and Accountability Act (HIPAA), including the following but not limited to:
   a. collecting written information that identifies the patient by name
   b. obtaining records from the patient care unit without authorization
   c. discussing patients for purposes other than patient care or educational requirements
   d. discussing patients outside of the clinical or educational setting
   e. violating the Patient's Bill of Rights
   f. violating the Code of Ethics for the Licensed Practical or Registered Nurse

**Health Insurance Portability and Accountability Act (HIPAA) Policy**

**Right to Privacy**

The Health Insurance Portability and Accountability Act (HIPAA) provides federal protections for personal health information held by covered entities and gives patients an array of rights with respect to that information. However, the Privacy Rule is balanced so that it permits the
disclosure of personal health information needed for patient care and other important purposes. Title I protects health insurance coverage for workers and their families when they change or lose their jobs. Title II requires the establishment of national standards for electronic health care transactions and national identifiers for providers, health insurance plans, and employers.

**Protected Health Information**

Protected Health Information (PHI) is any information held by a covered entity which concerns health status, provision of health care, or payment for health care that can be linked to an individual.

**Examples of PHI include the following:**

- Names
- All geographical identifiers smaller than a state
- Dates (other than year) directly related to an individual
- Phone numbers
- Fax numbers
- Email addresses
- Social Security numbers
- Medical record numbers
- Health insurance beneficiary numbers
- Account numbers
- Certificate/license numbers
- Vehicle identifiers and serial numbers, including license plate numbers
- Device identifiers and serial numbers
- Web Uniform Resource Locators (URLs)
- Internet Protocol (IP) address numbers
- Biometric identifiers, including finger, retinal and voice prints
- Full face photographic images and any comparable images
- Any other unique identifying number, characteristic, or code except the unique code assigned by the investigator to code the data

**Student’s Responsibilities**

ICON students will be expected to adhere to HIPAA’s guidelines during their clinical externships. Students have a legal and ethical responsibility to maintain patients' privacy, to not disclose any written, verbal, or electronic protected health information, and to identify themselves as nursing students to their patients.
**Penalties**

Any student acting in violation of HIPAA policy will be subject to disciplinary action from both ICON and law enforcement.

Students should be aware of the legal consequences for violating HIPAA that can be applied by federal law enforcement agencies such as:

- Deliberate release of PHI can result in up to a 1-year jail sentence & $50,000 fine
- Accessing PHI under false pretenses can result in up to a 5-year jail sentence & $100,000 fine
- Releasing PHI with intent to sell or use for commercial advantage can result in up to a 10-year jail sentence & $250,000 fine

**Harassment**

ICON prohibits harassment for any discriminatory reason, including but not limited to race, color, religion, ancestry, national origin, age, gender, marital status, sexual orientation, physical or mental disability, or military/veteran status. ICON will not tolerate derogatory remarks of any kind. Harassment may be defined as oral, written, graphic, or physical conduct relating to one of the aforementioned characteristics that is sufficiently severe, pervasive, or persistent so as to interfere with or limit the ability of an individual to participate or benefit from the college’s programs or creates an intimidating, threatening, abusive, or hostile educational environment.

Illinois Law defines sexual harassment as any unwelcome sexual advances or requests for sexual favors made by a higher education representative to a student, or any conduct of a sexual nature exhibited by a higher education representative toward a student, when such conduct has the purpose of substantially interfering with the student’s education performance or creating an intimidating, hostile, or offensive educational environment, OR submission to, or rejection of, the conduct is used to determine the student’s academic status. ICON will not tolerate sexual harassment of any kind.

Any student who believes he/she is the victim of harassment should immediately report the instance to a faculty member, Academic Director or Administrator. ICON will investigate every complaint and will take necessary action. Retaliation of any student bringing a complaint to a faculty member, Academic Director or Administrator is illegal and strictly prohibited. If necessary, ICON will cooperate with local, state, and federal law enforcement in cases
regarding harassment. Any student in violation of this policy will be subject to disciplinary action and potentially terminated from the program and the school indefinitely.

**Electronic Devices**

Cell phones and other electronic devices are not allowed in the classroom, laboratory or clinical setting. In the case of emergency, students can be reached by calling the ICON office, (630) 495-7968. Electronic recording of classes, labs, clinical, will not be permitted.

