RE: 237 Capitol Street Project

Dear Mr. Jarrett:

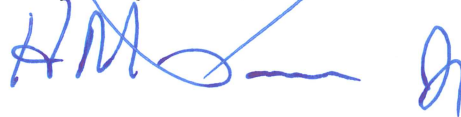

We are writing to express the overwhelming satisfaction we have had with the services you provided in completing the remodeling to our building located at 237 Capitol Street. Your superior vision, guidance and determination have left us with what we consider to be the ideal space, custom built for our specific needs and comfort.

We would especially like to commend project manager, Courtney Persinger, and field supervisor, Jerry Vandelinde, on a job well done from absolutely every vantage point and in every aspect. The project was completed on time and well under budget.

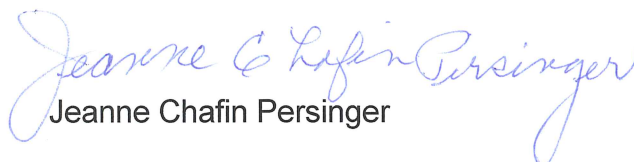

Our experience with Jarrett was a very positive one, and we would recommend your firm, without hesitation, to any person or entity seeking the highest quality construction services for his/her project.

Thank you again for a job well done.

Very Truly Yours,

Howard M. Persinger, Jr.

Jeanne Chafin Persinger
