

COPPA / CIPA

“The intent of COPPA is not to limit children’s access to websites or information, rather to limit the Web site operators’ or creators’ ability to get information from children.”

Both the Children’s Internet Protection Act (CIPA)¹ and Children’s Online Privacy Protection Act (COPPA)² are federal legislations which exist to protect children under age 13 when using the Internet and Online Resources.

COPPA law permits school districts to, in the place of a parent³, agree to the collection of personal information on behalf of all of its students thereby eliminating the need for individual parental consent given directly to each individual resource operator. Marion Independent School district will only provide the least possible amount of data to effectively use internet learning resources.

You must agree to these terms form *before* the District can allow your student(s) access the resources listed in the MISD COPPA COMPLIANT LIST and/or use school owned devices.

Your acceptance of the terms as stated in this document certifies that you understand your consent is required in accordance with the Children’s Online Privacy Protection Act (COPPA). You agree to the release of personally identifiable information regarding your student(s). You further understand that your consent is required for disclosure of this information to third parties and you may revoke or alter this consent at any time, upon providing written notice to the Marion Independent School District. Lastly, you understand that, until this revocation is made, this consent shall remain in full force and effect.

YES () NO ()
