MISSION STATEMENT

The mission of the DeKalb County D.U.I. Court Supervised Treatment Program is to enhance public safety by reducing recidivism of D.U.I. offenders by breaking the cycle of addiction through a combination of individualized treatment, personal accountability and intensive court supervision to promote individual responsibility and citizenship and return a productive member back into the community.

INTRODUCTION

The DeKalb County D.U.I. Court Supervised Treatment Program is a post-conviction treatment program for individuals that have multiple violations of driving while under the influence of alcohol or other intoxicants. It is a part of the probation portion of a D.U.I. sentence.

The D.U.I. Court is a team concept involving the judge, prosecutor, public defender or the defense lawyer, probation officer, Sheriff's office and local law enforcement, program coordinator, treatment coordinator, and substance abuse treatment professionals. All members work together to support the participants in addressing and combating substance abuse issues that resulted in placement in the criminal justice system.

The Program involves enhanced supervision, counseling, and treatment for the individual to function in the community with continuing support. The Program goal is to achieve sobriety of all Program participants in order to improve the quality of their lives, eliminate future violations of the law, and enhance public safety.

All defendants accepted into the Program are assigned and supervised by Judge Alvin T. Wong or Judge Dax E. López of the State Court of DeKalb County.

STATISTICS

As of December 31, 2015 the Program has graduated 805 Participants and has a recidivism rate of 3% (well below the national average). The conviction data is verified by the Georgia Crime Information Center and the National Crime Information Center.

PROGRAM RULES

The DUI Court Team and Treatment Staff believe that if you follow three simple rules you will succeed in this Program:

BE HONEST. Of all the rules, this is often the most difficult. The Program staff and the Court expect you to be honest in all areas of your life. Do not attempt to falsify records, conceal alcohol/drug use, or tamper with or dilute your urine. Eventually, you will get caught.

DON'T WHINE! Effort is necessary to complete this Program. It will be necessary to make sacrifices in order to be fully engaged in recovery and to successfully complete this Program.

SHOW UP. Be on time for groups, meetings and Court.

TREATMENT TEAM'S ROLES AND RESPONSIBILITIES

All team members will attend and actively participate in staffing and attend status hearings; remain accessible to each Participant; recommend appropriate sanctions and incentives; be a community advocate for effectiveness of the Program; be actively involved in the ongoing development of the Program; and provide guidance and supervision to the Program Participants.

JUDGE(S) -

The DUI Court Judges are aware of the significant impact of substance abuse on the Court system, the lives of Participants and their families, the victims of criminal behavior, and the community as a whole. The Judges are committed to the overall DUI Court concept and Program goals, and work as the Team leaders to encourage Participant success. One of the roles of the DUI Court Judge is to work with the Treatment Team in developing protocols and procedures for Participant success. During Status Conferences in the Courtroom, the Judge will develop a personal, working relationship with each Participant while monitoring their progress and accountability with Program requirements.

The Judge has many other daily responsibilities which require judicial attention. Direct contact with the Judge or his office staff is not permitted. The Judge cannot give legal advice. Information must go through the Treatment Coordinator, Treatment Clinician, Probation Officer or the Program Coordinator. The Judge attends non-court meetings with other Team members, not only to review and evaluate Participant progress, but also to evaluate appropriate alternatives. In addition, the Judge is an advocate for the Program by creating community interest and identifying community resources of value to Participants to enable them to achieve their goal of improving the quality of their life.

SOLICITOR-GENERAL -

Without the Solicitor-General's cooperation, consent, and agreement, individuals would not be afforded the opportunity to participate in the DUI Court. The Solicitor-General's Office determines each person's eligibility for the DUI Court. This office must agree that the DUI Court Program is a suitable component for any negotiated plea agreement accepted as a part of the sentence imposed by the Judge. A Prosecutor from the Solicitor-General's office is assigned to the Team and attends sessions to monitor Participant progress throughout the Program, and to recommend appropriate sanctions, incentives, and rewards. Another role of the Solicitor-General is to educate the community of the multiple benefits of the Program and to identify resources to aid the Program. The Solicitor-General also informs peers, colleagues, and other members of the legal community about the benefits that can be derived from a properly operated DUI Court Program.

During participation in this Program, it is not appropriate to seek advice or legal counsel from the Solicitor-General's office. In the event of a probation revocation hearing, the Solicitor-General's office will be advocating the State's position and will make recommendations to the Court regarding any sentence that may be imposed.

DEFENSE ATTORNEY -

The role of the Defense Attorney is to evaluate the Participant's legal situation and protect his/her legal rights. Additionally, the Defense Attorney should provide advice to assist in determining legal options, treatment options, Program conditions, and potential sentencing outcomes. At the time of sentencing when the Participant agrees to enter into the DUI Court, the Participant has the right to have legal counsel to advise and assist with such a decision. If for any reason, the Participant should be brought before the Court for violating the terms of the DUI Court requirements or the Court's sentence, the Participant will be informed of the right to legal counsel and a hearing. Like the Solicitor-General, the Defense Attorney also contributes by informing clients, peers, colleagues, and other members of the legal community about the multiple benefits attributable to the DUI Court Program.

PROGRAM COORDINATOR -

The DUI Court Program Coordinator, is the administrator of the DeKalb County DUI Court Supervised Treatment Program, and along with the Solicitor-General's office, reviews each case to determine who is eligible for the Program. The Coordinator also facilitates the communication and contact between all members of the DUI Court Team. The Coordinator cannot give legal advice. The Director will meet with each Participant when necessary about any aspect of the DUI Court Program, will be the contact regarding fine and/or fee issues, and will monitor each Participant's financial obligation to the Court. Attending weekly Team conferences with the Treatment Clinicians and with the rest of the DUI Court Team is another important aspect of this

role. The Coordinator also keeps the Judges informed on the most updated information regarding each Participant. In addition, the Coordinator's role is to inform, update and educate the public about the DUI Court Program. The Coordinator is the first contact for any questions regarding the Program.

The Program Coordinator reports to State Court Judges Alvin T. Wong and Dax E. López and reviews and updates the Program's policies and procedures manual, Participant Handbook, and all documents associated with the DUI Court Program to ensure that operations and administration comply with Council of Accountability Court Judges (CACJ) and applicable state and federal requirements. In addition the Program Coordinator is responsible for all grant and D.A.T.E.funds applications and manages the overall budget.

TREATMENT COORDINATOR -

The Treatment Coordinator facilitates and schedules all group counseling sessions as well as other recommended sessions and clinically assess each Participant to develop a comprehensive Treatment Plan. The Treatment Coordinator works with the Treatment Clinician to develop a specialized curriculum for DUI Court Participants that includes proven evidence-based treatment practices and reports all Participants' progress or lack thereof to the DUI Court Team. The Treatment Coordinator attends all DUI Court staffing and Court sessions and is responsible for managing each Participant's treatment.

CLINICIAN SUPERVISOR -

The Clinical Supervisor reviews each Participant's clinical assessment, individual treatment plan and makes any necessary changes or referrals. He/she also assists in developing an evidence based curriculum for DUI Court Participants. It is the responsibility of the Clinical Supervisor to ensure that all counselors are following the curriculum and re-assessing the Participants on a regular basis.

PROBATION OFFICER/CASE MANAGER -

The Probation Officer's primary responsibility is supervising and monitoring a Participant's accountability in the DUI Court Program. Participants meet with the DUI Court Probation Officer a minimum of twice per month. If warranted, the DUI Court Probation Officer can at any time increase the frequency of these monthly meetings. As a condition of participation in the DUI Court Program, the DUI Court Probation Officer has the authority to visit Participants at any time, day or night, at home, at school, or at work. During these visits Participants may be subject to drug and alcohol screens. Furthermore, the DUI Court Probation Officer attends Staffing and Court Sessions to inform the Judges and other Team members about each Participant's progress or non-compliance in the Program.

CASE MANAGER -

The DUI Court Case Manager is responsible for ensuring that each Participant is fully informed of all rules, regulations, and policies of the Program as well as monitoring each Participant's progress throughout the Program. The Case Manager also schedules and distributes the DUI Court calendar to the DUI Court Team and is the "central clearinghouse" for all other information and communication, both for the staff and the Participants. The Case Manager maintains records of Participants' residence, employment, payments, and other information and manages and updates all Participant files and can administer drug and alcohol screens. Other responsibilities of the Case Manager includes assisting Participants in finding ancillary services in the community, updating their resumes, assisting in obtaining information regarding their license suspensions and informing them of phase movements and reviewing the requirements of their treatment plans with them.

