# New State Legislation Promoting ADUs

- ▶ A groundbreaking package of new laws went into effect Jan. 1, 2020 that some are calling "the end of single-family zoning"
  - ▶ Every single-family and some duplex (R2) lots could potentially have an ADU and JADU (Junior Accessory Dwelling Unit)
    - ◆ JADU: Shared facilities allowed, such as shared kitchen and bathroom with the main house (permitted without ordinance change)
- ▶ Requires local agencies to either **approve or deny an ADU project within 60 days** of receiving a complete building permit application. (AB 68 / AB 881 )
- ▶ **Prohibits minimum lot size**
- ▶ Fewer parking requirements
  - ▶ No parking replacement needed for garage conversions
- ▶ **No impact fees** on ADUs under 750 square feet (SB 13)
- ▶ Any HOA condition that "prohibits or unreasonably restricts" the construction of ADUs on single-family residential lots is void (AB-670)

**If your ADU did not meet planning requirements prior to Jan. 2020, try checking with your planning department again!**
