

Form ADV, Part 3 Form CRS, Relationship Summary
Dumaine Investments LLC - 6/30/2020

1. Introduction

Dumaine Investments LLC is an investment advisory firm registered with the Securities and Exchange Commission. We offer financial planning and investment advisory services whose fee is based upon the amount of assets we manage. There are free and simple tools you can use to research advisory firms and financial professionals at Investor.gov/CRS; this website will provide you with educational materials about investment advisors and investing.

2. Relationships and Services

What investment services and advice can you provide to me? We offer financial planning combined holistically with ongoing portfolio management. As part of our regular services, Dumaine continuously monitors our clients' investments throughout each day. Our client relationships are all discretionary, i.e. Dumaine is granted full authority to buy and sell securities on our clients' behalf without their prior consent. However, our clients are closely involved in creating their investments' overall strategy which culminates with a written investment policy (IP) which summarizes a client's overall financial situation, their ability and desire to assume risk, their anticipated financial needs. Finally, the IP spells out the client's targeted allocations of investment assets between the primary investment categories that we invest in, namely: cash/money market mutual funds, fixed income/bonds and stocks/equities. Our discretionary authority may be limited by your unique restrictions and guidelines which will be incorporated into the investment policy.

Our investment advice is tailored to meet our clients' unique needs and investment objectives. At the beginning of our relationship, we meet with new clients to determine their investment objectives, their ability and desire to assume risk along with other relevant information. We will use the information we gather to give specific planning advice and to make investments on our clients' behalf. We offer investment advisory services to individuals, high net worth individuals, pension, and profit-sharing plans (but not the plan participants), charitable organizations, corporations and other businesses and trusts. In general, we require a minimum of \$500,000 to open and maintain an advisory relationship. At our discretion, this minimum account size may be waived. Account values for clients, their spouses and their children may be combined to meet the above stated minimum.

Given my financial situation, should I choose an investment advisory service? Why or why not? In our experience, individuals typically choose to hire an investment advisor for one of three reasons:

- 1) They do not have the interest in analyzing and selecting their investment purchases/sales and then continue to monitor them to determine the appropriate future actions;
- 2) They do not have the time to analyze and select their investment purchases or sales and then continue to monitor these securities to determine the appropriate future actions; or
- 3) They do not have the ability to analyze and select their investment purchases or sales and then continue to monitor these securities to determine the appropriate future actions.

If a prospective client has the interest, the time and the ability to analyze and select their investment purchases or sales and then continue to monitor these securities to determine the appropriate future actions, hiring Dumaine Investments may not be an appropriate decision for them.

How will Dumaine Investments select investments for you? Our overall strategy is dictated by the written investment policy crafted around your unique situation. Individual securities are selected based on a top down assessment of the global, political, and economic environment. We then select individual securities based on a bottom up fundamental assessment of a given securities specific risks as well as its appreciation and/or income opportunity. We are an active manager who primarily selects specific individual stocks with a value-oriented bias along with individual pieces of fixed income. We also purchase exchanged traded funds and mutual funds as needed.

What is our relevant investment financial planning experience including our licenses, education, and other qualifications? The president of Dumaine Investments is Cliff Favrot. He has a B.A. in Economics from Williams College and an M.B.A. from the McDonough School of Business at Georgetown University. Cliff has been a Chartered Financial Analyst (CFA) since 2003. This designation is meant to indicate that an individual has demonstrated a proficiency in security analysis and portfolio design. To receive this professional accreditation, three tests must be passed that typically require a minimum of 750 hours of study. Mr. Favrot has practiced as a financial planner for 15+ years and is also a Certified Financial Planner™ (CFP). To achieve the CFP designation, an individual must pass a single test covering the key areas of financial planning, i.e. investments, taxes, estate, insurance, and retirement. To pass this test typically takes 200-250 hours of study. Over the last 20 years, Cliff has worked as a portfolio manager at 3 different SEC registered investment advisory firms. He founded or co-founded two of these firms and served as the Chief Investment Officer at all three organizations. Additionally, he is a past president of the CFA Society of Louisiana, the region's local financial analyst organization.

Dumaine's other portfolio manager, Jo Anne Keck received a B.A. in American Studies from Cornell University. Prior to joining Dumaine 9 months ago, she had 15 years of varied financial industry experience in New York City, Houston, and New Orleans. Jo Anne holds a Series 65 license which requires ~30 hours of study and qualifies an individual to provide investing and general financial advice to clients. Previously, Jo Anne has held the Series 3, 7, 55 and 63 licenses. Additionally, she is a candidate for level 1 of the CFA charter which indicates that she is currently scheduled to take the test soon. To pass the first level of this accreditation's testing typically takes 200-300 hours of study.