COST OF THE PROGRAM

As a condition of attendance in the Program, you are required to pay Program fees. Accordingly, seeking and maintaining employment is a condition of your participation. Inability of a participant to work will be addressed on a case-by-case basis. There is a one-time fee of \$50.00 for the initial assessment. Additionally, you will be charged \$50.00 per week while in phases 1 through 4 and \$25 a month while in phase 5. Should you test positive for alcohol or drugs, request to go out of town or miss a drug screen, there are additional costs that will be charged to you. Failure to keep your balance current may subject you to weekly community service, suspension from Program or termination.

COURT STATUS REVIEW HEARINGS

As a participant in the Program you are required to attend court status review hearings every two to four weeks (Phase 1, 2 and 3 attend every two weeks and Phase 4 and 5 attend every four weeks if they are in compliance). The Judge will review your progress in the Program with the Program's staff and will determine what rewards, sanctions or adjustments may be appropriate. Your failure to attend these Court sessions will result in sanctions unless prior permission was granted by the Court.

At these court status review hearings, you are encouraged to ask the Judge any questions and voice any concerns they may have. You will also be given, on a monthly basis, a calendar showing when you are required to appear in court and the weekly treatment group session dates and times. It is your responsibility to keep track of your court and treatment dates.

TREATMENT

Each participant who is accepted into the Program will be required to attend treatment sessions located at the D.U.I. Court Treatment Facility at 3630 Camp Circle, Suite 101, Decatur, Georgia 30032. The treatment program is a fifteen (15) month program offered in five (5) Phases, with a **minimum** of 12 weeks per Phase, to ensure a continuum of care, recovery, rehabilitation and reintegration into the community. These phases supply varying degrees of direct supervision and drug screening. Participants will be expected to attend drug screening, treatment group sessions, individual counseling sessions (as needed), court status review hearings, and recovery support meetings. Depending on the Phase, the participant is required to be in attendance on the following days and times for treatment group sessions:

DAY PROGRAM

Phase 1 - Mon., Tues., & Thurs. from 11:00 am to 12:30 pm

Phase 2 - Tues. & Thurs. from 11:00 am to 12:30 pm

Phase 3 - Wed. from 11:00 am to 12:30 pm

Phase 4 - Wed. from 11:00 am to 12:30 pm

Phase 5 - Mon. from 11:00 am to 12:30 pm (one per month as scheduled)

EVENING PROGRAM

Phase 1 - Mon., Tues., & Thurs. from 6:00 pm to 7:30 pm

Phase 2 - Tues. & Thurs. from 6:00 pm to 7:30 pm

Phase 3 - Wed. from 5:30 pm to 7:00 pm

Phase 4 - Wed. from 5:30 pm to 7:00 pm

Phase 5 - Mon. from 6:00 pm to 7:00 (one per month as scheduled)

The services are organized based on levels of need as follows:

Phase	Title	Treatment Focus	Time
Phase 1	Orientation & Education	Pre-Contemplation	Min. 12 Weeks
Phase 2	Education and Treatment	Contemplation Stage of Change	Min. 12 Weeks
Phase 3	Treatment	Continued Stages of Change - PCP - Maintenance	Min. 12 Weeks
Phase 4	Treatment	Relapse Prevention - Focus on Maintenance Stage of Change	Min. 12 Weeks
Phase 5	Aftercare	Maintaining Sobriety	Min. 12 Weeks

As you successfully move through the Program, the intensity of these requirements will lessen and expectations for increased accountability in everyday life increases.

PHASE REQUIREMENTS

Phase 1 - 4:

Minimum of 3 observed random alcohol and urine drug screens per week.

Attend court status review hearings 2 times per month.

Report to Probation Officer during court status review hearings. Should you have changes in your life such as address, telephone number(s), roommates, employment, etc., you need to inform your Probation Officer and Treatment Coordinator/staff immediately.

Attend a minimum of 3 formal support group meetings (AA/NA/CA) per week with written verification on the slip provided to you by the Treatment office. Slips must be turned in before the deadline in order to receive credit for the meeting. You are also required to obtain a formal Support Group Sponsor.

Random home visits by Probation Officer.

Make regular weekly payments (bi-weekly or monthly if arrangements are made with the Program Director) toward treatment costs.

Must have 90 consecutive days of sobriety, a Support Sponsor, and be current in treatment costs to move to next Phase.

Receive credit of 40 hours of community service for successful completion of each Phase.

Phase 5:

(Check-In / After Care)

Minimum of 2 observed random alcohol and urine drug screens per month.

Attend a minimum of 1 treatment group session per month.

Attend court status review hearings once per month.

Report to Probation Officer during court status review hearings. Should you have changes in your life such as address, telephone number(s), roommates, employment, etc., you need to inform your probation Officer and Treatment Coordinator/Staff immediately.

Attend a minimum of 1 formal support group meeting (AA/NA/CA) per week with written verification.

Random home visits by Probation Officer.

Make monthly payments of \$25.

You must maintain 90 consecutive days of sobriety, a Support Sponsor, and be current in treatment costs to graduate.

You will receive credit for 80 hours of community service for completion of Phase 5.

In addition to all of the requirements above, individual counseling, additional curriculum and education may be recommended.

PARTICIPANT'S PROBATION REPORT DAYS

After the initial report date to the DeKalb County Probation Officer, you will be instructed to report to your D.U.I. Court Probation Officer. Reports can be conducted after a Court Status Review Hearing, at the Treatment office or at any time the participant is requested to report. If there are any changes in your life such as address, roommates, employment, etc., you must inform your D.U.I. Court Probation Officer immediately.

EMPLOYMENT AND/OR SCHOOL

The judge may require you to obtain/maintain employment or enroll in a vocational/educational program. If you lose your job while in the Program, you will be given a time frame in order to secure another job. While searching for employment, you may be required to participate in job training or community service.

Program staff may verify employment through phone contact with the employer or copies of paycheck stubs. The D.U.I. Court Program strongly encourages you to notify your employer of your participation in this Program, including required court appearances and group sessions.

TREATMENT FACILITY

All D.U.I. Court activities and locations may be viewed as an extension of the DeKalb County State Court. Your behavior should reflect that understanding at all times. This includes treatment facility, community service sites, special events, and any other functions associated with the Program. Violation of Program rules can result in sanctions and/or new criminal charges. All staff members of the Program are to be considered as officers of the Court, and you are expected to follow their instructions.

1. No alcohol, drugs, weapons, or pocket knives will be brought to the above mentioned locations.
2. Groups will begin on time! The participants must be punctual as tardiness will result in sanctions. Participants must attend and participate in the full session to receive credit.
3. Confidentiality is a must. This ensures an opportunity for continued open discussions and sharing in group. What is said in Group stays in Group!!
4. Free expression of the participant's thoughts and feelings is encouraged; however, violence, threats or intimidation will not be tolerated. Use of profanity is not acceptable.
5. Leaving a group session is not permitted unless given permission by a Staff member.
6. Cell phones must be turned off completely while in group sessions and court status review hearings. They will be confiscated if they go off.
7. Clothing worn by participants cannot be sleeveless, revealing or provocative or expose the shoulders or midriff. Clothing cannot display obscene language or advertise alcohol or tobacco products. Shorts and skirts must not be shorter than 2 inches above the knee.
8. No visitors are allowed in the Treatment Facility. The participant will be notified of scheduled exceptions to this rule. This includes children.
9. An intimate relationship between a participant and another Program participant, or a staff member and a participant is prohibited.
10. Smoking is not permitted outside the Treatment Facility's front doors. Participants must walk up to the Camp Road sidewalk to smoke.
11. No littering in the Treatment Facility or outside the building. Participants must be responsible for assisting in maintaining the cleanliness of the building.
12. Destroying or defacing property will lead to sanctions and possible criminal charges.

