TO Clifford CNC Tooling Surgeon,  
LLC

CC

FROM Keith Bocchicchio

SUBJECT Letter of Recommendation

---

To Whom it May Concern:

Ide has employed the services of Clifford CNC Tooling Surgeon LLC for the past 5 years including a number of manufacturing projects. In every case, the company has provided excellent service and met all specifications and requirements mandated by each project including on-time delivery. Clifford CNC Tooling Surgeon LLC, while in some cases not possessing all required capabilities in-house, networked with a close group of quality sub-contractors, yet maintained project control and full responsibility resulting in a positive outcome.

Neil Clifford has maintained a high degree of integrity in his work and communications with ide and accurately represented the company's capabilities and experience. I would recommend Clifford CNC Tooling Surgeon LLC, because I believe any project they commit to is within their capabilities to deliver.

Keith Bocchicchio
