1.3 RECOGNITION AND MEMBERSHIP

1.31 COVERED ASSOCIATES – The terms hereof shall govern the wages, hours and other working conditions of all Registered Nurses (RN's) employed by the Hospital excepting, nevertheless, Assistant Clinical Director as defined by the Labor Management Relations Act and all RN's employed as members of Hospital's administrative staff.

1.32 HOSPITAL RECOGNITION OF MNA – The Hospital recognizes the Association as the sole representative for bargaining purposes of the Staff Nurses, as defined in the Hospital's job description, with respect to salaries, rates of pay, hours of work and other terms and conditions of employment and practice.

1.33 AGENCY SHOP

1.331 Any present or future associate who is not an Association member and who does not make application for membership within thirty (30) days of hire or thirty (30) days from the signing of this contract shall, whichever is later, as a condition of employment, pay to the Association, a representation fee in an amount lawfully determined by the Association. The representation fee shall be equal or less than the regular monthly Association dues. Nurses who fail to comply with this requirement shall be discharged by the Hospital within 30 days after written notice to the Hospital from the Association. The Association agrees to indemnify and hold the Hospital harmless against any and all claims, suits, orders or judgments brought or issued against the Hospital as a result of any action taken by the Hospital under the provisions of this section.

- 1.332 Any associate who is per diem, will not be required to pay regular monthly dues.

Any associate who can document sincere religious belief in a religion which historically has held objection to any participation either financially or by participation in a professional association or labor organization will be held in compliance with section 1.331 of this article. They will be requested to present proof to the Montana Nurses Association of having contributed an amount equivalent to annual dues, initiation or service fees to any non-religious, non-labor, 501,c3 charitable organization The Hospital shall not be held liable in any way for enforcement of this section.

- 1.333 The Hospital shall, upon receipt of signed authorization forms from the nurse, deduct the established monthly amount of Association dues and forward the same to the Montana Nurses Association or to the appropriate charitable organization as per religious exemption as outlined above.

- 1.334 It is understood that the failure of compliance with the Association security provisions of this section relates solely to dues and initiation fees uniformly and periodically required of all members of the Association.

- 1.34 CONTRACT COPIES – At the time of employment, a copy of this agreement, provided by the Association, shall be distributed by the Hospital to each nurse. Further copies shall be available to any currently employed St. James Healthcare RN, without cost, in the Human Resources Department.

- 1.35 MEMBERSHIP LISTS – The Hospital will provide the Association with a list of newly hired and terminated nurses each month. A copy of this list will be given to a member of the local unit upon request.

1.4 MANAGEMENT RIGHTS

The right to hire, layoff, promote, transfer, discharge for just cause, maintain discipline, determine job classifications and specifications, require observance of the Hospital's rules and regulations and maintain efficiency of the associates is the sole responsibility of the Hospital, provided that the Association shall not be discriminated against as such and that the Hospital shall not exercise these rights in violation of the provisions of this Agreement. The foregoing enumeration of the Hospital's rights shall not be deemed to exclude other functions not specifically covered by this Agreement.

- 1.42 It is not the intent of this Article to in any way prohibit or limit the flow of communications from nurses to management about matters of mutual concern in the operation of the Hospital, or to interfere with the nurses' professional judgment in the performance of nursing functions which are not established by Hospital policy.
- 1.43 In the event economic or practical considerations justify the contracting out of any of its operations, the Hospital agrees to notify the Association 60 days prior to the date the contract becomes effective of the nature of the work to be so contracted, the number of associates affected and the name and address of the contractor. The Hospital agrees to meet and discuss with the Association the impact of any such subcontract. The Hospital further agrees to use its utmost influence to see that the contractor hires those associates affected by the contracting.
- 1.44 Rules that establish significant changes of working conditions not inconsistent with the terms of this agreement shall be posted no less than fourteen (14) consecutive days in advance of implementation.

1.5 ASSOCIATE STATUS

1.51 DEFINITIONS

1.511 Probationary Period: For the first six (6) consecutive months of employment, all associates will be considered in a probationary period. During this period the associate may terminate her/his position or the Hospital may dismiss the associate without further obligation. This is a trial period for both the associate and the Hospital to determine suitability and interest in the work and to provide the opportunity for an adjustment period. It is understood that the Hospital may have the option to extend the probationary period an additional month in individual instances.

