

The following is a list of the most commonly prescribed brand medications. It represents an abbreviated version of the formulary list that is at the core of your prescription drug benefit plan. The list is not all-inclusive and does not guarantee coverage. Some preferred medications overlap with other clinical programs and may not be covered. In addition to drugs on this list, the majority of generic medications are covered under your plan and you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate. Search complete formulary drug information at [medtrakrx.com](http://medtrakrx.com).

## 2020 Select Formulary

**PLEASE NOTE: Preferred brand drugs may move to non-preferred status if a generic version becomes available during the year. Any medication approved to enter the market will not be covered until reviewed by MedTrakRx's Clinical Care Center. Not all drugs listed are covered by all prescription drug benefit programs. For specific questions about your coverage, please visit [www.medtrakrx.com](http://www.medtrakrx.com) or call 800-771-4648**

**THIS DOCUMENT LIST IS EFFECTIVE JANUARY 1, 2020 THROUGH DECEMBER 31, 2020. THIS LIST IS SUBJECT TO CHANGE.**

The excluded medications shown below are not covered on the Select Formulary. In most cases, if you fill a prescription for one of these drugs, you will pay the full retail price.

**Take action to avoid paying full price.** If you're currently using one of the excluded medications, please ask your doctor to consider writing you a new prescription for one of the following preferred alternatives. Additional covered alternatives may be available. Costs for covered alternatives may vary. Some preferred medications overlap with other clinical programs and may not be covered without prior authorization. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your plan. For specific questions about your coverage, please visit [www.medtrakrx.com](http://www.medtrakrx.com) or call 800-771-4648.

<sup>^</sup> Multisource brand exclusion – The generic equivalent of this brand-name medication is covered under your plan. FDA-approved generic medications meet strict standards and contain the same active ingredients as their corresponding brand-name medications, although they may have a different appearance. As new generic medications become available, additional multisource brand products may become excluded.