PROGRAM GUIDELINES

Honesty is a core component of the DeKalb County DUI Court Supervised Treatment Program. Dishonesty will only impede your recovery and hold back progression through the Court. It is your responsibility to disclose any violation of the terms of this Program to the Treatment Coordinator, Probation Officer, or the DUI Court Coordinator. Dishonesty of any form: lying, tampering with or adulterating drug screens, presenting fraudulent documents, etc. will not be tolerated and will subject you to substantial sanctions. Defrauding or lying may lead to your termination from the DUI Court and/or substantial confinement time. Honesty is essential to successful participation in the Program.

BEHAVIOR & DRESS CODE

Attendance in Court is a critical and mandatory condition of participation in the DUI Court Program. Status Conference sessions are held in Court every other week. A schedule will be provided to you upon your acceptance into the program and will be posted in the common area of the Treatment office. It is your responsibility to know the dates of the Court sessions. You must be on time, being late will subject you to a sanction from the court. Changes in the schedule will be announced on the screen line and will be posted in the common area of the Treatment facility.

Your behavior should reflect positively on you and the DUI Court Program. This means NO loitering in the front of the courthouse or treatment office before or after DUI Court events. Your attire should NOT include the following:

shorts, sleeveless shirts/dresses, tank tops, halter tops, low cut tops that reveal cleavage, hats, see-through clothing, sunglasses, tight clothing, flip-flops, bedroom shoes, excessively baggy clothing, or clothing with holes or derogative messages (including clothing that displays alcohol/drug slogans or ads).

Loud and disruptive behavior is unacceptable. Participants should not read, sleep, or use electronic devices in the Courtroom (or during any group session or self-help meeting). No food, drink, pagers, cell phones, electronic devices or other distracting items should be used in the courtroom. When addressed by the Judge, you should respond by speaking clearly and directly. You should always remain until dismissed.

FRATERNIZATION

Early recovery is full of pitfalls and relapse triggers. One pitfall that we can easily avoid is "pairing off" or fraternization. Pairing off occurs when two people in recovery spend too much time together and/or become romantically involved. When this happens, the parties involved tend to confuse feelings of fear or vulnerability with feelings of intimacy. This tends to shift their focus away from their recovery and greatly reduces their change of success in recovery. Early recovery is a period of profound personal change and self-discovery. Pairing off includes, but is not limited to the following:

1. Suggestive or flirtatious remarks.
2. Physical contact, such as holding hands, hugging, kissing or inappropriate touching.
3. Letter-writing, note-writing, texting or emailing.
4. Physical isolation by a couple from the group or from peers.
5. Consistently sitting together or being together at scheduled or unscheduled events.
6. Exchanging gifts or personal items.
7. Establishing a relationship with other participant's family or friends.

If it is observed that a couple is pairing-off, they will be counseled to discontinue any such relationship until an appropriate time. If they continue to pair off, the matter will be discussed with the treatment team and sanctions (which may include termination) may be imposed by the court.

GROUP RULES

Participation is crucial to recovery. Be aware that you influence other members and can either be a positive or negative force in their process. Due to the importance of this, being consistently disrespectful and distracting in group will lead to sanctions.

1. Maintain the confidentiality of everyone in the Group. This cannot be emphasized enough.
2. Do not get up to leave until excused by the Treatment Counselor.
3. Always be respectful and attentive to peers.
4. Speak one at a time and listen when peers are sharing. Do NOT have side conversations or cross talking.
5. Threats or intimidation at any level will not be tolerated.
6. Do not get up during Group. Use the restroom prior to Group or at break. It is disruptive to the Group process and disrespectful to get up while someone else is sharing.
7. Maintain eye contact.
8. All cell phones must be turned off at the beginning of all sessions. They will be confiscated by the staff if they ring/beep/vibrate during Group. If you are noticed using a cell phone during a group session, you will be sanctioned at the next status hearing.
9. Appropriate attire and hygiene is required at all times.
10. Use "I" language when talking or referring to yourself. When talking to someone else say "you" or his/her name.
11. Keep nothing in your hands or lap during the Group (an exception is lecture materials or items related to the session).

SELF-HELP/GROUP SUPPORT MEETINGS

Peer Support Groups/Self Help meetings are designed to help you learn about the recovery process and the build your recovery network and is a mandatory part of the program. Recovery Support Groups are crucial as a non-professional community support system to help you maintain sobriety and often is used throughout a recovering person's life and will be a part of every Treatment Plan.

In order to receive credit you must use the meeting slip provided by the treatment office, log it in as instructed and place the completed form in the appropriate box. You are required to turn in three Self Help Meetings per week (unless otherwise ordered by the court). The week starts on Saturday and ends the following Friday. Only Friday meetings will be accepted past the deadline and must be turned in before the close of business on the following Monday. If a holiday occurs and affects the schedule, an announcement will be posted instructing the participant of the deadline for that particular time period. It is your responsibility to make sure you attend the required number of meetings and turn them in. Any rejected meetings must be made up within a given time period. If a participant fails to make up the rejected meeting by the given time period or if they fail to turn in or attend the required number of meetings they will face a sanction from the court.

Self Help meetings are designed to help build an additional support system outside of treatment and the judicial process to help individuals succeed once they graduate from the program. If any participant is found to be altering signatures or providing false signatures from meetings they did not attend a sanction will be given to them that could result in additional Self Help meeting each week, jail time or even termination from this program. Self Help meetings are for the individuals benefit and should be used to create an additional group of people that support that individual and his/her sobriety.

ASSIGNMENTS

You will receive a variety of written assignments while in treatment. Our expectation is that you will apply yourself to the best of your ability. The assignments that you turn in will reflect how well you are progressing. The assignments are an integral part of the treatment process and allow you to do a self-reflection on your recovery and will help you to determine how to plan for a sober lifestyle. Any assignments that are found copied or plagiarized will not be accepted and you, the offender, could face a sanction and/or termination from the program.

One assignment is for you to write a letter to your assigned D.U.I. Court Judge prior to every court status review hearing. This letter may contain anything about you and/or your life while in the Program, or about your recovery from alcohol and drugs. It is in these letters that you may ask the Judge questions or make comments. The letters are to be delivered to the assigned Judge's box before the deadline.

TRAVEL REQUESTS

Requests to travel for business or leisure must be in writing and must be made no later than 30 days in advance of requested time off. This written request is to be given to the Treatment Coordinator. You must provide the exact dates and time of travel, mode of transportation, lodging name, address and telephone number. Once this information is received by the Treatment Coordinator, the travel request must then be approved by the Judge and D.U.I. Court Team before leaving on the trip.

If the request to travel is for a 3-day weekend, you must provide an alcohol/drug screen before your departure at the Treatment Facility and upon your return. If the travel request is for more than a 3-day weekend, you will be required to provide an alcohol/drug screen while out of town at an approved collection site near your place of lodging. An out of town alcohol/drug screen will incur an additional charge of \$49 for each screen that is required.

In the event of a sudden illness or death of an immediate family member (spouse, children, grandchildren, siblings, parents and grandparents), you will proceed as needed. You must contact the Treatment Coordinator by phone to advise her of the situation and be prepared to provide proof of the emergency or death of family member upon your return to treatment and must keep the Treatment Coordinator updated on the situation.

PROGRAM BENEFITS

Upon successful completion of the Program you will receive;

- reduced jail sentence (does **NOT** include charge dismissal)
- suspension of half of the fine amount
- 240 hours of community service credit
- suspension of the probation supervision fee
- if eligible, a Certificate of Eligibility for an Ignition Interlock Limited Driving Permit
- if eligible/required, a Multiple DUI Offender Program Certificate

In addition to all of the benefits above, it is the hope of the Program's Team members that you use the tools and resources that the Program has provided to continue with your recovery and maintain their sobriety.

DRUG SCREENS

As a participant in D.U.I. Court Program you are expected to submit to random observed alcohol/drug urine screens and breath tests. Alcohol/drug testing is performed on a random basis through a computer software program; however, a breath or urine specimen may be required at any time. You must be punctual and prepared to submit a valid urine specimen or breath test during the specified screening hours posted daily on the drug screening line. Late arrivals will not be allowed to test. Urine testing will always be witnessed by a trained staff member of the same sex when the sample is being given. Only monitored urine collection will be accepted. Drug and alcohol tests may be collected anytime, including evenings and weekends. Missing a drug or alcohol test or failure to submit a specimen will be considered a positive screen which is subject to a sanction.

