- Adjustable tray speed
- Replaceable slats, including ends for different types of dough
- Wire-cutting speed control
- Bi-Directional Table
- High-quality stainless-steel body
- Torsional Rollers
- Sealed Hopper Design
- Baking tray size: 18" x 26"

The Ultra ML 900 is a fully automated, multifunctional, single-head confectionary machine. It produces a broad variety of cookies in all kinds of forms and shapes. Including muffin and sponge cakes. The Ultra ML 900 is also fully equipped with wire-cutting.

Enigma depositors provide proprietary features such as:

- Torsional Rollers: Roller design permits wider range of stiff to soft doughs using the same head.
- Hopper Heads are leak-proof. This allows Enigma's basic head to handle many soft and liquid dough types.

Competitive depositors typically require a different Pump Head (with different rollers) in order to handle semi-liquid or soft doughs.

The Ultra ML 900 is robustly engineered for 3 shift operation and is very versatile for producing multiple products:

- Soft gingerbread
- Short pastry tarts
- Sponge cakes (sheet cakes)
- Choux cakes
- Meringues

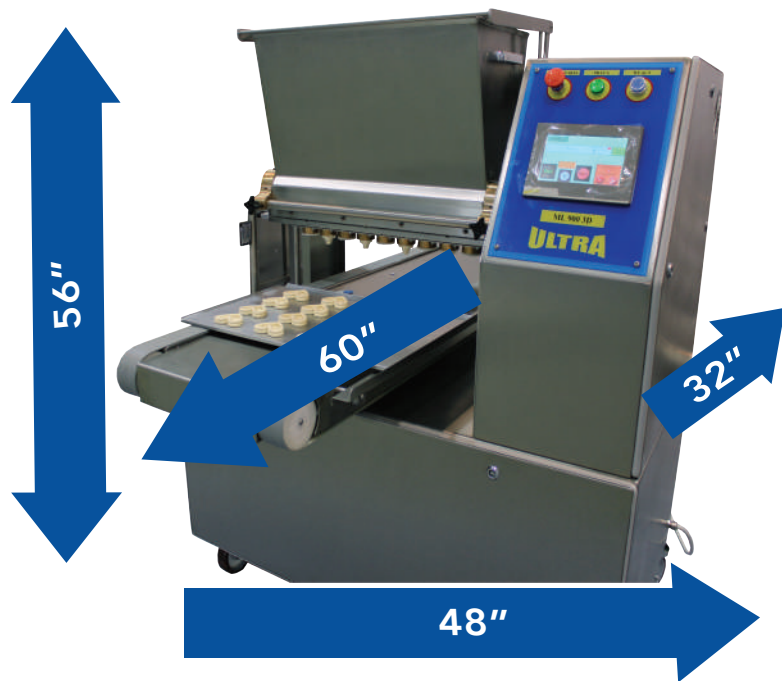

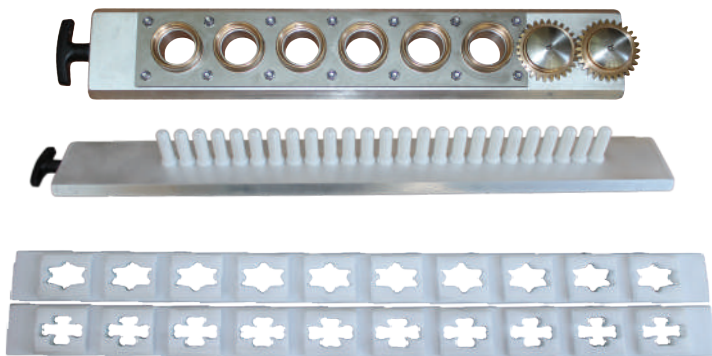

ENIGMA ULTRA ML 900

SPECIFICATIONS

Hopper Capacity-40 Liters (42.3 Qts)

Weight-702 pounds

Power-3 Phase 208/220V, 60 Hz

Accessories Included:

- One rotary strip with 10 exits
- One non-rotary strip with 10 exits
- One strip for the production of sponge-cake bases (sheet cakes)
- One pea straw/puff strip
- Plastic nozzles-various patterns
- Bronze nozzles (customer choice)
- Wire-cutting mechanism
- Strip for wire-cutting
- Custom Dies
- One set of plugs

Options:

- Head pump (for semi-liquid dough)
- Rotary strip with 5, 7, or 9 exits
- Non-rotary strip with 5, 7, or 9 exits
- Inserts for wire-cutting strip with custom made shape
- Small trolley to transport head

PLASTIC NOZZLES

P-1

For biscuit production, nozzle diameter 9mm

P-2

For freckle cookies, nozzle diameter 13mm

P-3

For decoration

P-4

For stuffing cookies

P-5

For small éclairs production

P-6

For big éclairs production

P-7

Standard straight round

P-8

Standard oblique round

P-9

Standard straight serrated

P-10

Standard oblique serrated

BRONZE NOZZLES
