

**BASIN**  
**IMMEDIATE**  
**CARE**

Basin Immediate Care values our Medicare patients and we are happy to see you for your acute urgent care needs such as colds, sore throats, sprains, lacerations, sinusitis, etc. For more in-depth, long term medical issues or ongoing medical management, we feel your care is better suited with a single Primary Care Physician. Should you need chart notes sent to your new provider we would be happy to assist with that.

At this time we would offer the services of Sky Lakes Medical Center or Cascades East Family Medicine as alternatives to your medical needs.

Sky Lakes Medical Center: 2865 Daggett Ave. (541) 882-6311

Cascades East Family Medicine: 2801 Daggett Ave (541) 274-6733
