**Enterprise Incident Management System that allows you to report any kind of incident that happens in your organization with aclaimant.**

**Centralized Reporting of incidents:**

To ensure that each incident is easily reported every time, Aclaimant provides a private hotline number and email address so that all incidents can be quickly reported and documented. Upon receipt of a hotline message, the workflow process begins.

**Automated Workflow Task Creation and Tracking:**

Upon the creation of any incident, a list of required tasks, documents and forms is generated by Aclaimant and sent to the managers responsible for execution and completion. These tasks are fully customizable and will be determined by your organization.

**Generation of Alerts/Reminders and Automated Escalation of Events to Ensure Adherence to Procedures:**

Within the customized Aclaimant workflow, any number of custom alerts can be set so that every manager, EHS coordinator and supervisor knows the exact steps to take to rapidly resolve an incident. If steps are not completed, alerts can be sent to whomever is responsible for follow through.

**Tracking and Reporting on Company-Wide Procedure Compliance:**

Every data point collected by Aclaimant is easily reportable, including the number and type of incidents by district, region and office.

**Automated Filing of Claims to Liberty Mutual and Automated Resources:**

Claims can be submitted directly from the Aclaimant system by email or other methods, depending on the requirements of the insurance carrier.

**Job Safety Walks – Forms, Tasks, and Compliance:**

Forms and tasks for job safety walks can be easily created and assigned in the automated workflow. These forms are mobile optimized and can be completed on any handheld device or computer. Overdue forms can trigger alerts and escalation within the system.

**Did you know?**  
Lag time reporting increases claim costs?

Loss costs for claims reported one week late were 8% higher, and 37% higher after one month.

A claim is 3x more likely to be litigated if reported 1 month late.

Penalties can also be levied for delayed injury reporting in some states.

**Did you know?**  
Did you know that businesses that actively manage workplace incidents with aclaimant can reduce their business insurance costs by up to 40%?

### Timely "Incident Frequency" and "Total Cost" Reporting by Branch

The ability to quickly identify incidents and total spend by branch will provide the ability to more quickly identify issues by branch, manager, and client so as to quickly analyze and respond to incident trends. Data is automatically collected in Aclaimant so that reports such as "Frequency of Incidents by Branch" are accessible in real time from the Aclaimant dashboard:
