

## 2019 Dekalb Street Construction Project

### PROJECT UPDATE

October 11, 2019

The contractor is proposing to install the second lift (layer) of asphalt pavement on Dekalb Street on Monday, October 14. During the paving operation, access to Dekalb Street and the frontage roads will be limited. Residents are encouraged to use side street parking to avoid potential departure delays. Access will be restored to the Dekalb Street frontage roads on Monday evening upon completion of the paving operation.

Residents may also see pink paint in their yards outlining the excavation limits of the topsoil and seeding work.

The final 1.5-inch lift of the asphalt pavement will be installed in the summer of 2020.

Thank you for your cooperation during the construction process!
