### August 2016 McBee Calf Roundup Sale Report

On August 9, 2016, McBee Cattle Company customers sold Braunvieh and Braunvieh cross geneticall verified calves through the Missouri Valley Commission Company in Boonville, Mo. Five different weight groups of steers and heifers were sorted 10 ways to be marketed in larger groups. Following a Vac-45 protocol, the calves were all weaned, unk broke, vaccinated twice and dewormed. They were also tagged with the identifying McBee Calf Roundup ear tag. The group sold as follows:

478 lb. steers @ \$172.00	438 lb. heifers @ \$160.00
542 lb. steers @ \$165.00	547 lb. heifers @ \$150.00
623 lb. steers @ \$157.50	605 lb. heifers @ \$144.00
708 lb. steers @ \$149.50	696 lb. heifers @ \$139.00
825 lb. steers @ \$142.00	835 lb. heifers @ \$125.00

The McBee Calf Roundup is held twice per year to allow our bull customers a market for their calves in larger groups than selling by themselves. The calves are grouped by size and sex with our calves and other customers calves. The next Roundup will be in January 2017 for spring calves.
