

What do you see here?

A seedling, of course. But also a world of infinite potential. An investment. A legacy to your children. But what if other needs intervene? And you decide to sell your trees? For a child's college education. A daughter's wedding. Or even a son's first home. It won't be an easy decision. To help you sort it out, we'd like to send you a free copy of *A Simple Guide To Managing And Harvesting Your Trees*. Just call 1(800)284-5347. Or return the coupon.

We see something else too. More trees.
