TANK & OPERATING EQUIPMENT

PNEUMERCATOR - (www.pneumercator.com)

- Manufacturing of four basic types of equipment: Point level controls on float-actuated level switches and alarms / Liquid level gauges based on mechanical and pneumatic signal transmission / Liquid level inventory management systems based on microprocessor control / Hydrocarbon leak detection based on float switch technology.
- Products range from tank management systems, analog gauges, audible alarm controls, pump controllers, power surge protection, liquid level switches, probes, leak sensors and software.
- Manufacturing in Hauppauge, New York.

KENCO ENGINEERING - (www.kenco-eng.com)

- Supplier of instrumentation operating equipment. Various industries including oil & gas, petrochemical, pulp & paper, water & wastewater treatment.
- Electronic level measurement, mechanical level management, sight flow indication, chemical process equipment and engine & compressor equipment.
- Kenco Engineering supplies various liquid level gauges & switches, level transmitters, valves, protection gauges, sight flow indicators/ windows, pump setting gauges, calibration pots/ cylinders, injection rate gauges, float switches and safety valves.
- Corporate office located in Tulsa, Oklahoma.

SHAND & JURIS (L&J TECHNOLOGIES) - (www.ljtechnologies.com/sj/sj.htm)

- Manufacturing of conservation vents, vapor recovery systems, valves, gas blanketing valves, tank fittings, flame & detonation arresters, vacuum vents, pressure vents, insulation jackets and emergency vents.
- Manufacturing in Berkeley, California.

SHARPSVILLE CONTAINER – (www.sharpsvillecontainer.com)

- Vessel products and operating equipment in stainless steel and other alloys. Various sizes up to 30,000 gallons.
- Custom engineered tanks and reactors, fluid storage tanks, mixing & blending tanks, heat transfer tanks, high pressure cylinders, transport product and stainless steel/ carbon steel silos.
- Manufacturing in Sharpsville, Pennsylvania.

STANWADE METAL PRODUCTS – (www.stanwade.com)

- Carbon steel tanks and operating equipment. Tanks up to 30,000 gallons.
- Manufacturing in Hartford, Ohio.