Registered nurses hired as temporary associates shall be covered under the terms of this contract, in accordance with the status provisions herein.

1.512 Regular Status: Regular status will be assigned to full-time and part-time associates upon satisfactory completion of their period of entry probation.

1.513 Regular Full-Time Employment: Associates who have completed their probationary period and regularly work 72 hours per pay period as scheduled by the Hospital in authorized positions will be regarded as regular full-time associates. Regular full-time associates may hold more than one bid in multiple (shared) home departments.

1.513A Twelve Hour Shifts: Nurses who work 72 hours per pay period shall be considered to be working full time for the purpose of medical/dental and life insurance benefits.

Notwithstanding any other provisions of the labor agreement: A) The standard work day shall consist of twelve (12) hours work to be completed in 12 ½ consecutive hours with a 30 minute meal period if the nurse is relieved of her duties during the period: and B) Overtime (time and ½) will not be paid until the total of hours worked exceeds twelve (12) hours (excluding one-half hour for lunch period) in any one day, or forty (40) hours in any one week.

Nurses who regularly work between 40 hours and 71 hours in a two (2) week pay period, shall accrue benefits as a part-time associate.

Nurses who work less than 40 hours every two weeks shall be considered per diem and not eligible for benefits.

Rest periods shall be granted in accordance with paragraph 2.11 of this agreement.

1.514 Regular Part-Time Employment:

a. Associates who regularly accept assignments of 40 working hours per biweekly pay period as scheduled by the Hospital in authorized positions, will be considered regular part-time associates and will be entitled to the appropriate benefits covered in this agreement.

b. No RN will automatically be changed from Part-Time to Per Diem if the required hours are not met. When it is observed that the minimum hour standard is not being satisfied:

1. The RN involved will be notified in writing.
2. The RN will be given the opportunity to make up deficient hours, which are available from open shifts on the schedule, to meet scheduling needs on their usual shift unless otherwise agreed.
3. If the RN is requesting the status change, it must be done in writing for management approval.
4. Should RN decline, they may be terminated.

1.515 Per Diem Nurse – A per diem nurse is a nurse who works on a day-to-day basis, as needed by the Hospital. A per diem nurse will receive wages as set forth in 3.1, overtime pay (time and ½), time and one-half their regular hourly rate for holiday work, and per diem differential as detailed in 3.46, and will be covered under the other sections of the agreement, except shall be excluded from sections dealing with additional economic and fringe benefits (3.43 (a) and (c), 3.53, 3.54, 3.541, 4.11 – 4.17, 4.21 – 4.23, 4.321 – 4.324, 4.33, 4.34).

To maintain per diem status a nurse must work at least 100 hours per quarter. If by reason of low census per diem nurses are unable to maintain their status, the one hundred (100) hour requirement can be waived for one (1) quarter before being dropped from that status. Per diem nurses will be required to work a minimum of one weekend per schedule and two holidays per year if needed. This requirement may be waived at the discretion of management, except where education pay is concerned.

To qualify for tuition assistance the per diem nurse must work one of the following holidays per year; Christmas Eve, Christmas Day, Easter, Fourth of July or Thanksgiving. If per diem nurses are scheduled for a holiday and are not needed, they qualify for tuition assistance.

1.516 Patient Service Coordinator – Patient Service Coordinators shall be a bargaining unit member who, in addition to performing nursing tasks, is designated by nursing management of the Hospital to be in charge of nursing functions of all staff associates, including other professional nurses, on a designated shift and in a designated area. A job description specific to the designated shift and area shall be available to the nurse so designated who shall be oriented to the position.

1.516A SHIFT LEAD - Shift Lead shall be bargaining unit member assigned by the department Director/Supervisor to oversee nursing functions in a specific nursing group. The Shift Lead will be assigned on an as need basis. Shift Leads will be responsible for clinical and personnel oversight to ensure optimum work flow and quality patient care.

1.517 Float Nurses – Regularly assigned float/relief nurses may be assigned per group in advance on the posted schedule. A float/relief nurse may apply for any posted position, and will no longer be considered a float if given that position.

1.518 Transport Nurse - The Hospital will maintain a current volunteer list of nurses who have agreed to accept assignments by the Hospital as a transport nurse for St. James' patients.

