REDWOOD COUNTY SNOW & ICE CONTROL

PUBLIC COOPERATION NEEDED

With the onset of winter looming before us, it is time to remind area residents of the importance of cooperation with the Highway Department to insure safe, efficient snow removal operations during periods of inclement weather. In recent years, Redwood County has been fortunate in that no snowplows have been involved in serious accidents; mostly due to the cooperation of motorists in allowing plow operators room to work. The Highway Department's primary goal this winter is to keep motorists moving safely on County Roads. That means adopting safe winter driving habits and giving snow plow operators room to do their jobs.

During winter storms, motorists are reminded:

- Reduce speed. Snowplows travel slower than other vehicles.
- Be patient. Never drive into a snow cloud.
- Be certain which lane a snow plow and its blade are in before attempting to pass.
- Be alert. Assume snowplow drivers do not see you.
- An average car weights 3000 pounds. An average snow plow weights 50,000 pounds! Approach with caution.
- Heed published road conditions and visibility reports.
- Plowing, pushing or shoveling snow onto public roads is illegal. This causes additional buildup due to drifting and is a traffic hazard. See attached State Statute.
- All emergency calls during storms should be directed through the "911" emergency system.

Your understanding and cooperation with the County Highway Workers during snow removal operations would be most appreciated.
