RE: Jamesmark Building Rehabilitation

Dear Mr. Jarrett:

The purpose of this letter is to thank you for the fine work Jarrett Construction did on the historic adaptive reuse of this downtown Charleston building. I believe the success of this project was due in large part to the interaction your company had with the Historic Preservation office regarding the materials and methods required by them in order for the historic rehabilitation objective of the owners to be met.

Again, Congratulations on another successful project.

Sincerely,
KREPS AND ZACHWIEJA ARCHITECTS/CONSULTANTS, INC.

Mark T. Zachwieja
President