Upon the first day of treatment each participant is assigned a screening color and will be required to call the Drug Screening Information Line on a daily basis (every day for the entire length of the program) and report to submit a valid sample as instructed.

If an initial drug screen is positive the Treatment Coordinator is notified and will address the issue with the participant. If the participant disputes the initial results the specimen will be sent to Quest Diagnostics, or another SAMSHA certified lab, for a confirmation test. Should the confirmation from said SAMSHA lab, come back positive or abnormal, the participant will incur an additional fee of either \$20 or \$30 for that confirmed screen. Tampering with or diluting a drug screen will also result in a sanction and may be grounds for termination from the Program.

DRUG TESTING POLICIES AND PROCEDURES

The DUI Court Program is an alcohol/drug abstinent program. All participants should remain abstinent from all mood-altering substances throughout the course of their time with the DUI Court Program, including their time after graduation and while on probation.

Participants may not be able to stop using drugs immediately and recovery may not occur overnight. However, all use of illegal or unapproved drugs is a violation of the DUI Court Program requirements and will result in a sanction from the court. This is not intended as punishment but to encourage sobriety. Thus, the ultimate goal of drug testing is to provide accountability and confirmation of an individual's progress towards recovery. Admitting to using drugs or ingesting alcohol prior to the drug screen will be taken in consideration during the sanctioning process. On the other hand, not admitting to, and/or denying new use may result in a more severe sanction

Participants are assigned a drug screening color upon entering the program. It is the responsibility of the participant to call the drug screen line each day and report as

instructed to provide a valid urine sample. Drug testing is performed on a random basis; however, a breath or urine specimen may be required at any time. Participants must be prepared to submit a valid specimen during the specified hours. Late arrivals will not be allowed to test and failure to submit a valid specimen will be considered a positive screen, which will result in a sanction from the court. A staff member of the same sex will always witness the sample being given.

Urine Drug Screens are mandatory. In addition to the random screens that are announced on the drug screen line, a participant may also be required to submit to a drug screen by any member of the DUI Court Team, i.e. Judge, Probation Officer, Treatment Coordinator, Program Coordinator, Counselor or Prosecutor. Failure to appear for a drug test, refusal to submit, tampering or diluting the specimen is a violation of the Program and will result in a sanction hearing or possible termination from the DUI Court Program.

You will be required to appear when your color, name, phase and/or gender is called. If you miss a drug screen or are unable to provide a specimen, the treatment coordinator will be contacted and will advise you to call the screen line that night for further instructions. The Treatment Coordinator will notify the Probation Officer with this information as well as the Judge and the DUI Court Team. The Probation Officer may visit you at home or elsewhere for you to provide an alcohol/drug to screen and to conduct a home/work place visit. This information will be addressed by the Court and the violation will result in a sanction from the court.

You must provide a testable sample, one that is not “diluted” or “tampered with.” “Diluted” urine tests are classified as those tests having a reading indicating a urine creatinine level of less than 20 mg/dL (Creatinine is the substance in urine resulting from muscle breakdown). In a diluted urine sample, it is possible that drugs may still be present in the urine but be below the cut-off level of the drug assay. A “tampered” sample is one where the urine is in a condition that is not testable due to intentional interference or other chemical reaction. Presenting a sample that is either diluted or tampered with is a violation of the Program requirements and will result in a sanction from the court. Any attempt to provide urine that is not the participant’s urine is a serious offense that may result in significant sanctions or dismissal from the program.

Upon the request for a drug screen:

- You indicate either a denial or admission to alcohol and/or drug use. Honesty is a crucial component for recovery and participation in the DeKalb County DUI Court. The Court may favorably consider self-disclosure-of-use a mitigating circumstance when sanctions are imposed.
- The only people allowed in the testing area at the time of administration of the test are the participant and the individual overseeing the collection of the sample.

- A sample is to be submitted by the cut-off time or within a reasonable time if called to screen outside of the normal screening window. Failure to produce a sample will result in a sanction hearing.
- Purses, coats, bags, etc. are not allowed in the testing area and must be left in a designated area.
- Shirtsleeves should be rolled up to the elbow and a request to remove any additional clothing items may be made to ensure the validity of a specimen.
- The test cup must be filled to a minimum of 1/3 level to be adequate for testing.
- Collection of urine sample will be observed. In the event a drug screen cannot be observed, a temperature strip will be used to ensure sample integrity. If a urine sample does not provide an acceptable reading on the temperature strip, the participant will be required to provide a valid sample before leaving the collection site. You must empty all pockets, lift pant legs to show that no items are concealed in the socks or shoes, and must leave all belongings in a designated location prior to entering screening area.
- Use of an artificial device or substance of any type to alter the test will result in significant sanctions which may include termination from the program.
- If you deny use or altering the specimen, the DUI Court Program will then send the specimen to a Certified Laboratory for confirmation. If you fail to appear for your drug screen on that day, you will incur a \$20 charge for that missed screen and said missed screen will result in a sanction hearing.

Failure to comply with any of the above guidelines or refusing to provide a urine sample is considered a violation of the Program requirements and will result in a sanction from the court.

The initial drug screen is analyzed within 24 hours. If the result is positive the Treatment Coordinator will notify you. If you deny any alcohol/drug use, the specimen will be sent to a SAMHSA certified laboratory for a confirmation test (GC-MS or LC-MS), and should the confirmation come back positive, you will incur an additional fee of \$20-\$30 for the confirmation. A confirmed result for Ethylgucuronide (EtG) and Ethylsulfate (EtS) on a specimen is consistent with the conclusion that alcohol was present and a sanction will be imposed (the sanction hearing will be conducted at the next DUI Court calendar, or sooner if the need arises). A confirmed result with EtG above 500 ng/mL is also considered a positive result. Tests that are positive, elevated or diluted will delay eligibility for phase progression or graduation. If you, the Participant, dispute the results after the confirmation of the screen you may request a hearing and have the right to have counsel present.

OBSERVED URINE SCREEN PROCEDURES

1. You must show your picture ID upon arrival of a drug screen.
2. A custody and control form is provided for you to read and verify that it contains your name and correct date of birth. Upon confirmation that you have received the correct form you are to initial all bar code labels and seals at the bottom of the form (DO NOT SIGN).
3. You must remove all outerwear (i.e. jackets, scarves, sweaters, etc.) and leave all personal items in a designated place outside of the screening area. You will be observed by staff members of the same sex ONLY. If not available, you will be required to empty all pockets, remove access clothing, and roll up pant legs.
4. You will remove 1 bar code label and 1 seal (you may place them on your clothing for placement on the specimen cup after the specimen is provided) and proceed into the screening area.
5. You must remove all bandages and wash your hands with soap. Hands must be thoroughly dried and paper towel discarded. An additional paper towel is to be placed on the counter or observation window.
6. The Screener (a trained staff member of the same sex) will then provide you with a sealed collection container through the observation window.
7. Before providing the specimen:
Men must lower their clothing exposing genitals; stand in the designated area; unseal the collection cup; and with one hand holding the collection cup provide their specimen (the other hand must be placed on the wall or held away from the stream). Collection container must then be filled a minimum of 1/3 of the container in order to gather a correct temperature reading.
Women must pull up long shirts; lower bottoms below the knees; squat (DO NOT SIT); unseal the collection cup; place one hand on the bar and the other holding the open cup. The collection must be caught in front of the body and the body facing the observation window leaving the genitalia area visible. Collection cup must then be filled a minimum of 1/3 of the container in order to gather a correct temperature reading.
8. Once the collection is complete, you will close and secure your collection cup by placing the bar code label on the side of the collection cup and the seal across the top of the lid to prevent tampering. The collection cup is then placed in the observation window for the screener to collect and place in a secure area.
9. Flush the toilet, wash your hands, leave the screening area and return to the screener to complete your custody and control form. At this time you will have an opportunity to disclose any alcohol/drug use and sign the Custody and Control form consenting to the collection and testing of the urine specimen.