Nurses employed as a transport nurse by St. James Healthcare will be considered as associates of the Hospital for the purposes of liability insurance and workers' compensation coverage. All applicable health and accident policies in which nurses participate are not affected by virtue of their performing the assigned duties of a transport nurse.

Any nurse performing transport duties who was not assigned by St. James Healthcare to such employment shall be responsible for establishing the terms and conditions of employment with the transport service firm, including the terms of liability and workers compensation coverage.

- 1.519 Preceptor Nurse – RN's who complete preceptor training shall be eligible to receive preceptor pay at \$2.00 per hour for precepting and/or orientating new RN hires or RN's who have made position changes to a department in which the preceptor has at least 2 years' experience. The ability to precept and receive preceptor pay requires observance of the Hospital's Preceptor Program rules and regulations.
- 1.520 Continuous Service – Continuous service begins with the date of employment at the Hospital and is used to compute associate benefits. The continuous service date is recognized after the probationary period is completed. Continuous service is broken by:
1. A termination – voluntary resignation of an associate.
 2. A discharge for just cause.
 3. A failure to report for work at the expiration of a leave of absence in accordance with the terms of the leave.

Agency Nurses – Agency Nurses (an associate of a subcontracting employment agency) shall not be covered by the provisions of this agreement, provided however, that Agency Nurses shall not be used to defeat the right of bargaining unit Nurses as specifically provided for in this agreement.

- 1.52 Any change in status requires a receipt of a successful bid to an open position or under special circumstances upon mutual agreement of associate and Hospital.
- 1.53 Orientation for new hires shall be for a period of six (6) weeks inclusive of all areas within the group which may be extended, decreased or modified based upon the nurse's prior experience, prior employment with St. James Healthcare, or familiarity with the assigned positions.

Orientation for all nurses who transfer to another department shall normally be for a period of one week which may be extended, decreased or modified based upon the nurse's prior experience or familiarity with the new department. Junior nurses shall be given the first opportunity for orientation to units within the group.

Except in an emergency, before being assigned to a temporary job assignment a nurse who has not worked in an area for one (1) year shall be given a one (1) day "refresher orientation" to the area.

2.0 HOURS OF WORK; SENIORITY, LAYOFFS & RECALL, POSITION CHANGES, TERMINATION OF EMPLOYMENT ; SCHEDULING; AND TIME CARDS

2.1 HOURS OF WORK – A standard work day shall consist of 8 hours of work (to be completed in 8 ½ consecutive hours), 10 hours work (to be completed in 10 ½ consecutive hours), or 12 hours of work (to be completed in 12 ½ consecutive hours), with a 30 minute meal period if the nurse is relieved of her duties during this period. Effective 7/1/06: The work week shall commence at 00:01 on Sunday and end on Saturday at 24:00. For the purposes of computing overtime and premium pay, a shift which is scheduled to be worked in two separate calendar days shall be deemed to have been worked during the day the shift ends.

2.11 REST PERIODS – A paid rest period of 15 minutes will be allowed all associates during each 4 hours of work.

2.12 TIME AT JOB RELATED INSERVICE – Attendance at job related in-service education and committee meetings will be considered as time worked, if attendance is authorized in writing by a member of the Clinical Director (For purposes of committee meetings, committee membership shall be considered appropriate authorization.) The Hospital shall recognize and encourage continuing education for Registered Nurses in an effort to assist staff nurses to meet their professional obligations. Educational programs approved by the Hospital shall be reimbursed in accordance with Hospital travel and education policy.

2.121 CONTINUING EDUCATION TUITION ASSISTANCE

Primary responsibility for education rests with each individual. St. James Healthcare may reimburse associates for education expenses directly connected with course work which can improve the associate's ability to do their job.

The opportunity for associates to attend educational programs, both in hospital and outside the hospital should be determined in consultation with the department Clinical Director.

In order to be eligible for tuition assistance, the following conditions must be met:

1. All full time, part time, and per diem nurses are eligible for tuition assistance. (At time of application for tuition assistance, per diem nurses must have met status requirements set forth in Article 1.515 in order to be considered eligible for assistance).