Item 3. Fees, Costs, Conflicts and Standard of Conduct

What fees will I pay? Our fee for portfolio management services is based on a percentage of the assets in your account(s):

Annual Fee Schedule:

Assets Under Management	Annual Fee
0 - \$1,000,000	1.25%
\$1,000,000 - \$3,000,000	0.80%
Above \$3,000,000	0.50%

Our annual portfolio management fee is billed and payable, quarterly in advance, and is calculated based on the account(s) balance(s) at the end of the prior billing period. If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro-rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are our client. Our advisory fee may be negotiable depending on individual client circumstances. In hiring Dumaine, you will pay fees whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying over time.

Help me understand how these fees and costs might affect my investments. If I give Dumaine Investments \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me? 100% of the above referenced amount would be invested for you. Separately though, our quarterly management fee would be billed and would be at \$31.25/quarter based on the theoretical \$10,000 amount. There are no other fees or charges levied or received by Dumaine Investments in servicing its clients.

What are your legal obligations to me when acting as my investment advisor? How else does Dumaine Investments make money and what conflicts of interest do you have in working for its clients? As an SEC registered investment advisory firm, Dumaine Investments has a fiduciary obligation to all its clients. This means that Dumaine Investments has the absolute highest legal duty of one party to another where we are bound ethically to act in our client's best interests before any other consideration. The sole revenues received by Dumaine Investments are from our clients' quarterly investment management fees. We receive no other fees or consideration of any type, including soft dollars, from any other party.

We do have two primary conflicts of interest: 1) the more assets we manage for a retail client, the more the retail investor will pay us in fees. We may therefore have an incentive to encourage the retail investor to increase the assets in his or her account. Additionally, Dumaine Investments LLC provides advisory services to CDJ Apartments LLC. Cliff Favrot is a non-controlling minority owner of CDJ Apartments LLC with whom he has a family relationship. Mr. Favrot has a duty to treat all clients similarly and will never put his interests ahead of the interests of Dumaine's other clients. Both above referenced risks are mitigated by the fact that Dumaine always acts as a fiduciary to all of its clients.

When we act as your investment adviser, we must act in your best interest and not put our interests ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask about these conflicts because they can affect our investment advice. Here are some examples to help you understand what this means. Two examples are the sale of proprietary products which are investments that are issued, sponsored, or managed by Dumaine Investments. We do not offer any proprietary products. Another conflict of interest would be the payments by third parties of compensation to Dumaine Investments. We have never received any third-party payments, nor will we ever, as our sole source of revenue is our clients' quarterly management fees.

How might your conflicts of interest affect me, and how will you address them? Our primary conflict of interest is that we are paid more in fees as we manage more assets for our clients. This risk is mitigated by the fact that we are held to a fiduciary legal standard that requires us to look after our clients' best interests first and before any other considerations or concerns.

How do Dumaine's financial professionals make money? Our portfolio manager, Ms. Keck is paid a base salary plus a commission on the revenues of the new clients that she acquires. Cliff, as the sole owner of the firm, is paid based on the firm's profits after all other expenses are paid.

Item 4. Disciplinary History

Do you or your financial professionals have legal or disciplinary history? No financial professional who works for Dumaine Investments has ever had any legal or disciplinary action taken against them. Please visit [Investor.gov/CRS](https://www.investor.gov/CRS) for a free and simple search tool to research our firm and our financial professionals.

Item 5. Additional Information

Additional information about our services and our regulatory filings may be found at www.dumaineinvestments.com and <https://adviserinfo.sec.gov/>. Additionally, the most current copy of the Relationship Summary may be requested by calling **(504) 521-7350**.

Who is my primary contact person? Is he or she a representative of an investment advisor or a broker dealer? Who can I talk to about how this person is treating me? Your primary contact person would be your designated portfolio manager, i.e. Ms. Keck or Mr. Favrot. They are both representatives of Dumaine investments, an SEC registered investment advisor. If you were to have any complaints about how your portfolio manager is treating you, you should promptly contact Dumaine's Chief Compliance Officer, Cliff Favrot, at (504) 521-7350 or cfavrot@dumaineinvestments.com.