MEDICATION

As a condition of admission to the Program, you must agree to disclose to the Treatment Coordinator the name, address and telephone number(s) of your current physician or health care provider. You will be required to sign a medical information release form authorizing your physician and/or healthcare provider to disclose any and all medical information to the Treatment Coordinator. *No drugs of any kind, prescription or non-prescription, poppy seeds or foods containing poppy seeds, any dietary and herbal supplement or performance enhancement drugs (to include any and all energy drinks), or any vapor or electronic cigarettes, are to be taken or used without physician approval or without prior notice to the Treatment Coordinator.* You will be provided a "Safe Medications In Recovery" document showing what you can use while in this Program which, if followed, will prevent you from testing positive for drugs or alcohol. If you wish to use something that is not on that document, you are to contact the Treatment Coordinator prior to using. It is your responsibility to read the labels and know what is in the products you consume.

Certain medications required to treat mental health issues may be considered, if needed. In order to take these medications you must have completed a psychiatric assessment/evaluation by a qualified physician (psychologist/psychiatrist) within the past six months and provide a copy of this evaluation and explanation of diagnosis to the DUI Court Treatment Coordinator. All participants are required to provide a signed Release of Information to the Treatment Coordinator from the prescribing physician.

In the Participant handbook is a list of prohibited substances and a list of medications that can be taken without prior approval. These lists are only a guide and not meant to be all-inclusive. If you should have any concerns, you should contact the Treatment Coordinator before taking medications of any kind.

FOURTH AMENDMENT WAIVER

All participants must, at any time, without warning, probable cause, articulable suspicion or a search warrant, provide a sample of blood, breath, urine, saliva or other bodily substance and submit to searches of their residence, workplace, vehicle, containers, records, and all other locations and items when requested to do so by any law enforcement office, probation or parole officer, or DUI Court staff.

TERMINATION

The DUI Court Program is committed to providing all Participants with an opportunity to become alcohol and drug free. However, your continued participation in the Program is contingent on compliance with Program guidelines and regulations. Non-compliance includes, but is not limited to:

1. Inability to remain clean and sober;
2. Failure to attend and participate in individual and group sessions;
3. Threats or violence against peers or Program staff;
4. Altering or tampering with drug screens;
5. Committing a new criminal offense;
6. An accumulation of Program violations;
7. Failure to pay Program fees;
8. Continued non-compliance with Program guidelines.
9. Any form of sexual harassment towards another Program Participant or staff member.
10. Fraternalization with another Participant or staff member.
11. Bad attitude impacting other Participants.
12. Forging of documents.

We want each and every participant to succeed, and we only consider termination as a last resort. The goal is to help each participant help themselves. Nevertheless, not everyone who enters the DeKalb County DUI Court is committed to maintaining sobriety and compliance with Program conditions. The Team may determine that the removal of a person for non-compliance is the most appropriate action for the success of all other participants.

COMMENCEMENT

You are eligible for commencement/graduation when each one of the following conditions has been met:

- Spent a minimum of 60 weeks in the Program (it may be up to 24 months).
- Demonstrated sobriety for at least 90 days.
- Completed all Program and Phase requirements and the team has determined that you are suitable for graduation.

It is the DUI Court Team member's hope that you will have established a sober, healthy, and a productive lifestyle. Remember, your recovery is an ongoing process. At this point in your treatment, you will have made a very strong beginning to this lifelong endeavor. We invite you to continue as alumnus of the Program and be a mentor to new participants. You may be pleasantly surprised and rewarded by the significant influence you may play in helping others overcome their addiction problems. This is a way for you to maintain contact with us and remember what it was like for you when you first entered the Program.

DeKalb County D.U.I. Court Supervised Treatment Program

MEDICATION GUIDE

Medication Guide 2012

DeKalb County State Court
Decatur, Georgia

**WELCOME TO THE DEKALB COUNTY
D.U.I. COURT SUPERVISED TREATMENT PROGRAM.**

This 2012 Medication Guide was developed as a collaborative effort by Becky Pirouz, Pharm.D., Director of Pharmacy, Peachford Hospital, and by Lois Michalove, Treatment Coordinator for the DeKalb County D.U.I. Court Supervised Treatment Program, both of whom have extensive experience in addiction recovery and treatment.

The following information is intended to assist you in making decisions about medications. This may include those medications that you are prescribed and/or your selection of over-the-counter (OTC) products. Unintended exposure may compromise your treatment program. This is not an exhaustive list, but contains some of the medications that are most commonly used. If in doubt, always consult the Treatment Coordinator. Please inform your physician, dentist, pharmacist and other health care professionals that you are in a recovery program.

**WE ARE A ZERO-TOLERANCE PROGRAM!
DO NOT COMPROMISE YOUR RECOVERY BY MAKING HIGH-RISK CHOICES!**

- Section 1 – **Drugs To Avoid**

The following drugs must not be used at any time. They are well known to be abused and even small amounts may result in relapse and are contraindicated in your treatment program. However, extenuating circumstances may occur which necessitates the short-term limited use of some of the drugs on this list in consultation with your physician, the Judge and the Treatment Coordinator. This decision should be made prior to your ingestion of any of the *Drugs to Avoid*.

ALCOHOL & ALCOHOL CONTAINING PRODUCTS:

Ales
Beers (including Non-Alcoholic forms)
Liqueurs
Malt Beverages
Whiskey
Wine (including Non-Alcoholic forms)
Wine Cooler

Note that many liquid cough / cold preparations, vitamin preparations and other liquid OTC and prescription medications may contain alcohol – use the tablet forms. Additionally, some topical products, soft-gels and capsules may contain alcohol and should be avoided.

COUGH & COLD PREPARATIONS:

The below list contains some common products, but it is not an exhaustive list.

Hydrocodone Combo Products:

Duratuss
Hycodan Tabs
Hycodan Syrup
Hycomine
Hycotuss
Hydromet
Tussionex
VicoTuss

Codeine Combo Products:

Ambenyl
Guiatuss
Mytussin Nucofed
Phenergan w/Codeine
Robitussin AC

Dextromethorphan:

Contac
Comtrex
Delsym
Mucinex DM
Nyquil
Robitussin DM
Vicks Formula 44D

Any preparations containing narcotics (such as Codeine, Hydrocodone and/or Dextromethorphan) should not be used. Additionally, any liquid preparation may contain alcohol. READ LABELS and ASK YOUR PHARMACIST!

DRUGS FOR PAIN:

Opiates / Opiate Like:

Buprenorphine (*Subutex, Buprenex*)
Buprenorphine / Naloxone (*Suboxone*)
Butorphanol (*Stadol*)
Codeine (*Tylenol w/Codeine, Fiorinal w/Codeine, ASA w/Codeine*)
Fentanyl (*Duragesic Patch, Innovar Injection, Actiq Lozenge, Fentanyl Nasal Spray, Sublimaze*)
Hydrocodone & Combinations (*Lorcet, Lortab, Norco, Tussionex, Synalgos, Synalgos DC, Hycodan Syrup*)
Hydromorphone (*Dilaudid*)
Heroin (*Smack, Junk, Horse*)
Levorphanol (*Levo-Dromoran is injection only.*)
Meperidine (*Demerol, Mepergan Fortis*)
Methadone (*Dolophine*)
Morphine (*MS Contin, Kadian, Roxanol, various*)
Nalbuphine (*Nubain*)
Oxycodone & Combinations (*Oxycontin, Percocet, Roxicodone, Oxy IR, Percodan, Tylox, Roxicet*)
Paregoric
Pentazocine & Combinations (*Talwin, Talacen*)
Tincture of Opium

Miscellaneous / Muscle Relaxants / Other:

Carisoprodol (*Soma, Soma Compound*)
Chlorzoxazone (*Parafon Forte*)
Cyclobenzaprine (*Flexeril*)
Diphenoxylate / Atropine (*Lomotil*)
Methocarbamol (*Robaxin, Robaxisal*)
Orphenadrine (*Norflex, Norgesic*)
Pregabalin (*Lyrica*)
Tramadol (*Ultram*)

All propoxyphene and preparations (Darvon, Darvocet, Dolene) have been removed from United States markets, but are still available in some foreign countries.

SLEEP AIDS & TRANQUILIZERS:

Benzodiazepines:

Alprazolam (*Xanax*)
Clonazepam (*Klonopin*) – May be used for seizure disorders – must be approved by the Treatment Coordinator.

