

Coordinate the activities of your academic office with our Academics suite.

As a private, independent school, you are an educator. The importance of your academic office cannot be understated. Your student information system must handle student and parent data, faculty and department data, whole-school metrics like attendance, conduct, grading, and scheduling, and more. Do you offer boarding? Your software must offer even more features to manage unique needs, like dormitory assignments and weekend sign-outs. Finally, academic software must be tightly integrated with accounting, admissions and advancement software. Senior Systems' Academics suite can handle all of these business requirements, while blending quick access and ease-of-use with security and privacy.

Academics/Registrar Features

- Full-featured central student information system to handle and track extensive student and parent data, multiple addresses, and various family configurations
- Easy to create customized report cards, transcripts, schedules, rosters, and mailings
- Special dormitory management features to support boarding schools
- Extensive reporting, analysis, and data export capabilities for a big-picture-look.
- Add **Schedule Builder/Loader** to extend scheduling functionality with sophisticated algorithms for building and automatically loading schedules
- Add **Placement** for college or next school planning and application management
- Add the **My BackPack™ Faculty/Staff Community** to enable web-based entry for marking period grades and comments, homework, attendance, and discipline
- Add the **Daily Gradebook** option for My BackPack™ to utilize a web-based electronic gradebook for teachers
- Add the **My BackPack™ Student/Parent Community** to provide student and parent access to homework, grades and comments, and biographical data
- Add **Dashboard** for Academics to get graphical analysis and up-to-the-minute reporting
