

NC Locate Resolution Partnership Committee Meeting  
Charlotte  
April 26, 2017

Attendees:

John Lecco  
Roger Richards  
Tom Kraft  
Cory Hunter  
Tim Yarbro  
Kevin Comalander  
Paul Carrico  
Chris Russ  
Tami Stout  
B.W. Allen  
Shawn Baumgartner

If possible, let us share information between Charlotte/Wake locations so we are not recreating the wheel.

Discussion about NC811 putting together a white lining video that uses Best Practices. Trying to get consensus about proper white lining techniques. Ann Rushing & Chris Russ met at the NC811 board meeting to discuss CGA Best Practices. This white lining video would be shared across the state to attempt to get stakeholders to develop uniformity. There may also be an opportunity to a potholing Best Practice video presentation to share.

Paul Carrico-reminder-don't update tickets for work done. Also, do not update tickets for work that you are not going back to complete for a month. It improves the quality/and the amount of ticket volume.

There is one location that has called in for locates six times, that has 29 acres. (Jeff B. has this information)

Some advice for Spirit Communications-White lining-discussion about putting your company name/date in paint. The cost is labor/paint. Do not call in both sides of the road. Meet on site to discuss work area prior to work (pre-construction meeting) Pre-cons make a HUGE difference.

White lining video will be helpful as far as interpretation. Question was asked if homeowners are asked if they plan to white line. Yes, they are. However, it is unknown if they understand what white lining is. Can the information be emailed to them? Or Safe Digging Practices information? They can review this information during the 3-day waiting period prior to excavation.

Spirit-Would like to do another stakeholder meet & greet. Get familiarity with the area and try to get ahead of any issues that may arise.

Next meeting May 31<sup>st</sup> at 11:00 at Matthews Town Hall

Tami Stout