**Violation of Conduct Code**

A preliminary investigation will be conducted for all allegations followed by disciplinary action including warning, suspension or expulsion, depending on the seriousness of the offense, for any of the following, but not limited to, offenses: 1) academic dishonesty; 2) theft occurring on school premises; 3) verbal or physical assault; 4) physical or sexual harassment; 5) insubordination and unprofessional conduct including use of profanity, excessive tardiness and/or absences; 6) damage or misuse of school property or equipment; 7) possession, use or furnishing of illegal substances or alcoholic beverages while on campus or during school related activities; 8) use possession or supplying of weapons while on campus or during school related activities; 9) intentionally or unintentionally disrupting classes, labs or clinical to the extent the learning atmosphere was negatively affected, or 10), any other offense that the school administrator, faculty or law enforcement authorities may be viewed as unlawful and/or dangerous to the wellbeing of the college community.

After the investigation, the College administrator will make the decision as to the seriousness of the offense and type of disciplinary action warranted. For students engaging in dishonest, unethical, or a prohibited behavior, the following actions will occur:

**First Offense:** The student will be suspended from a course or from the program for a specific period of time and an incident report will be sent to the Administrator.

**Second Offense:** The student will receive a **failing grade (F)** for the current course.

**Third Offense:** The student will be dismissed from the program at the Illinois College of Nursing.

A warning will generally be issued prior to a student dismissal unless the offense was serious enough of which then may result in an automatic dismissal without warning. In
certain cases, ICON will cooperate with local, state, and federal law enforcement if the incident goes beyond prohibited classroom behavior. All appeals of decisions made must follow the ICON grievance procedure.

Standards of Conduct for Nurses
Standards for Professional Conduct for Licensed Practical Nurses

According to the Administrative Code as set by the Illinois Department of Financial and Professional Regulation (IDFPR), Title 68, Chapter VII, Subchapter b, Part 1300, Section 1300.260:

The Licensed Practical Nurse shall, but is not limited to, upholding the following professional standards:

1. Practice in accordance with the Act and this Part;

2. Practice nursing only when in functional physical and mental health;

3. Be accountable for his or her own nursing actions and competencies;

4. Practice or offer to practice, including delegated nursing activities, only within the scope permitted by law and within the licensee’s own educational preparation and competencies;

5. Perform nursing activities as delegated;

6. Seek instruction from a registered professional nurse or advanced practice nurse when implementing new or unfamiliar nursing activities;

7. Report unsafe, unethical or illegal health care practice or conditions to appropriate authorities and to the Division;

8. Assume responsibility for continued growth and education to reflect knowledge and understanding of current nursing care practice.

Standards of Practice and Educational Competencies
Standards of Practice and Educational Competencies of Graduates of Practical/Vocational Nursing Programs
In addition, the Licensed Practical Nurse shall uphold the Standards of Practice and Educational Competencies of Graduates of Practical/Vocational Nursing Programs as set forth by the National Association for Practical Nurse Education and Service, Inc. which is briefly discussed below and can be viewed in its entirety at https://napnes.org/drupal-7.4/sites/default/files/pdf/standards/standards_read_only.pdf

A. **Professional Behaviors**
   Demonstrate professional behaviors of accountability and professionalism according to the legal and ethical standards for a competent licensed practical/vocational nurse.

B. **Communication**
   Effectively communicate with patients, significant support person(s), and members of the interdisciplinary health care team incorporating interpersonal and therapeutic communication skills.

C. **Assessment**
   Collect holistic assessment data from multiple sources, communicate the data to appropriate health care providers, and evaluate client responses to interventions.

D. **Planning**
   Collaborate with the registered nurse or other members' of the health care team to organize and incorporate assessment data to plan/revise patient care and actions based on established nursing diagnoses, nursing protocols, and assessment and evaluation data.

E. **Caring Interventions**
   Demonstrate a caring and empathic approach to the safe, therapeutic, and individualized care of each client.

F. **Managing**
   Implement patient care, at the direction of a registered nurse, licensed physician or dentist through performance of nursing interventions or directing aspects of care, as appropriate, to unlicensed assistive personnel (UAP).
Grievance Policy

To maintain the integrity and high standards of ICON, all students and faculty are to follow the institutions code of conduct and guidelines for academic honesty. However, in the event, grievances may be initiated for any situations involving acts of physical or emotional assault/trauma, bullying, harassment, discrimination, pressure or intimidation or any unlawful acts, the following procedures for receiving and processing grievances will be followed:

a. The student should first attempt to resolve the situation by contacting the instructor.

b. If no resolution is reached, the student may then file a written grievance which states the problem and proposed possible solutions. In the event the grievance is made by more than one student, the group will appoint one representative to speak for the group.