2. Individual must receive prior approval from his/her Clinical Director prior to registering for educational advancement directly job related (i.e., ACLS, PALS, NRP, ENPC, TNCC).
3. The assistance applies to tuition (registration), fees and books expenses. Provided however, upon mutual agreement of the Hospital and nurses in a program area, the amount described in paragraph #7 below may be utilized to purchase appropriate audio-visual and other written program materials for onsite use and instruction.
4. Class time must not adversely conflict with work schedules.
5. Accepted educational opportunities include accredited educational institutions within the community, i.e., Montana Tech, Montana Tech Division of Technology or sanctioned workshops or correspondence courses.
6. Reimbursement of eligible tuition costs will be granted up to a maximum St. James Healthcare participation limit of \$200.00. The \$200.00 per year educational reimbursement will roll over, not to exceed \$400.00 per RN. Partial reimbursement will not be rolled over. Each RN is eligible for a one-time additional \$200.00 certification reimbursement. Nurses who transfer positions within the Hospital shall become eligible again for the one-time additional \$200.00 certification if their current certification is no longer applicable.
7. To be eligible for reimbursement the final grade report must evidence a grade of "C" or higher, or satisfactory completion of course, plus registration receipts must be submitted to the Human Resource Department for authorization of reimbursement. This documentation must be attached to the Educational Reimbursement Application form. A Check Request form must also be attached. Final reimbursement will come from the System Office.

8. Prepayment for approved workshops may be made to sponsoring agency prior to course. Documentation of successful completion must be supplied to Director. If successful completion is not documented, associate is responsible to reimburse hospital the amount prepaid.
9. Full tuition reimbursement AND HOURLY WAGE shall be provided by the Hospital for Hospital mandated programs. For non-mandatory in-service continuing education, the Associate will not be paid their hourly wage.
10. All staff attending tuition assisted offerings shall be responsible for sharing appropriate and applicable information to affected hospital care and service areas. Prior to attendance, the manner in which the information will be shared will be determined with their Director.
11. Individual must receive prior approval from his/her Clinical Director prior to registering for educational advancement directly job related (i.e., ACLS, PALS, NRP, ENPC).
 - a. Trauma Nursing Core Course (TNCC) Certification will be mandatory for all nurses working in the Intensive Care Unit (ICU) and Emergency Department.
 - b. All new hires and nurses who transfer into ICU or Emergency Department nursing positions will have nine (9) months from the date of hire or transfer to obtain TNCC Certification.
 - c. Current associates in ICU or Emergency Department nursing positions must obtain TNCC Certification by October 15, 2017.
 - d. The Hospital will annually provide, at the Hospital's expense, a 1-day class to renew TNCC Certification onsite at SJH. In 2017, the Hospital will also provide an onsite 2-day class for nurses needing initial TNCC certification. The Hospital will provide a minimum of one month notice to all Associates for the dates of both the annual renewal class and the initial certification class. In 2018 and each year thereafter, the one-day renewal class will be offered onsite on one occasion per year at management's discretion. Beginning October 15, 2017, all new hires and nurses who are not certified that transfer into the ICU or Emergency Department must attend a 2-day initial TNCC certification class at St. Vincent Hospital in Billings, Montana. St. James will pay travel expenses for associates attending that training, including meals, lodging, and mileage reimbursement. All associates will be paid their hourly base rate for time spent in TNCC training.

- e. If an associate fails to renew his or her TNCC Certification by attending the annual classes offered at the Hospital, the cost to renew TNCC Certification will be at the associate's expense. Associates may use, if funds are available, their annual education dollars to pay for a certification course taken elsewhere, provided all the requirements of the program are met.

Associates who fail to timely obtain or renew their TNCC Certification may be subject to discipline, including suspension until their TNCC certification is obtained, or temporary transfer to a vacant position for which they are qualified outside of the ICU and Emergency Department, should any exist. The Hospital may consider exigent circumstances and extend the timeline above if warranted. If TNCC Certification is not obtained by December 15, 2017, or is not renewed within sixty (60) days of expiration, the associate will no longer be qualified for their position and will be terminated, and the Union agrees not to grieve such a termination.

