OPTIMIZING NUTRITION.

EMPOWERING HUMAN HEALTH

The Ribbon is Cut!

Welcome Standard Process

The need for research on whole food-based clinical nutrition solutions for health is greater than ever. Now that Standard Process has opened its Nutrition Innovation Center on the NC Research Campus, the company plans to partner with scientists on campus to do just that.

Students Get Hands On with Health

How do you get students to take lessons in healthy eating seriously? The scientists, nutritionists and horticulturists at the NC Research Campus go with hands-on opportunities like school gardens and a high school chef challenge.