SLEEP AIDS & TRANQUILIZERS – cont’d:

Clorazepate (*Tranxene*)
Diazepam (*Valium*) Estazolam (*Prosom*) **
Flurazepam (*Dalmane*)
Halazepam (*Paxipam*) **
Lorazepam (*Ativan*)
Midazolam (*Versed*)
Oxazepam (*Serax*)
Quazepam (*Doral*)
Temazepam (*Restoril*)
Triazolam (*Halcion*)

**** Estazolam (*Prosom*)
and Halazepam (*Paxipam*)
are marketed outside of the
United States.**

Barbiturates - Oral:

Amobarbital / Secobarbital (*Tuinal, AMAS Trees, Rainbows*)
Butobarbital (*Butisol*)
Butalbital (One of the combination ingredients in *Fiorinal, Fioricet, Endolor, Cephadyn, Esgic, Esgic Plus, Donnatal* and others.)
Mephobarbital (*Mebaral*)
Pentobarbital (*Nembutal, Yellow Jackets, Cafatine* – PB is combo drug)
Phenobarbital (*Luminal, Blue Heavens*, various trade names. Phenobarbital is also contained in *Donnatal*.)

Barbiturates – Injectable:

Amobarbital (*Amytal*)
Methohexital (*Brevital*)
Pentobarbital (*Nembutal*)
Thiopental (*Pentothal*)

Miscellaneous:

Chloral Hydrate (*Noctec, Somnote*)
Eszopiclone (*Lunesta*)
Meprobamate (*Miltown, Equanil*)
Zaleplon (*Sonata*)
Zolpidem (*Ambien*)

STIMULANTS:

Amphetamine:

Benzphetamine (*Didrex*)
Dextroamphetamine (*Dexedrine, Dexies, Hearts*)
Lisdexamfetamine (*Vyvanse*)
Methamphetamine (*Desoxyn*)
Mixed Amphetamine Salts (*Adderall, Adderall XR*)

Non-Amphetamine:

Cocaine

Diethylpropion (*Tenuate*)

Fenfluramine (*Pondimin*) - - No longer available in the United States.

Methylphenidate (*Ritalin, Methylin, Metadate*)

Methylphenidate ER (*Concerta, Metadate, Ritalin SR, Daytrana, Methylin SR*)

Phendimetrazine (*Melfiat, Phenazine, Prelu-2, Bontril*)

Phenmetrazine (*Preludin*) - - Not available in the United States.

Phentermine (*Ionamin, Fastin, Adipex*)

HALLUCINOGENS:

5-MeO-DIPT (*Foxy Methoxy*)

Bath Salts

Cannabis (*Grass, Marijuana, Pot, Weed*)

DMT (*Dimethyltryptamine*)

Ketamine (*Special K*)

LSD (*Acid, Blotter, Window Pane, Paper, Sunshine*)

Marinol (*Dronabinol*) - May be used medicinally, but must be approved by Treatment Coordinator.

MDMA (*E, Eckies, Ecstasy, Love Drug*)

Mescaline (*Peyote*)

PCP (*Angel Dust, Phencyclidine*)

Psilocybin (*Magic Mushroom, "Shrooms"*)

Spice

STP (*DOM*)

INHALANTS:

Acetone (*Nail polish remover*)

Aerosols

Airplane Glue

Amyl Nitrate (*Poppers*)

Butyl Nitrate

Gases (*Ether, Chloroform, Nitrous Oxide, Butane, Propane, whipped cream dispensers*)

Paint (*Butane, Toluene, Propane*)

Solvent (*Paint Thinner, Gasoline, Glue, Correction Fluid, Felt Tip Marker*)

Varnish (*Xylene, Toluene*)

PERSONAL HYGIENE:

Hand Sanitizers (unless alcohol free)

Do not use any product with Ethyl Alcohol listed as an ingredient. READ LABELS!

OTHER SUBSTANCES TO AVOID:

Bisques & Soups with added liqueurs
Cooking Wines / Marinades (Marsala, Sherry, Wine Vinegar, some BBQ Sauces)
Crème de Cacao
Crème de Menthe (Grasshopper pie)
Energy Drinks (All brands and types)
Extracts (Vanilla & other flavorings)
Flambeed Meat or Dessert
Grand Marnier (In mousses and other desserts)
Kahlua
Performance Enhancement Herbal Products
Poppyseeds (Bagels, cakes)
Vaping Products or e-Cigarettes
GNC Products

Even after cooking, foods may retain varying amounts of alcohol. Check all ingredients and ask before ingesting.

- Section 2 -
Safe Medications
In Addiction Recovery

The drugs in this section are generally considered safe to take when in addiction recovery programs. However, use of any medications, including those prescribed by a physician as well as over-the-counter (OTC) drugs, can result in untoward effects. Some of the drugs on this list may result in a false positive urine drug screen. If in doubt, check with your Treatment Coordinator. Always inform your Treatment Coordinator if you are taking any drugs on this list.

It is a reality of addiction that it is easy to change from one “favorite” substance to another substance. Treatment program goals will help you be more aware of your tendency to want to manipulate your mood. If the necessity of utilization of medications occurs, you must be vigilant in informing your physician that you are recovering and keeping your Treatment Coordinator aware of your medications. This list is intended to assist you in selecting medications that will not negatively impact your treatment and recovery.

Do not use any medication, vitamin, herbal or topical liquid / lotion that has alcohol as an ingredient, or states that the medication may be habit-forming.

ADDICTION
TREATMENTS:

Acamprosate (*Campral*)
Bupropion (*Zyban*)
Clonidine (*Catapres*)
Disulfiram (*Antabuse*)
Naltrexone (*Revia*)
Naltrexone (*Vivitrol*)
Varenicline (*Chantix*)

ADHD / ADD:

Atomoxetine
(*Strattera*)
Clonidine (*Catapres*)

ALZHEIMERS /
DEMENTIA:

Donepezil (*Aricept*)
Galantamine
(*Razadyne*)
Memantine
(*Namenda*)
Rivastigmine
(*Exelon*)

ANTIBIOTICS / ANTIVIRALS / DRUGS FOR INFECTIONS - Oral:

Acyclovir (<i>Zovirax</i>)	Ciprofloxacin (<i>Cipro</i>)	Loracarbef (<i>Lorabid</i>)
Amoxicillin (<i>Amoxil</i>)	Clarithromycin	Metronidazole
Amoxicillin / Clavulanate (<i>Augmentin</i>)	(<i>Biaxin</i>)	(<i>Flagyl</i>)
Azithromycin (<i>Zithromax</i>)	Clindamycin (<i>Cleocin</i>)	Minocycline (<i>Minocin</i>)
Cefaclor (<i>Ceclor</i>)	Doxycycline (<i>Doryx</i>)	Moxifloxacin (<i>Avelox</i>)
Cefadroxil (<i>Duricef</i>)	Doxycycline	Nitrofurantoin
Cefdinir (<i>Omnicef</i>)	(<i>Vibramycin</i>)	(<i>Macrobid</i>)
Cefpodoxime (<i>Vantin</i>)	Erythromycin (<i>E-</i>	Oseltamavir (<i>Tamiflu</i>)
Cefprozil (<i>Cefzil</i>)	<i>Mycin</i>)	Penicillin (<i>Pen VK</i>)
Cefuroxime (<i>Ceftin</i>)	Fluconazole (<i>Diflucan</i>)	Sulfamethoxazole/Tri
Cephalexin (<i>Keflex</i>)	Gatifloxacin (<i>Tequin</i>)	methoprim (<i>Bactrim,</i>
	Itraconazole	<i>Septa</i>)
	(<i>Sporanox</i>)	Tetracycline
	Levofloxacin	(<i>Sumycin</i>)
	(<i>Levaquin</i>)	Valacyclovir (<i>Valtrex</i>)

**ANTIBIOTIC / ANTIVIRAL /
ANTIFUNGAL DRUGS - Topical:**

Acyclovir (*Zovirax*)
Bacitracin/Polymyxin (*Polysporin*)
Bacitracin/Polymyxin/Neomycin
(*Neosporin*)
Clotrimazole (*Lotrimin*)
Docosanol (*Abreva*)
Mycostatin (*Monistat*)
Penciclovir (*Denavir*)
Terbinafine (*Lamisil*)
Tolnaftate (*Tinactin*)

ANTI-HISTAMINES / ALLERGIES:

Allergies (Non-Sedating Antihistamines):