- 2.13 TIME AT DESIGNATED COMMITTEES – Nurses shall be compensated at base hourly rate for all time spent in any appropriately developed, job related committee.
- 2.14 JURY DUTY – Regular, full-time and part-time nurses who are called to serve on jury duty shall be compensated by the employer for hours spent in jury service, not to exceed an amount equal to their regularly scheduled shifts. The associate may retain the payment from the Court as well as receive regular wages.
- 2.15 HOSPITAL REQUESTED TESTIMONY – When a nurse is called for testimony on behalf of the Hospital, he/she shall be paid his/her normal base hourly wage at straight time and overtime (time and ½) if applicable, for any time spent traveling and providing the requested testimony. Additional time spent preparing for such testimony shall be similarly compensated, provided that the nurse has obtained prior approval for a reasonable amount of preparatory time from Risk Management.
- 2.16 EXCUSED NON-PAID ABSENCES – Non-paid personal absence may be granted associates for “good or sufficient reason” justifying and associate’s absence from work. Requests for such non-paid personal absences shall be made at least twenty-four (24) hours in advance except in case of emergencies that prevent such advance notice. Requests for non-paid personal absences shall be subject to Hospital approval and shall not exceed two consecutive days; provided however, such approval shall not be unreasonably withheld.

2.17 SHIFT TIMES – No nurse shall be required to rotate shifts, except in an emergency, or unless written notification of shift change has been provided to the affected nurse prior to the posting of the schedule.

2.17A SHIFT LENGTHS – Longer or shorter shift lengths may be established by mutual agreement between the Hospital and the Nurse. The Hospital may continue any such changed shifts for a trial period of at least three (3) months, provided that any nurse, upon four (4) weeks' written notice, may elect to rescind the changed shift lengths.

2.2 SENIORITY, LAYOFFS, RECALL POSITION CHANGES & TERMINATION OF EMPLOYMENT

2.21 SENIORITY

- A. Seniority as used herein shall be based upon compensable hours as defined in 4.12.
- B. All beginning associates shall be probationary associates during their first six (6) consecutive months of employment, and during the probationary period they will have no seniority or right to employment and may be discharged or disciplined with or without just cause. Upon successful completion of the probationary period seniority shall be retroactive to date of employment.
- C. The seniority rights of associates shall not impair the right or ability of the Hospital to discharge or otherwise discipline associates for just cause. Nurses who have passed the initial new hiring probation and are placed in the disciplinary program will not lose seniority or benefits.
- D. Seniority shall be terminated by:
 - 1. Discharge for just cause; or
 - 2. Voluntary quit or resignation; or
 - 3. Twelve (12) consecutive months of unemployment through layoffs; or
 - 4. Failure to report to work after a layoff within forty-eight (48) hours after the time of being personally notified; or
 - 5. Securing other employment during a leave of absence, unless the taking of other employment is expressly granted in the leave of absence; or
 - 6. Retirement under any applicable Hospital pension plan.

- E. Seniority shall be used for no purpose unless expressly stated in this contract. Nothing in this section shall be construed to limit the right of the Hospital to determine the number of associates, the establishment or elimination of services, or the right to enlarge or reduce staff.
- F. The least senior nurse in the Group floats to adjust staff to census within the Group if he/she is equally qualified. A nurse may volunteer to float in place of the least senior nurse.
- G. A nurse may volunteer to float to an area outside her group rather than take a TFR assuming:
 - 1. Patient care needs on the unit to be floated to require additional staff.
 - 2. Nurse meets competencies of "float" unit, i.e. PALS.
 - 3. Nurse has received training/orientation to the "float" unit.

This provision shall not limit the Hospital's rights to temporarily transfer associates between groups and subgroups.

2.22 TEMPORARY FORCE REDUCTION

- A. Reduction in force by reason of low census shall be as follows:
 - 1. The assigned hours off shall be offered to associates in the shift and group involved in the order of their greater seniority. All associates desiring to volunteer for TFR time shall contact the staffing office/house supervisors.
 - 2. TFR/On-Call reductions shall take place in the affected nursing group, by shift, by first assigning them to volunteers (by seniority), and then to the least senior associate in the nursing group on a rotating basis. During instances of an involuntary TFR/On-Call, no per diem nurse will be utilized for nursing care within the nursing group for that shift. Any voluntary TFR/On-Call days taken will count as a mandatory turn.
 - 3. Nurses who receive a TFR/On-Call assignment shall be allowed to use any available accrued PTO time while on TFR for those hours.

