

Which Flea & Tick, Heartworm and Parasite Protection is Best?

Your pet needs year-round protection for Fleas (and maybe Ticks), Heartworms and Intestinal Parasites. Below is a graph that shows these three categories and we have identified which categories are covered with each product. When choosing the product(s) right for your pet, you need coverage in all three areas: red, white and blue.

As an example, if you choose to use a Seresto Collar, your pet is protected from Fleas, Ticks and Intestinal Parasites, but you'll need to choose a product to go with it that covers Heartworms. Choosing a product such as Revolution may cost more individually, but your pet has complete protection across the board and will cost less than choosing three individual products.