c. A hearing committee, consisting of one faculty member and one administrator or director, will address the situation. Student(s) involved will be invited to attend the hearing.

d. Depending on the seriousness of the offense, the hearing committee will propose and agree upon a resolution.

e. Judgment will be enforced up to and including suspension or expulsion of student(s).

f. If the student(s) do not present for the hearing with the hearing committee, then the grievance will be null and void.

g. If the grievance or complaint is unable to be resolved by the hearing committee, the complaint may be filed with IBHE at the following address:

Illinois Board of Higher Education
1 N. Old State Capitol Plaza, Suite 333
Springfield, IL 62701-1377
Phone: (217) 782-2551
Fax: (217) 782-8548
TTY: (888) 261-2881
www.complaints.ibhe.org
Tuition and Fees

The tuition and fees for the practical nursing program is as follows:

- Application fee: $75 (may be waived)
- Transcript evaluation: $50. (may be waived)
- Drug Screen: $40\(^1\)
- Background Check: $37\(^1\)
- Seat Reservation deposit: $1,000\(^2\)
- Practical Nursing Program tuition: $18,000\(^3\)
- Tutoring fee: 1:1 - $40/hr, Group Session - included in tuition
- Make-Up Class fee: Clinical - $60/hr, Theory - No charge
- State Licensure fee: ($300) Student will be responsible for this payment to the state after graduation.
- A $200 administration fee will apply for students wishing to change their schedule. Schedule changes will only be granted with instructor approval and if space is available.
- One attempt for each of the following: end of course examinations and comprehensive end of program examination is paid for by the school. Students will be responsible for any additional retesting fees for end of course exam ($35, HESI exit exam ($60).

---

1 The Drug screen and Background check will be performed independently by students through www.castlebranch.com (1-888-723-4263 x7142) during the application process.

2 The seat reservation deposit will be collected after admission into the program is granted (but no later than 2 weeks prior to the start of the school year) and will be deducted from the total tuition cost

3 After seat reservation is paid, remaining tuition balance will be due unless other monies are to be deducted for grants, scholarships etc. if applicable.
Graduation fees: If attending ceremony $143. If not attending ceremony, $57 for diploma.

Transcript fees: $10 for 1 copy. If ordering multiple copies at one time it is $10 for first copy and $5 for each additional copy.

All graduation fees and any test preparation classes, books, materials and fees for the state licensure examination will be the responsibility of the student.

Payment of fees and tuition can be made by cash, money order, cashier's check, personal check (with valid Driver's License), VISA, Master Card, American Express or Discover. All payments should be made payable to Illinois College of Nursing. Payments made by check will apply on the date the check is received. ICON also accepts payments through various grants and loans.

**Employment Disclaimer**
Illinois College of Nursing is a Practical Nursing program with the major goal of educating the future generation of nurses. The program does not guarantee employment.

**Payment Policy**

The seat reservation policy will be applied after admission into the program is granted but no later than 2 weeks prior to the start of the school year. A student's seat will not be reserved until seat reservation deposit is received by the school regardless of admissions decision. The remainder of tuition due (minus grants and scholarships if applicable) should be received by the school by the end of the first week of class (five business days) unless the student has agreed and made arrangements for a Payment Plan.

Payment plans may be available; however it is the responsibility of the student to consult with an Academic advisor at the Illinois College of Nursing prior to the beginning of the program to see what, if any, options may be available. Payments will first apply towards outstanding fees, then towards tuition balance. If student is on a payment plan, the final deadline for payments will be one week prior to that course's final exam. All balances for each course must be paid in
full by the end of that course; otherwise the student will not be allowed to enroll in the next course. Students will be subjected to late fees if payment is not received by the due date.

**Delinquent Tuition Collection Policy**

All tuition payments per student’s individual payment plan agreement must be submitted by the date for which the payment is due. If payments are not made as scheduled, the student will not be allowed to attend or participate in classroom, laboratory or clinical instruction until their account becomes current.

If any student is to incur absences due to late payments, the attendance policy will still apply and the student will be responsible for all make-up classes, lab and/or clinical including any applicable fees. It is the responsibility of the student to contact faculty and/or administration regarding any make-up sessions. All make-up classes and clinicals must be completed by the end of the course in order to advance to the next course.

**Tuition Refunds**

Applicants not accepted by the school shall receive a refund of all tuition and fees paid within 30 calendar days after the determination of non-acceptance is made.

