Dear Johnette,

It is official! The U.L. Board of Supervisors voted today to name Louisiana Tech EVP Les Guice as the university's next president. Congratulations to Dr. Guice! Meanwhile, it's also been a good week for Northwestern State University. After years of wanting to offer a Doctor of Nursing Practice degree, the school finally gained approval from the UL Board to move forward with their proposal.

The LSU Board of Supervisors is expected to vote again this Friday to consolidate the head of the LSU System and head of the flagship campus. Interim LSU President Dr. Bill Jenkins has been traveling the state to sell the idea. According to an article in The Advocate, Dr. Jenkins assured a Baton Rouge crowd they were "clearly the powerful campus in this constellation" and that other campuses around the state would have to conform to fit in with Baton Rouge rather than the other way around. Read the full story here.

Finally, those who are concerned about the reorganization plans for One LSU can now speak up. You can attend one of the town hall meetings scheduled in Shreveport for December 11th or go to a website launched today by our friends at Williams Creative. The website address is http://www.savelsuhealthshreveport.com. There is an online petition and email information for both the LSU Supervisors and LSU transition team. Please join our fight to keep a Chancellor at Shreveport’s Health Science Center!
