ANNUAL CONFERENCE ON INDEPENDENT LIVING 2016

JULY 25 - 28 • GRAND HYATT • WASHINGTON, D.C.
A Message from the Executive Director

It is with great pride and certainty in the power of the Independent Living community that we present the 2016 Annual Conference on Independent Living: Solidarity – Everybody In. We echo the words of Justin Dart:

“I call for solidarity among all who love justice, all who love life, to create a revolution that will empower every single human being to govern his or her life, to govern the society and to be fully productive of life quality for self and for all.”

Solidarity is essential to building and advancing the Independent Living Movement, and necessary for overcoming the challenges our community faces today. We must unite to defeat the discrimination in policies and attitudes that led to the institutional bias, employment discrimination, and a lack of accessible housing and transportation – just to name a few of the barriers facing our community today.

We must embrace solidarity with all of our brothers and sisters with disabilities and prioritize the participation of people of color, youth, and other multiply-marginalized people with disabilities who remain severely under-represented in our Movement.

We must also continue our commitment to consumer control as we monitor and advocate for the successful implementation of the Workforce Innovation and Opportunity Act in the spirit of the law as crafted by our advocates and allies.

I hope you will join us this July as we do the work that will bring our Movement to its full potential: a united people who will create a world in which people with disabilities are valued equally and participate fully.

Presented by: Samantha Crane, J.D. (Director of Public Policy: Autistic Self Advocacy Network); Shira Wakschlag (Staff Attorney and Special Assistant to the CEO: The Arc of the U.S.); Lindsay Baran (NCIL Policy Analyst)

The movement for assisted suicide laws uses language familiar to the Independent Living Movement, such as “control” and “choice.” But its proposals are based on invidious discrimination involving disability and quality of life judgments. People with disabilities deserve equal suicide prevention, not suicide assistance for feelings of “being a burden” or “loss of dignity” as official Oregon and Washington state reports reveal. Learn how assisted suicide proposals across the U.S. are actually
dangerous for everyone, without significant benefit to people facing death. Take away useful materials and learn strategies for identifying and addressing the issues in your state. Target Audience and Knowledge Level: Appropriate for all Audiences.

"For Your Own Good": Coercive Care in the Lives of Disabled, Young, Fat and Queer People -
Intersectionality Track

Presented by: Shain Neumeier (Disability Justice Advocate; Self-Advocate; Attorney)

Bodily autonomy is a basic human right. However, it is routinely denied to many people with the best of intentions based on the assumption that people like them aren't capable of making their own decisions, or because other people are or may be uncomfortable with their bodies and minds. Marginalized people frequently experience this kind of paternalism in treatment settings by being subjected to involuntary treatment or being denied treatment they want or need. I will discuss how young, fat, disabled and queer people experience coercive care, the common rationales for and narratives surrounding it, and how it affects them. Target Audience and Knowledge Level: Appropriate for all Audiences.

Target Audience and Knowledge Level: Appropriate for all Audiences.

### Grassroots Assistive Technology – DIY Found and Made

Presented by: John Flaherty (Assistive Technology Specialist: Tri-County Patriots for Independent Living); Brenda Dare (Independent Living Supervisor: Tri-County Patriots for Independent Living)

No matter the goal in life, assistive technology can help you succeed. However, it is often expensive and complicated. There has been a push among communities to find lower-cost homemade solutions that can either test a theory without costing as much, or augment professional equipment with designs that are customized for specific needs. Solutions can be either repurposed supplies or created from materials that are widely available. We also want to make sure that people know they don't have to start from scratch, as there are many resources available to help you learn more.

### Increase Your Advocacy Outcomes! ADA Resources and Strategies

Presented by: Marian Vessels (Director: Mid-Atlantic ADA Center); Janet Parke (Director of Advocacy and Training: Bay Area CIL - Salisbury MD)

The 25th Anniversary of the ADA and the changes to CIL core services brought about by the WIOA have increased the focus on consumers with disabilities. The ADA National Network (ADANN) (your regional ADA Center) and CILs are now housed under the Administration for Community Living and have an increased need to share information and resources. This poster will illustrate the vast array of ADA resources and ADANN services that can be used in the community to support a CIL's core services and achieve positive outcomes from advocacy and educational efforts.

### Making Election Websites Accessible

Presented by: Kathy Hoell (Co-Chair: NCIL Voting Rights Subcommittee); Michelle Bishop (Voting Rights Specialist: National Disability Rights Network); Susan Mizner (Disability Counsel: ACLU); Keith Gurgui (System Advocate - New York Statewide Systems Advocacy Network at Resource Center for Accessible Living)

More and more election activities are happening online - from voter registration, voter education, and even casting a vote. People need to know how to make all of these functions accessible; technically and politically. Learn and to prepare to communicate with your communities and election offices about accessible online education processes.
Access, Accommodations, & Resources

Environmental / Chemical Sensitivities

Fragrance and chemicals can be access barriers. To help make this Conference accessible to participants for whom chemicals or fragrances are an access barrier, NCIL requests that you come fragrance free. Please refrain from wearing any scented products or washing with them. This includes clothing that has been laundered with fragranced detergent or fabric softening products. Additionally, please completely air out any dry-cleaned clothing before wearing it to the Conference.

Smoke can also be an access barrier. It is essential that we maintain a smoke-free environment. If you smoke, please use the designated smoking area located outside the Hyatt. Please refrain from smoking near any other doorways or paths of travel. The hotel entrance at 11st Street should be the least polluted with cigarette smoke and vehicle exhaust, although it unfortunately has steps.

Van Parking

The maximum vehicle height for the garage at the Grand Hyatt is 6’ 5”. Grand Hyatt valet staff will park taller vehicles at the Renaissance Washington as space allows. This arrangement will be made available on a first-come, first-served basis and billed at the Grand Hyatt regular self-parking rate of $32 / night.

Auxiliary Aids & Services

CART (Communications Access in Real Time), sign language interpreters, assistive listening devices, personal assistants*, accessible materials, and other services will be provided upon request for all NCIL Conference activities. However, participants must arrange their own services for Hill Visits on Tuesday.

Local Service Providers: Wheelchair and Scooter Rental and Repair

- The route of the NCIL March from the Grand Hyatt to the US Capitol is slightly less than one mile. Many Conference attendees rent power chairs or scooters and have them delivered to their hotel to ensure they can participate.

#ADAYouthPledge

#GenerationADA is the cohort of youth age 26 and under who grew up after the ADA was passed. The 2016 NCIL Conference is committed to engaging and supporting #GenerationADA. However, due to a variety of barriers, most especially cost, youth with disabilities have been unable to fully participate in the national disability community. In order for the Independent Living Movement to be
more inclusive of young people we need the support of CILs, SILCs, and other organizations. We are asking that your organization takes the #ADAvyouthpledge through one of three ways:

- Pledge to financially sponsor 2 young people in your local area to attend the NCIL conference.
- Pledge to financially sponsor 2 young professionals on your staff to attend the NCIL conference.
- Contribute towards the Youth Scholarship Fund that will bring young people from across the country to the NCIL conference. Your donation will support plane tickets, hotel accommodations, personal assistance services, and registration costs for attendees.

Visit ncil.org/youthpledge to take action! With your help, we can bring youth with disabilities to the 2016 NCIL Conference and ensure that youth leadership will grow and flourish in the Disability Rights Movement. Together we can ensure that #GenerationADA is empowered, engaged, and ready to lead. We ask that you tweet us with your pledges @youth_fellow. Thank you for your support!
