36	501119	Nut: Nylock 3/8"1.6 SS	6

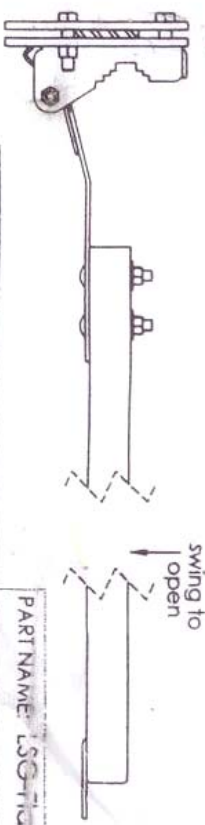

flat bar railing ranging from 2 1/4"-4"

configuration 1

configuration 2

Step 1:
Fasten the front plates to each of the railing brackets of the ladder safety gate with the 3/8"x1" flat head bolt and flange nut (use the countersunk hole).
note: The square hole in the plate is for the extension of the spring.

Step 2:
Insert one (1) 3/8"x1 1/2" bolt(s) in each of the round holes and fasten with 3/8" nylock nut(s). Then insert the other two(2) bolts in the slots and slide both bolts up tight to the rolling in which you are mounting to (typical for both plates) and fasten with 3/8" nylock nut(s).
