

## Parks & Recreation Mobile Application

Save administration time and enhance member park & recreation experience by going mobile! GovQA's mobile application reaches out to your residents on-the-go, handles all member requests and supports timely communication by sending push notifications and alerts for your department programs and services. Cancellations or closings, public event reminders, weather alerts and more...

### 'All-in-One' Park & Recreation Mobile App

#### Offer Mobile Pages for All Teams, Programs & Facilities

Mobile pages for programs and facilities including alerts, information, photos, 'follow me' and more. Empower coaches and instructors to send real-time alerts and update team rosters. Link to all functions in the park and recreation website.

#### Communicate Instantly

Instantly provide coaches, teams, parents with news, class cancellations, real-time safety alerts, and more. Parents and teams can 'follow' their favorite teams and events.

#### Recognize Sponsors and Local Businesses

Unlock the power of mobile advertising and tap into new revenue stream through banner and text ads. Provide all your local businesses with the opportunity to sponsor teams and programs while posting information about their businesses.

#### Handle Member Requests—Optional

Efficiently handle, track and respond to member service requests. Provide staff with tool to record new requests, assign ownership, record staff notes, identify recurring issues, delegate tasks, send emails, attach files and report results.
