

## COVID-19 Food Relief

Recognizing that the restaurant industry is both a significant economic driver and a tool to address hunger locally, Westchester County established an innovative program, the Community Table Partnership grant.

To assist local individuals and families struggling with food insecurity, the Rivertowns Chamber of Commerce was awarded a Community Table grant that will help local restaurants provide meals during the pandemic. Meals and vouchers will be distributed through partners who support our neighbors in need in Ardsley, Dobbs Ferry, Hastings-on-Hudson, and Irvington.
