

Northwest Technical Institute  
rethink education

## ***Sterile Processing Technician***

14 weeks program: T, W, & TH: 5:30-8:30 pm

September 8-December 17, 2020

Join one of the most important positions in the healthcare industry. The goal of a Sterile Processing Technician (SPT) is to prevent the spread of infection by ensuring all instruments are disease-free. Learn to clean, sterilize, wrap, store and distribute instruments within the healthcare settings.