Cetirizine (*Zyrtec*)
Desloratadine (*Clarinex*)
Fexofenadine (*Allegra*)
Loratadine (*Claritin, Alavert*)

**Allergies (Sedating
Antihistamines):**

Brompheniramine (*Dimetane*) **
Chlorpheniramine (*Chlor-Trimeton*) **
Clemastine (*Tavist*) **
Diphenhydramine (*Benadryl*) **
Hydroxyzine (*Atarax, Vistaril*) **

**** These products on the left should
only be used with Treatment Coordinator
approval as they may cause sedation and
may negatively impact your recovery.**

ANTIBIOTIC / ANTIVIRAL / ANTIFUNGAL DRUGS - Topical:

Acyclovir (*Zovirax*)
Bacitracin/Polymyxin (*Polysporin*)
Bacitracin/Polymyxin/Neomycin (*Neosporin*)
Clotrimazole (*Lotrimin*)
Docosanol (*Abreva*)
Mycostatin (*Monistat*)
Penciclovir (*Denavir*)
Terbinafine (*Lamisil*)
Tolnaftate (*Tinactin*)

ANTI-HISTAMINES / ALLERGIES:

Allergies (Non-Sedating Antihistamines):

Cetirizine (*Zyrtec*)
Desloratadine (*Clarinex*)
Fexofenadine (*Allegra*)
Loratadine (*Claritin, Alavert*)

Allergies (Sedating Antihistamines):

Brompheniramine (*Dimetane*) **
Chlorpheniramine (*Chlor-Trimeton*) **
Clemastine (*Tavist*) **
Diphenhydramine (*Benadryl*) **
Hydroxyzine (*Atarax, Vistaril*) **

**** These products on the left should only be used with Treatment Coordinator approval as they may cause sedation and may negatively impact your recovery.**

ASTHMA / ALLERGIES / COPD / PULMONARY DISORDERS:

Inhalers:

Albuterol (*Pro-Air, Ventolin*)
Albuterol/Ipratropium (*Combivent*)
Beclomethasone (*QVAR*)
Budesonide (*Pulmicort*)
Fluticasone (*Flovent*)
Fluticasone / Salmeterol (*Advair*)
Formoterol (*Foradil*)
Ipratropium (*Atrovent*)
Levalbuterol (*Xopenex*)
Mometasone (*Asmanex*)
Salmeterol (*Serevent*)
Theophylline
Tiotropium (*Spiriva*)
Triamcinolone (*Azmacort*)

ASTHMA / ALLERGIES / COPD / PULMONARY DISORDERS – cont'd:

Oral:

Montelukast (*Singulair*)
Zafirkulast (*Accolate*)

BPH / PROSTATE:

Alfuzosin (*Uroxatral*)
Doxazosin (*Cardura*)
Dutasteride (*Avodart*)
Finasteride (*Proscar*)
Silodosin (*Rapaflo*)
Tamsulosin (*Flomax*)
Terazosin (*Hytrin*)

CARDIOVASCULAR:

(Blood Pressure / Anticoagulants / Anti-Platelet / Cholesterol Lowering / Diuretics)

Amlodipine (<i>Norvasc</i>)	Enalapril (<i>Vasotec</i>)	Metoprolol (<i>Lopressor</i>)
Amlodipine/Benazepril (<i>Lotrel</i>)	Enoxaparin (<i>Lovenox</i>)	Niacin (<i>Niaspan</i>)
Aspirin	Ezetimibe (<i>Zetia</i>)	Nisoldipine (<i>Sular</i>)
Atenolol (<i>Tenormin</i>)	Ezetimibe/Simvastatin (<i>Vytorin</i>)	Nitroglycerin
Atorvastatin (<i>Lipitor</i>)	Fenofibrate (<i>Tricor</i>)	Olmesartan (<i>Benicar</i>)
Benazepril (<i>Lotensin</i>)	Fosinopril (<i>Monopril</i>)	Pravastatin (<i>Pravachol</i>)
Bumetadine (<i>Bumex</i>)	Furosemide (<i>Lasix</i>)	Propranolol (<i>Inderal</i>)
Captopril (<i>Capoten</i>)	Gemfibrozil (<i>Lopid</i>)	Quinapril (<i>Accupril</i>)
Candesartan (<i>Atacand</i>)	Heparin	Ramipril (<i>Altace</i>)
Carvedilol (<i>Coreg</i>)	Hydrochlorothiazide (<i>Hydrodiuril</i>)	Rosuvastatin (<i>Crestor</i>)
Cholestyramine (<i>Questran</i>)	Hydrochlorothiazide/Triamterene (<i>Maxzide, Dyazide</i>)	Simvastatin (<i>Zocor</i>)
Clopidogrel (<i>Plavix</i>)	Irbesartan (<i>Avapro</i>)	Sotalol (<i>Betapace</i>)
Dalteparin (<i>Fragmin</i>)	Irbesartan/HCTZ (<i>Avalide</i>)	Spironolactone (<i>Aldactone</i>)
Digoxin (<i>Lanoxin</i>)	Isosorbide (<i>Imdur, Isordil</i>)	Torsemide (<i>Demadex</i>)
Diltiazem (<i>Cardizem, Cardizem CD</i>)	Lisinopril (<i>Zestril, Prinivil</i>)	Valsartan (<i>Diovan</i>)
	Losartan (<i>Cozaar</i>)	Verapamil (<i>Calan, Calan SR</i>)
	Losartan/HCTZ (<i>Hyzaar</i>)	Warfarin (<i>Coumadin</i>)

COUGH / COLDS / NASAL CONGESTION / CHEST CONGESTION:

(See also *Drugs for Allergies*)

Cough & Expectorant Preparations:

Benzonatate (*Tessalon Perles*)
Cepacol Lozenges
Chloraseptic Lozenges
Guaifenesin (*Humibid LA, Mucinex, Robitussin*)
Halls Cough Drops
Ludens Cough Drops

Avoid liquid preparations which may contain alcohol.

Decongestants:

Combination products with Pseudoephedrine (*Actifed, Cardec, Clartin D, Deconamine, Dimetapp, Entex PSE, Mucinex D, Novafed, Sudafed, Zyrtec D*)

Combination products with Phenylephrine (*Entex LA, Nalex, Rondec, Rynatan, Sudafed Non-Drowsy, Tussafed*)

 **Decongestants should be used only with Treatment Coordinator approval because they are stimulating and can negatively impact your recovery.**

Nasal Gels & Sprays - OTC:

Cromolyn (*NasalCrom*)

Desoxyephedrine (*Vicks Nasal Inhaler*)

Oxymetazoline (*Afrin, Dristan*) **

Phenylephrine (*Vicks Sinex, 4 Way Nasal Spray, NeoSynephrine*) **

Saline (*Ocean, Seasoft, Ayr*)

Zicam Nasal Gel

Prescription:

Azelastine (*Astelin*)

Fluticasone (*Flonase*)

Mometasone (*Nasonex*)

Budesonine (*Rhinocort*)

Ipratropium (*Atrovent*)

Triamcinolone (*Nasacort*)

**** Note the warning on OTC products to use for maximum of 3 days **.**

DIABETES / BLOOD SUGAR:

Acarbose (*Precose*)
Chlorpropamide (*Diabenese*)
Exenatide (*Byetta*)
Insulins (*Apidra, Humalog, Humulin, Lantus, Levemir, Novolog, Novolin, NPH, regular*)
Glimepiride (*Amaryl*)
Glipizide (*Glucotrol*)
Glyburide (*Diabeta, Micronase*)
Linagliptin (*Tradjenta*)
Linagliptin/Metformin (*Jentadueto*)
Miglitol (*Glyset*)
Nateglinide (*Starlix*)
Pioglitazone (*Actos*)
Repaglinide (*Prandin*)
Rosiglitazone (*Avandia*)
Sitagliptin (*Januvia*)

***When in doubt,
ask your
Treatment
Coordinator!***

ERECTILE DYSFUNCTION:

Sildenafil (*Viagra, Adcirca*)
Tadalafil (*Cialis*)
Vardenafil (*Levitra, Staxyn*)

EYE DISORDERS / DRY EYE / GLAUCOMA:

