

2019 Dekalb Street Construction Project

PROJECT UPDATE

October 8, 2019

The contractor is proposing to install asphalt pavement on Dekalb Street on Wednesday, October 9. During the paving operation, access to Dekalb Street and the frontage roads will be limited. Residents are encouraged to use side street parking to avoid potential departure delays. The contractor is also proposing to complete the asphalt patches on the west frontage road on the 300 block of Dekalb Street on Wednesday, October 9. Access will be restored to the Dekalb Street frontage roads on Wednesday evening upon completion of the paving operation.

The paving operation will be completed in two lifts (layers) of asphalt pavement. The first lift will be installed on Wednesday, October 9, and the second lift will be installed during the week of October 13.

Thank you for your cooperation during the construction process!
