To Whom This May Concern,

Jarrett Construction was our contractor for a recent million dollar addition and renovation project at our church. We are very pleased with the work they did for us. With the exception of delays caused by weather, all work was done in a timely manner. Jarrett's supervisors were easy to work with and went out of their way to be helpful to us. If we had any questions or concerns they responded to us right away and took care of whatever the issue might be. We encountered no problems with them and would definitely recommend them to anyone who is planning a construction project.

If you have any questions about our experience with the company, please feel free to call me.

Sincerely,

Rev. Frank T. Shomo, DMin
Pastor
