

A Special COVID-19 Message for Our Patients

THANK YOU FOR CHOOSING TO HAVE YOUR OFFICE VISIT OR PROCEDURE WITH US

Our center has always strictly adhered to both state and federal infection control requirements to protect our patients. And, because **your safety remains our number one concern**, we want you to know about the additional infection prevention measures we have adopted to provide you, as well as our staff, with a **safe clinical environment** for your procedure:

We are following the Centers for Disease Control (CDC) guidance for **screening all patients** for known symptoms of COVID-19 prior to their appointment.

For your safety, **every person** entering the center, including employees, **will have their temperature taken** prior to entering the center.

We may **stagger arrival times** for patients to maintain smaller groups of people.

We are **using social distancing** throughout the center, including the waiting room.

All employees are wearing masks to protect you. We ask that **you wear a mask or face covering** to the center as well.

For your safety, we are allowing **only one family member to accompany you** on your visit and suggest they remain in their car or someplace outside until you are ready to leave.

Patients with special needs will have considerations made on a case-by-case basis.

And, as an added precaution, we are performing **extra cleaning, throughout the day, of all "high touch" surface areas.**

Our center has **hand sanitizer, tissues and non-touch trash receptacles** in all patient care areas.

We look forward to seeing you at our center where **your health and safety remain our number one concern.**
