

# Simply

## APPLICATION OF SIMPLY FIBRE GEL PROTECTIVE COATING

- Gently push back cuticles.
- Remove natural nail oils with a medium grit file.
- Wipe nails with nail cleanser.
- Apply a thin even layer of Connector. Cure 2 minutes in a 9W UV light unit or 30 sec. in a LED lamp.
- Apply a generous layer of SIMPLY Fibre Gel over the prepared natural nail and/or tip. Cure 2 minutes in a 9W UV light unit or 30 sec. in a LED lamp.
- Apply a second, slightly thicker coat of SIMPLY Fibre Gel (if needed). Cure 2 minutes in a 9W UV light unit or 30 sec. in a LED lamp.

(NOTE: DO NOT REMOVE the dispersion film between coats, it ensures proper adhesion to the following coat.)

- Wipe off dispersion film with nail cleanser.
- File, shape and buff smooth to perfect nails.

(NOTE: If applying a colour gel or gel polish, do so now)

- Apply SIMPLY Super Shine and cure 2 minutes.
- Wipe off dispersion film with nail cleanser.