4. Assigned hours off due to a TFR/On-Call shall be recorded and reported as temporary force reduction without pay, but seniority and other fringe benefits shall continue to accrue without interruption.
5. The TFR/On-Call seniority list is kept in the staffing office and will be updated and seniority hours adjusted. New RNs will be added to the list available for rotation once they have completed orientation. When the list is updated previous TFR/On-Call days taken will be retained.
6. Half of a RN's regularly scheduled shift will count as a mandatory On-Call taken.

2.23 LAYOFFS AND RECALL

- A. A layoff is defined as a separation from employment because of a reduction in force or reorganization caused by reasons that do not reflect discredit on the nurse or nurses to be laid off.
- B. Ability and qualifications being equal, seniority as defined herein shall govern in layoffs and rehiring. The Hospital will be the judge of ability and qualifications. Layoffs will be in reverse order of seniority. Probationary associates shall be laid off prior to the layoff of associates who have completed their probationary period.
- C. Whenever a layoff or recall occurs, the Hospital may assign and reassign nurses to effectuate the staffing needs of the Hospital necessitated by the reduction in force, prior to implementing any requests for transfers to vacant positions.
- D. A nurse who has been laid off within the preceding twelve (12) months shall be recalled in the inverse order in which he/she was placed on layoff, provided he/she is qualified to perform the duties of the position available. A nurse who is passed over retains his/her position on the recall list. Recall rights shall be forfeited if the nurse fails to keep the Hospital advised of address and/or fails to report to work within 48 hours of the recall notice.
- E. The Hospital will attempt to give at least five (5) days' notice of a permanent layoff, but in no event shall the notice be less than forty-eight (48) hours.

2.24. BARGAINING UNIT POSITION CHANGES

Bargaining unit position changes shall be made from within the Nursing Service Department, unless no qualified bargaining unit nurse makes application. Ability, qualifications, and seniority will be considered in the selection of RN positions. For the purposes of this subsection, a nurse who has maintained per diem status may accrue and/or retain up to 3,000 hours seniority for the purpose of obtaining consideration for open positions.

2.25 ACQUISITION AND RETENTION OF SENIORITY

- A. Seniority can be accrued only by compensable hours gained in the bargaining unit.
- B. Nurses who leave the bargaining unit for the purposes of accepting a non-bargaining unit position at St. James Healthcare that involves patient care, medical services administration, or other positions which utilize the professional education, training and work experience of the associate, shall have bargaining unit seniority frozen for a consecutive two year period of time following each transfer occurrence to the non-bargaining unit position. If nurses return to the bargaining unit within this consecutive two year period of time, bargaining unit seniority will be retained in full. Bargaining unit seniority will be retained to a maximum of 3,000 hours if nurses return to the bargaining unit after the consecutive two year period of time.
- C. Nurses who accept temporary positions can accrue and retain seniority in accordance with Section 2.25.

2.26 TERMINATION OF EMPLOYMENT

- A. Discharge shall only be for just cause after successful completion of the probationary period.
- B. A nurse shall give the Hospital four (4) weeks written notice of intent to resign, whenever possible.
- C. The associate's chronological record shall be available for the associate's review.

2.27 DISCIPLINE

- A. No nurse will be disciplined or discharged except for just cause after successful completion of the probationary period. In taking disciplinary action, the Hospital shall follow the principle of progressive discipline directed toward the goal of correction, provided, however, the parties acknowledge that the Hospital by its policies has established circumstances justifying immediate suspension or discharge.

Professional Coaching. Before the Hospital initiates the first step of corrective action (written verbal warning), except in circumstances supporting a suspension or discharge, the supervisor in question shall discuss with the Registered Nurse the issue(s) in question and what steps should be taken to correct the issue(s). Notes reflecting the outcome of the Professional Coaching will be maintained by the Registered Nurse's immediate supervisor and not become record in the associate's personnel file.

