Jarrett Construction Services, Inc.
P.O. Box 7250
Charleston, WV 25356

RE: 1116 Kanawha Blvd, Charleston Project

To Whom It May Concern:

This letter of recommendation concerns the recent renovations of an 8,546 square foot facility in Charleston, WV.

Jarrett Construction Services is a company that is both professional and knowledgeable in the work they do. The building that they renovated for the Diocese of Wheeling/Charleston had many intricate and complex situations that were handled smoothly by the expert professionals supervising this project. The results that were achieved have resulted in a building that was once near disastrous to one that is very functional for office space.

The people at Jarrett Construction Services are very conscience of the budget and are very good at value engineering. John Jarrett, President, takes a high interest in all of the projects that they have done for us and I must commend him on his knowledge and professionalism. The working relationship between Owner, Architect and Construction Company in the projects that Jarrett Construction Services does seems to go so smoothly that I can feel confident that the work will be done satisfactorily without constant overview.

The Diocese of Wheeling/Charleston has used Jarrett Construction Services in the past and will utilize their talents in the future. I highly recommend this company for both renovations and new builds.

Sincerely,

Darryl Costanzo
Director of Buildings & Properties
Diocese of Wheeling/Charleston
