UX Designer

Want to be part of a fast-growing tech company, specializing in dissemination of academic research?

We are now hiring for a UX Designer position in our headquarters in Glostrup.

About ChronosHub

Founded in 2017, ChronosHub deals with the complex space of research funding and output tracking. The ecosystem is highly fragmented and, in many ways, an old system. ChronosHub was designed to challenge the current state and bring new tools to life, simplifying the process for everyone involved.

Our mission is to bring the stakeholders together. Through a collaborative approach the complexities can be managed, and the processes automated and streamlined. Instead of having thousands of institutions dealing with thousands of publishers, everyone only needs to deal with one party - ChronosHub.

Our clients are international organizations, so we operate with a global outlook. Amongst our clients are The Bill & Melinda Gates Foundation, University of Copenhagen, Emerald Publishing, and The National Library and Research Fund of Luxembourg.

Key Responsibilities

As a UX Designer, you will translate user needs and client requirements into both low and high-fidelity visual concepts and prototypes to be used in testing and aid with cross-team communication, collaboration, and development.

Experience:

- Several years of experience as a user experience designer, interaction designer, information architect, or similar UX-related role.

- Proficient with design tools such as the Adobe Creative Suite (Photoshop, Illustrator, etc.)

- Familiar with front-end web development (HTML, JavaScript and CSS)

- Strong skills in quickly mocking up ideas and clearly presenting complex information simply

- Experience working in a collaborative team and directly with developers for implementation of designs.

- Fluency in best practices for information architecture and interaction design, user-centered design process, as well as good knowledge of user experience principles and techniques.

Following is an advantage, but not a requirement:

- An online portfolio or samples of work demonstrating relevant experience

We value raw, natural talent much more than having the 'right' degree - in other words, don't be discouraged to apply for this position just because you don't hold a degree.

Do you see yourself in this job? Please send us your resume and cover letter (in English or Danish) to Lead Architect, Snorri Valberg, sv@chronoshub.io today and let us know why we shouldn't miss the opportunity to meet you.

This is not a remote position and applicant for employment must have work authorization that does not now or in the future require sponsorship of visa for employment authorization in Denmark and with ChronosHub.

If you have any questions about the job, please feel free to reach out to Lead Architect, Snorri Valberg, sv@chronoshub.io

We can't wait to hear from you!