1. Professional Coachings are not subject to the Grievance and Arbitration procedures, as defined. Any Registered Nurse may request a nurse representative at the Professional Coaching.
- B. Discipline, when administered, will be done in accordance with the Hospital's written policies and procedures, in one or more of the following forms and normally, but not necessarily, in the following order: (1) Written verbal warning; (2) written first (1st) conference; (3) written second (2nd) conference ; (4) suspension; (5) discharge.
- C. Formal disciplinary action shall take place in a private area. All disciplinary proceedings are subject to the grievance/arbitration clause. All disciplinary entries in the personnel file not involving termination shall state the corrective action expected of the associate. During the probationary period, an associate may be discharged without the right of grievance or appeal. All written reprimands, notices of suspension and notices of discharge shall become a part of the associate's personnel file and shall be read and acknowledged by signature of the associate.

2.3 SCHEDULING

2.31 POSTING – Time schedules and days off shall be posted one (1) week in advance for a four (4) week period. Posted schedules will be changed only after prior notification has been given to the affected nurse.

2.32 WEEKENDS:

The Hospital reserves the right to schedule part-time and full-time nurses according to the staffing and patient care needs of the Hospital (as defined by management). Consideration will be given to scheduling every other weekend off if the staffing mix (full time/part time) is such on the unit that adequate staffing will be maintained. Adequate staffing will be defined by Nursing Administration.

- A. Any registered nurse (full time, part time, per diem) who agrees by request from their Scheduling Supervisor/Director to work a second consecutive weekend will be paid a \$1.50 per hour differential for all hours worked.

Nurses who self-schedule or voluntarily request weekend schedules other than every other weekend off and nurses who voluntarily trade weekends to accommodate personal needs, such as vacations, shall not be eligible for this premium pay.

- B. The weekend will be defined as Friday at 1900 thru Monday at 0700 (differential paid as long as you work at least 2 hours during the defined time).

When an associate loses work by reason of a non-workers' compensation accident or illness, their absence, to the extent that it exceeds the associate's accrued PTO and Sick Leave benefits, shall be considered compensable time for a maximum of 30 days beyond accrued PTO and Sick Leave benefits after one year of employment.

If a member has at least 160 hours of PTO accumulated at any time in the Election Period, the member may choose to make an election. At the time of pay-out, if the associate has not yet accrued the full amount elected, the member will be paid up to their accrued amount. The associate will complete necessary forms and submit them to the Hospital Supervisor or Patient Services Director.

4.5 LEAVES OF ABSENCE

4.51 Leaves of absence may be granted by the Hospital to associates who have no other choice than to be absent from work because of an uncontrollable or personal demand on their time. All regular status associates having completed one year of service are eligible for a leave of absence. If an associate has no compensatory time or if an associate's absence from work will exceed 10 calendar days, the associate must request a leave of absence. Associate ordinarily must provide 30 days advance notice when the leave is foreseeable. The required form, which can be obtained in the Human Resource Department, must be presented in writing to the associate's Clinical Director and such request shall state: (1) the reason, (2) date the leave is to begin, (3) expected date of return to work. Each case will be approved on its own merits and must be approved by the Clinical Director and the Director of Human Resources.

A leave of absence, when granted, protects the associate's accrued service record. A Family and Medical Leave Absence, when granted, protects an associate's position for up to twelve weeks as granted under the terms of the Family and Medical Leave Act. The privilege of returning to work from a leave of absence, other than Family and Medical Leave, is subject to the employment conditions at the time of the return. Personnel desiring to return to work from leave, other than Family and Medical Leave will be offered the first position available which is suitable to their qualifications with the same status and wage levels characteristic of the position they held prior to the leave of absence.

4.6 As a general rule, a leave of absence will not be granted for the purpose of taking a leisurely or extended vacation, however, special consideration will be given by Administration, to requests for personal leaves of absence in excess of the standard policy for associates with several years of continuous service.

4.7 After 1 year of continuous service (and in the case of Family and Medical Leave, have worked at least 1,250 hours in the last 12 months), a leave of absence (without loss of accrued benefits) may be granted for the following reasons:

 - Placement of child with associate for adoption or foster care.
 - Care for spouse, son or daughter, or parent who has serious health condition.

 - A spouse, son, daughter, parent, or next of kin may take up to 26 work weeks of leave to care for a member of the Armed Forces who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness suffered in the line of duty while on active duty.

