

NOVEMBER 2016 LUNCH PROGRAM

THURSDAY - NOVEMBER 17

11:30am-1:00pm

East Library

5550 North Union Blvd

COLORADO SPRINGS, CO 80918

Gerard L. Iacouzze

McGill AirFlow

Duct Design, LEED, & Good/Better/Best Duct Design

Topics covered include: *The basics, fundamentals, design & performance consideration, leakage & product choices. Energy saving via good duct design is highlighted along with conform, environment, health and productivity should appeal to both engineer/architect. Fan laws are reviewed along with types of diverging and converging fitting types that are used in duct systems. Sound control in duct design is explored with the various options for the designer. Leakage control & its impact on the design & performance is discussed. A basic look at exposed ductwork design & system is covered with examples of various types.*

Speaker Biography

Gerard Iacouzze is a technical consultant specializing in HVAC airflow in duct work. He provides training/consulting to engineers, contractors, specification writers and sales representatives. He has nearly 45 years of experience in his field. Gerard was the Technical Service Engineer-National for McGill AirFlow in Bowie, MD. He provided application engineering services to engineers, contractors, building owners, specifications writers & government engineers. During his 27 year career with McGill AirFlow, he was responsible for sales, training, application engineering and liaison services. Previously, Gerard was vice president of GLI Associates which was a management consulting firm providing services to trade associations, utilities, contractors & manufactures. Gerard has authored/co-authored 12 manuals, standards & duct construction documents. He holds a degree in mechanical engineering from West Virginia University, studied computer applications and HVAC equipment. Mr. Iacouzze is a member of ASHRAE and the National Capitol Chapter of Washington, DC.