Betaxalol (*Betoptic*)
Bimatoprost (*Lumigan*)
Brimonidine (*Alphagan P*)
Brinzolamide (*Azopt*)
Carboxymethylcellulose (*Tears, Natural Tears, Systane*)
Cyclosporine (*Restasis*)
Dorzolamide (*Trusopt*)
Dorzolamide / Timolol (*Cosopt*)
Latanoprost (*Xalatan*)
Metipranolol (*Optipranolol*)
Tetrahydrozoline (*Visine, Clear Eyes*)
Timolol (*Timoptic*)

GASTROINTESTINAL PRODUCTS:

Antacids / Gerd - OTC:

Aluminum / Magnesium / Calcium & Combo Products (*Alamag, Basaljel, Gaviscon, Maalox, Mag-Al, Mylanta, Riopan, Rolaids, Rulox, Tums, various generic products*)

Famotidine (*Pepcid*)

Ranitidine (*Zantac*)

Omeprazole (*Prilosec*) - Omeprazole / Na Bicarb (*Zegerid*)

Antacids / Gerd - Prescription:

Deslansoprazole (*Dexilant*)
Esomeprazole (*Nexium*)
Metoclopramide (*Reglan*)

Pantoprazole (*Protonix*)
Rabeprazole (*Aciphex*)

Constipation:

Bisacodyl (*Dulcolax* – tablet / suppositories)
Docusate (*Colace*)
Fiber products (*Benefiber, Fibercon*)
Glycerin Suppositories
Magnesium Citrate
Milk of Magnesia

Mineral Oil
Polyethylene Glycol (*Miralax*)
Psyllium (*Metamucil, Benefiber*)
Senna (*Senokot*)
Senna / Docusate (*Peri-Colace*)

Diarrhea / Gas:

Bismuth Subsalicylate (*Pepto-Bismol, Kaopectate*)
Loperamide (*Imodium*)
Simethicone (*Mylicon*)

GASTROINTESTINAL PRODUCTS – cont'd:

IBS / Colitis / Chronn's:

Alosetron (*Lotronex*)
Anticholinergic / Antispasmodics – (May be used for diarrhea like *Levsin, Bentyl, Anaspaz*)
Lubiprostone (*Amitiza*)
Mesalamine (*Asacol, Lialda, Pentasa, Rowasa*)

 **Do not take Donnatal as it contains Phenobarbital and will show positive in a urine drug screen.**

Nausea - OTC:

Bismuth Subsalicylate (*Pepto-Bismol, Kaopectate*)
Dimenhydrinate (*Dramamine*) **
Meclizine (*Bonine, Antivert*) **
Phosphorylated

Nausea - Prescription:

Metoclopramide (*Reglan*)
Ondansetron (*Zofran*)
Scopolamine (*Transderm Scop*)
Carbohydrate (*Emetrol*)

**** May cause dizziness and/or drowsiness – use other products first. ****

 **Any other prescription drugs for nausea must be approved by the Treatment Coordinator prior to ingestion of medication.**

Stomach Cramps:

Dicyclomine (*Bentyl*)
Hyoscyamine (*Levsin*)

GOUT:

Allopurinol (Zyloprim)
Colchicine (Various)
Febuxostat (Uloric)

GYNECOLOGIC / HORMONES / BIRTH CONTROL:

Estrogens – Oral, Topical and Vaginal:

Premarin
Menest
Estrace
Vagifem
Femring
Estring
Enjuvia
DepoProvera

Estrogen / Progestin Combos:

PremPro (various)

Estrogen / Receptor Modulator:

Evista

Estrogen / Testosterone Combos:

Estratest (various)
Oral Birth Control Pills
Progesterone (*Prometrium*)
Spermicides

HEMORRHOIDS:

Rectal Creams / Suppositories / Foams:

Shark Liver Oil, Phenylephrine, Petrolatum (*Preparation H*)
Hydrocortisone (*Anusol, Anusol HC, Preparation HC, Proctofoam*)
Pramoxine and Pramoxine HC (*Proctofoam, Proctofoam HC*)

*Vaginal and
topical gels and
spermicides may
have alcohol in
them.

HOUSEHOLD CLEANING PRODUCTS:

Be aware that many household cleaning products contain alcohol. Incidental exposure may result in a positive urine drug screen. Read labels and wear gloves.

INCONTINENCE / OVERACTIVE BLADDER / CYSTITIS:

Darifenacin (*Enablex*)
Fesoterodine (*Toviaz*)
Oxybutynin (*Ditropan*, *Ditropan XL*)
Solifenacin (*Vesicare*)
Tolterodine (*Detrol*, *Detrol LA*)
Phenazopyridine (*Pyridium*)

**MENTAL & EMOTIONAL DISORDERS / MOOD STABILIZATION /
DEPRESSION / BIPOLAR / SCHIZOPHRENIA / SEIZURES:**

Amitriptyline (*Elavil*)
Aripiprazole (*Abilify*)
Atomoxetine (*Strattera*)
Bupropion (*Wellbutrin*)
Buspirone (*Buspar*)
Carbamazepine (*Tegretol, Carbatrol*)
Chlorpromazine (*Thorazine*)
Citalopram (*Celexa*)
Clozapine (*Clozaril*)
Divalproex (*Depakote, Depakote ER*)
Doxepin (*Sinequan*)
Duloxetine (*Cymbalta*)
Escitalopram (*Lexapro*)
Ethosuxamide (*Zarontin*)
Fluoxetine (*Prozac*)
Fluvoxamine (*Luvox*)
Gabapentin (*Neurontin*)
Haloperidol (*Haldol*)
Lamotrigine (*Lamictal*)
Levetiracetam (*Keppra*)
Lithium (*Eskalith*)
Mirtazapine (*Remeron*)
Nefazodone
Nortriptyline (*Pamelor*)
Olanzapine (*Zyprexa*)
Oxcarbazepine (*Trileptal*)
Paroxetine (*Paxil*)
Perphenazine (*Trilafon*)
Phenytoin (*Dilantin*)
Quetiapine (*Seroquel*)
Risperidone (*Risperdal*)
Sertraline (*Zoloft*)
Tiagabine (*Gabitril*)
Zonisamide (*Zonegran*)
Topiramate (*Topamax*)
Trazodone (*Desyrel*)
Valproic Acid (*Depakene*)
Venlafaxine (*Effexor / Effexor XR*)
Vilazodone (*Viibryd*)
Ziprasidone (*Geodon*)

MIGRAINE / HEADACHES:

Almotriptan (*Axert*)
Amipriptyline (*Elavil*)
Eletriptan (*Relpax*)
Frovatriptan (*Frova*)
Naproxen / Sumatriptan (*Trexima*)
Naratriptan (*Amerge*)
Rizatriptan (*Maxalt*)
Sumatriptan (*Imitrex*)
Topiramate (*Topamax*)
Zolmitriptan (*Zomig*)

PAIN RELIEF:

Oral:

Acetaminophen (*Tylenol*)
Asprin (Various brands)
Celecoxib (*Celebrex*)
Diclofenac (*Voltaren*)
Disalcid (*Salsalate*)
Etodolac (*Lodine*)
Ibuprofen (*Advil, Motrin*)
Indomethacin (*Indocin*)
Ketoprofen (*Orudis*)
Ketorolac (*Toradol*)
Meloxicam (*Mobic*)
Nabumetone (*Relafen*)
Naproxen (*Aleve, Anaprox, Naprosyn*)
Oxaprozin (*Daypro*)
Piroxicam (*Feldene*)
Sulindac (*Clinoril*)

Topicals:

Aspercream
Ben-Gay
Epsom Salts
Icy Hot
Myoflex
Zostrix (*Capsaicin*)

Other:

Acupuncture
Chiropractic
Heating Pad
Ice
Massage Therapy
Stretching

PARKINSONS DISEASE:

Carbidopa / Levodopa (*Sinemet*)
Carbidopa / Levodopa / Entacapone (*Stalevo*)
Entacapone (*Comtan*)
Pramipexole (*Mirapex*)
Ropinirole (*Requip*) - Also approved for Restless Leg Syndrome

PERSONAL HYGIENE PRODUCTS:

ACT Anti-Cavity Fluoride Rinse (alcohol-free)
Choice DM
Cosmetics (alcohol-free only.)
Crest Pro-Health Rinse
Intensive Care Lotion (*Aquaphor*)
Lotions / Creams (*Eucerin, Lubriderm, Vaseline*)