- Associates must provide 30 days advance notice when the leave is foreseeable.
 - Associates on FMLA leave will have their health care benefits maintained in accordance with the benefit schedule in effect at the time of leave and will be required to pay the employee portion of premiums.
- b) Personal Illness or Disability (in excess of 12 weeks granted under the FMLA) – a maximum of 12 months paid sick and unpaid leave may be allowed (inclusive of 12 weeks of FMLA leave). The associate remains an active associate only for consideration as an internal job applicant for posted positions—this includes current associates with an ASN. Before returning from this type of leave, the associate must present to the Clinical Director a Doctor’s statement approving the associate’s return to work.
 - c) Education – a maximum of 12 months may be allowed for educational leave.
 - d) Approved Administrative Leave – the CEO reserves the right to approve leaves of absence for other reasons and durations on an individual basis in the best interests of the Hospital and the associates.
 - e) An associate’s status on a sickness and accident benefit program, or on Workers’ Compensation benefits, does not automatically entitle the associate to a granted leave of absence. Therefore, the associate must still abide by the leave of absence procedures set forth herein before a leave of absence shall be established and granted. An associate must request any additional extension of a leave of absence at least three (3) days prior to the expiration of any leaves previously granted. If the associate fails to request or receive a leave of absence status then the associate’s employment status shall be deemed terminated.

4.8 Maternity and Military Leaves will be granted according to statutory law; and an equivalent position and salary will be granted upon return to work. An associate, whether married or single, who adopts a child shall be entitled to leave on the same basis as maternity leave.

4.9 PTO Time or Sick Leave will not accrue or be paid during the period of an unpaid leave of absence.

- 4.10 Notification of availability to return to work after a leave of absence must be made to the Director of Nursing Service at least 2 weeks prior to expiration of the leave.

Any such mediation shall be non-binding unless the parties reach mutual agreement on a compromise. If an agreement is reached, the agreement shall be reduced to writing and signed by the parties. The agreement shall not set precedent and shall constitute a settlement of the grievance. Selection of the mediator will be by mutual agreement of the parties. The expense of mediation shall be born equally by the parties. Mediation must be requested within fourteen (14) days of the decision in Step 4. If mediation is requested, the time for notice of arbitration shall be tolled until the completion of mediation.

Failure to give such notice shall constitute a permanent waiver and bar of such grievance.

5.14 The employer shall have the same right to file a grievance and demand arbitration as granted to the Association herein. In the event that the employer shall file a grievance, the same shall be presented to the Unit President of the Association in writing, and said representatives shall then meet to decide the grievance. If a satisfactory settlement does not result, the disagreement shall be reduced to writing, dated, and signed by the representatives of both parties. Within the time limits set forth herein for grievances filed by the Association, management shall notify the Association of its desire to arbitrate and shall thereafter, within the time specified, file a request with the appropriate agency or association for the list of arbitrators.

The last arbiter remaining on the list shall hear the matter. Each party shall bear the costs of presenting its own case. The parties shall jointly share the fees and expenses of the arbitrator whose decision shall be final and binding.

5.22 At any time during processing of grievance or arbitration, the parties by mutual agreement may waive the time periods set forth herein. The parties may also mutually agree to waive the steps and move directly to binding arbitration.

ADDENDUM A

The term "BSN or BAN" shall refer to a Bachelor degree in Nursing.
The term "ASN or ADN" shall refer to an Associate degree in Nursing.

If a position vacancy is posted internally for a nursing position covered by the MNA contract, internal nurses possessing either an ASN/ADN or a BSN/BAN degree may apply. The position will be awarded based on ability, qualifications, and seniority. Unless the job description for the vacant position specifically requires a BSN/BAN degree, an internal candidate possessing a BSN/BAN degree will not be presumed to be more qualified than an internal candidate with only an ASN/ADN degree.

In addition, nurses employed by the Hospital as of September 1, 2014, with only an ASN/ADN degree, will be **exempt** from the requirement outlined in multiple nursing job descriptions, effective September 1, 2014, which requires that ASN/ADN nurses be consistently working towards a BSN/BAN degree.

This Agreement specifically excludes all positions for which a BSN/BAN degree is a requirement, as opposed to a hiring preference.

If no qualified internal applicants apply for a vacant nursing position, and outside applicants are therefore considered, outside applicants possessing a BSN/BAN degree will be preferred over outside applicants with only an ASN/ADN degree.
