

D/ Packaging Line Cross Slicer Hi-cap

Semi-automatic packaging line perfectly completing the fully automatic D/ Cross Slicer Hi-Cap

Daub has developed a semi-automatic packaging line perfectly completing D/ Cross Slicer Hi-cap. The complete unit comprises a bread slicer, bag blower and horizontal conveyor line with bag closing system for clip or twist closures. Swivel wheels and compact design make the unit easy movable so it can be used in various locations.

After slicing of the bread, the bag blower automatically opens the plastic bag by inflating air. Sliced bread is inserted manually in one natural movement into the bag and onto the conveyor line. Filled bags are then transported over the conveyor line to the bag closing system for final closure.

The complete unit of bread slicer, bag blower, conveyor line and bag closing system is with a total footprint of just over 4m² the ideal compact slice- and packaging solution for any semi-industrial bakery.