After acceptance into a program at ICON, if a student wishes to cancel enrollment, it will be the student’s responsibility to notify the school in writing. The unexplained absence of a student from school for more than 15 days shall also constitute constructive notice of cancellation to the school. For purposes of cancellation the date shall be the last day of attendance.

In accordance with Illinois Law\(^4\) if tuition was paid by the student prior to cancellation of enrollment, the Illinois College of Nursing will, provide a refund in the amount of at least the following:

\(^4\) Illinois State Board of Education PVBS Act requirements for refund policies, (105ILCS425/15.1.a) (from Ch.144, par.150.1a). Sec 15.1a
a. When notice of cancellation is given before midnight of the fifth business day after the date of enrollment but prior to the first day of class, all application fees, tuition, and any other charges shall be refunded to the student.

b. When notice of cancellation is given after midnight of the fifth business day following acceptance but prior to the close of business on the students first day of class attendance, the school may retain no more than the application fee, which may not exceed $150 or 50% of the cost of tuition, whichever is less.

c. When notice of cancellation is given after the student's completion of the first day of class attendance, but prior to the student's completion of 5% of the course of instruction, the student will be refunded tuition paid, minus application fee, 10% of the tuition and other instructional charges or $300, whichever is less, and the cost of any books or materials which have been provided by the school, if they were returned to the school.

d. When a student has completed in excess of 5% of the course of instruction, the school may retain the application fee and the amount computed, prorated by days in class, plus 10% of tuition and other instructional charges up to completion of 60% of the course of instruction.

e. When the student has completed in excess of 60% of the course of instruction, the school may retain the application fee and the entire tuition and other charges.

A student who, on personal initiative and without solicitation enrolls, starts and completes a course of instruction before midnight of the fifth business day after the enrollment agreement is signed, is not subject to the cancellation provisions of this section.

Application fees shall be chargeable at initial enrollment and shall not exceed $150 or 50% of the cost of tuition, whichever is less.

ICON will mail a written acknowledgement of a student's cancellation or written withdrawal to the student within 15 calendar days of the date of notification. Such written acknowledgement will not be sent if a refund has been mailed to the student within the 15 calendar days. All student refunds will be issued by ICON within 30 calendar days from the date of receipt of the student's cancellation.
ICON will refund all monies paid in any of the following circumstances:

a. the school did not provide the prospective student with a copy of the student's valid enrollment agreement and a current catalog or bulletin;
b. the school cancels or discontinues the course of instruction in which the student has enrolled;
c. the school fails to conduct classes on days or times scheduled, detrimentally affecting the student.

Books and Materials Refund Policy

ICON will refund any book and materials fees when:

a. The book and materials are returned to the school unmarked.
b. The student has provided the school with a notice of cancellation.

At midterm of Nursing 101, the faculty will review each student’s progress in clinical and theory. At this point, students wishing to withdraw due to medical/personal reasons may do so. Any student whose theory grade average falls below 80% or has an unsatisfactory standing in clinical will be given the option to withdraw from the program and be eligible for a partial refund consistent with the refund policy. Any refund due prior to midterm of Nursing 101 will be issued based on the refund policy.

Financial Aid

At ICON we know that an education is the best investment and gift a person can receive. We are also aware that financing an education may be challenging. To ease the burden of funding your education, ICON has priced its educational programs to be affordable as possible to comparable institutions. ICON also offers several alternatives to financing your academic dreams:

1. Private loans

   Each student has the option and is encouraged to research private lending institutions for a loan that would best fit their needs
2. Repayment Plans
Payment plans may be available but it is the responsibility of the student to consult with an academic advisor at the Illinois College of Nursing prior to the beginning of the program to see what/if any options may be available.

Scholarships

ICON is an institution that strives for academic and nursing excellence. To fulfill its mission, the College believes in recognizing individuals that are committed to improving the current standards of healthcare and contributing to nursing’s current body of knowledge by providing scholarships to prospective students. To be considered for ICON’s academic scholarship, applicants must submit a scholarship entry as outlined on the scholarship application. Awards will be granted by the Scholarship Committee based on meeting the scholarship guidelines and scholarship budget available for that fiscal year. See Scholarship Application (available at ICON administrative office) for complete rules. All students are encouraged to apply.

