

## **Project Planning**

Come by the showroom to see our Stone Sample wall and check out our large inventory of full-size Stone slabs.

### **Feel free to bring in:**

- A cabinet door or cabinet sample for color matching
- A rough layout of your project with approximate dimensions for an initial quote or the cabinet schematic
- Tile samples or paint color swatches

### **During your initial showroom visit, we will go over;**

- Material selection including the Pro's & Con's of different surfaces
- Price estimation (if you've provided a rough layout of your project)
- Sink and faucet options
- Styles of countertop edging
- Policies & Procedures

### **Setting up your measure appointment**

The measure appointment allows us to get exact dimensions and details about your project. Once completed; a final and accurate quote can be created.

Important factors to consider before setting up the measure appointment:

- Cabinets are permanently installed; to include filler strips, refrigerator panels etc.
- The cabinets have been leveled
- Farm (apron) sinks are installed in the sink base
- Appliances such as Drop-in cooktops, ranges, etc. are on the premises
