2016 IMPACT REPORT

MIDWIVES FOR HAITI

10 YEAR ANNIVERSARY
1. Access to a Skilled Birth Attendant before, during, and after childbirth is proven to save the lives of mothers and their infants.

2. We train Haitian nurses to be Skilled Birth Attendants and empower them to deliver culturally appropriate health interventions.

3. We work alongside the Haitian Ministry of Health and local community leaders. Our education and health programs are led by and for Haitians.

“AS MIDWIVES, WE HAVE A RESPONSIBILITY TO DO AS MUCH AS WE CAN, AS FAST AS WE CAN.”

- NADENE BRUNK, FOUNDER