Teaching and Learning Process

The teaching and learning process at the Illinois College of Nursing (ICON) is a dynamic, interactive and multi-faceted process. The teaching and learning philosophy is based on Bloom’s Taxonomy (1956) for learning and involves, students, faculty, mentors and other support systems, clinical and training experiences, technical resources, a commitment to learn, a commitment to teach and a commitment to advance healthcare. The process is outlined into six areas: Knowledge, Comprehension, Application, Analysis, Synthesis and Evaluation. Although the process may begin as sequential, each area is continually revisited as the learning process evolves and more knowledge and skills are gained. Learning is a life-long process and at ICON we believe when instructing on, implementing and reiterating the following learning process, each student will have the preparation to continue to advance their skills and in their profession successfully.
Nursing Scope of Practice

LPN Scope of Practice

According to the Administrative Code as set by the Illinois Department of Financial and Professional Regulation (IDFPR), Title 68, Chapter VII, Subchapter b, Part 1300, Section 1300.25:

Practice as a licensed practical nurse means a scope of basic nursing practice, with or without compensation, as delegated by a registered professional nurse or an advanced practice nurse or as directed by a physician assistant, physician, dentist or podiatrist, and includes all of the following and other activities requiring a like skill level for which the LPN is properly trained:

a) Collecting data and collaborating in the assessment of the health status of a patient.

b) Collaborating in the development and modification of the registered professional nurse's or advanced practice nurse's comprehensive nursing plan of care for all types of patients.

c) Implementing aspects of the plan of care as delegated.

d) Participating in health teaching and counseling to promote, attain, and maintain the optimum health level of patients, as delegated.

e) Serving as an advocate for the patient by communicating and collaborating with other health service personnel, as delegated.

f) Participating in the evaluation of patient responses to interventions.

g) Communicating and collaborating with other health care professionals, as delegated.

h) Providing input into the development of policies and procedures to support patient safety. (Section 55-30 of the Act)
**Functional Requirements for Nursing**

In order to successfully meet the objects of the Illinois College of Nursing (ICON) to provide comprehensive nurse training while promoting the safety of its students and patients, all students are required to meet certain minimal requirements as set by the National Council of State Boards of Nursing (NCSBN) through its Validation Study: Functional Abilities Essential for Nursing (1996). The following, but not limited to, is a list of minimal requirements, that each student must possess and demonstrate academically and clinically throughout the course of study to successfully complete the nursing program at ICON.

**Gross Motor Skills**
- Move within confined spaces, sit/stand and maintain balance, reach above shoulders, reach below waist

**Fine Motor Skills**
- Pick up objects with hands, grasp small objects with hands, write with pen or pencil, key/type, pinch/pick or otherwise work with fingers, twist, squeeze with finger

**Physical Endurance**
- Stand, sustain repetitive movements, maintain physical tolerance, push and pull 25 pounds, support 25 pounds of weight, lift 25 pounds, move light objects weighing up to 10 pounds, move heavy objects weighing from 11 to 25 pounds, use upper body strength, squeeze with hands

**Mobility**
- Twist, bend, stoop/squat, move quickly, climb, walk

**Hearing**
- Hear normal speaking level sounds, hear faint voices, hear faint body sounds, hear in situations when not able to see lips (e.g. when masks are worn), hear auditory alarms

**Visual**
- See objects up to 20 inches away (e.g., computer screen), see objects up to 20 feet away (e.g., client/equipment on other side of room), see objects more than 20 feet away (e.g., client at end of hall), use depth perception, use peripheral vision, distinguish color, distinguish color intensity (e.g., flushed skin, skin paleness), visual acuity to read calibrations on 1 ml syringe, comprehends spatial relationships adequate to properly administer injections, start intravenous lines, or assess wounds of varying depths
Tactile
   Ability to feel pulses, temperature, palpate veins, etc.

Smell
   Detect odors from client, detect smoke, and detect gases or noxious smells

Arithmetic Competence
   Read and understand columns of writing, read digital displays, read graphic printouts, calibrate equipment, convert numbers to and/or from the Metric System
   Read graphs, measure time, count rates, use measuring tools, read measurement marks, add, subtract, multiply, and/or divide whole numbers and fractions

Emotional Stability
   Establish therapeutic boundaries, provide client with emotional support, adapt to changing environment/stress, deal with the unexpected, focus attention on task, including in distracting/chaotic environment, monitor own emotions, perform multiple responsibilities concurrently

Analytical Thinking
   Transfer knowledge from one situation to another, process information, evaluate outcomes, problem solve, prioritize tasks, use long term and short term memory

Critical Thinking
   Identify cause-effect relationships, plan/control activities for others, synthesize knowledge and skills, sequence information

Interpersonal Skills
   Negotiate conflict, respect differences in clients, establish rapport with clients and co-workers, teach, explain procedures, give oral reports, convey information through writing
