

THE MORRIS FOUNDATION

August 22, 2007

To Whom It May Concern:

I am honored to write this letter of recommendation supporting John Jarrett and Jarrett Construction Services, Inc. For several years, my family had a vision of creating a community sports complex. This past summer, our vision became a reality through the work and dedication of John Jarrett and Jarrett Construction.

This project was unique in that throughout the entire construction process, and all the planning, everyone who participated understood that this complex would always be something that the community would use and would on its own, generate little to no income. It was truly a non-profit project. However, there were no corners cut, and every decision made, was made with the thought, "How could this be better for the people that will use this facility?"

We had weekly construction meetings on site, in Glenville, with John Jarrett, Scott Melton, and John Prince. These meetings helped to keep everyone informed and deal with any problems as they arose. Considering that our site is located almost two hours from Charleston, I was very pleased with the time and attention that we received in this regard.

In summary, I was very pleased with the quality of work that was provided, and would certainly recommend the services of John Jarrett and Jarrett Construction Services, Inc., to anyone who is contemplating a construction project.

Sincerely,

Betty Sue Morris
President
